Resource Planning and Development Commission

10 June 2009

Warren Jones
Director
Environment Protection Authority (TAS)
Level 6, 134 Macquarie Street
HOBART TAS 7000

Dear Mr Jones

DIRECTION TO PRODUCE DOCUMENTS

Pursuant to section 14 of the *Resource Planning and Development Commission Act 1997*, you are required to produce the following documents in connection with the hearing into the Lauderdale Quay Project of State Significance currently being undertaken by the Commission.

All files relating to the management, operation and rehabilitation of the Lauderdale Tip as a Level 2 activity, including monitoring records and results of inspections carried out by the responsible Department.

You are required to produce the relevant documents to the office of the Resource Planning and Development Commission, Level 3, 144 Macquarie Street, Hobart within 7 days from the date of this letter.

As a matter of courtesy I would have made this a request, but section 14 uses the word 'required'.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Keyran Pitt', is written over a horizontal line. The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

Keyran Pitt QC

CHAIR, ASSESSMENT PANEL
