Resource Planning and Development Commission  
3<sup>rd</sup> Floor, 144 Macquarie Street  
Hobart 7000

Dear Commission Members,

Re: - Ralphs Bay

Ralphs Bay is one of beauty and of conservation value.

All will be lost and destroyed by building if Walkers' development goes ahead.

Now it is one of open space.

Imposing Mt Wellington backdrop, the ambience of the area is very important and to ones eye. The changing light, the variety of weather which changes the bay moods is appreciated by us. With extensive reflections, stormy waters, tidal pools, flats and masses of birds feeding are all so close to passers by.

It is now a conservation ground for birds and marine species. We certainly need these areas to be kept. The birds can't speak up for their special area - but we can.

Please keep the bay in its present state. There is plenty of land to build houses on and we need to keep our coastlines in their natural state.

Yours sincerely,  
Tina Terry
