Executive Commissioner
Resource Planning and Development Commission
3rd Floor, 144 Macquarie Street,
GPO Box 1691
HOBART, TAS 7001.

14th September, 2006

Dear Sir,

PROPOSED PULP MILL - DRAFT INTEGRATED IMPACT STATEMENT

I wish this e-mailed letter to be accepted pursuant to the public submission opportunity afforded by the Commission.

- I suffer from chronic asthma.
- Our property at Swan Bay directly fronts the Tamar River on its southern shore.
- The most dominant prevailing winds are from from the NW. (refer Australian Bureau of Meteorology)
- The proposed pulp mill is directly upwind to our NNW. (refer Google Earth for confirmation of this)
- Any pollutants released by the mill during the predominant N - NW winds will seriously affect my health.

Therefore, I wish this submission to be addressed to matters of public health which may be exacerbated by the proposed pulp mill.

Yours faithfully,

W J D Henshaw
