

Resource Planning and Development Commission  
144-148 Macquaire St Hobart Tas. 7000

Ref; Bell Bay Pulp Mill.

This letter is to support the managed introduction and implementation of the above Pulp Mill.

I accept and support your role in managing and directing the processes and requirements to be met to facilitate a safe and acceptable outcome of the Pulp Mill.

A desirable outcome is to further Tasmania and to gain economic benefits from resources that are available within the State via a process that delivers better values and better uses of these resources is going to be a good result.

Your role in ensuring that it meets acceptable standards whilst delivering an economic outcome for Tasmania is an onerous task but the result should be a satisfactory contribution to economic growth in Tasmania.

Yours faithfully

L.P. Dillon
