Ms Kathrine Morgan-Wicks
Commissioner of Ambulance Services
Department of Health

By email: katherine.morgan-wicks@health.tas.gov.au

Dear Ms Morgan-Wicks

Macquarie Point Multipurpose Stadium - Project of State Significance Integrated assessment process

The Tasmanian Planning Commission (the Commission) is required to undertake an integrated assessment of the Macquarie Point Multipurpose Stadium, which has been declared a project of State significance.

Under section 21 of the *State Policies and Projects Act 1993* (the Act) the Commission must within 14 days of the commencement of the assessment give to each 'agency'¹ which the Commission considers has an interest in the project notice. Thereafter, such agency has 28 days (or such longer period as the Commission may allow) to make submissions to the Commission setting out the agency's views in relation to the project.

In addition the Commission must, under section 22 of the Act, prepare a draft integrated assessment report in consultation with each such agency (and the Hobart City Council). The draft has to be placed on public exhibition and advertised.

Please note that the Commission has not yet commenced the integrated assessment. It will commence when the Macquarie Point Development Corporation has provided to the Commission all the reports relied on by the Corporation.

The Commission has determined Commissioner of Ambulance Services to be a relevant agency with an interest in the Macquarie Point multipurpose stadium. A number of others have likewise been determined to be an 'agency'.

This letter is to advise at an early stage how the integrated assessment process for the project will include Ambulance Services and to provide forewarning, to allow Ambulance Services to plan for their involvement.

In due course the formal notice under section 21(1) of the Act will be given. Accompanying will be the reports from the Macquarie Point Development Corporation.

As noted, the Commission is required to consult with Ambulance Services in the preparation of a draft integrated assessment report. To that end, the Commission will hold meetings with the agencies as required, including to explore matters raised in their submissions.

¹ As defined in section 3 of the Act.

The Commission will establish procedures and communication protocols to apply at the meetings to ensure there is transparency in the scope and outcomes of these meetings.

A flowchart providing further details of the integrated assessment process is attached.

Further information can be found at the Commission website under [Macquarie Point Multipurpose Stadium Integrated Assessment](http://www.planning.tas.gov.au/assessments-and-hearings/current-assessments-and-hearings/macquarie-point-multipurpose-stadium-integrated-assessment)².

If you wish to nominate a specific contact officer for the project, please respond by email to tpc@planning.tas.gov.au.

If you have any queries or otherwise wish to raise any matter(s) then please contact Sarah Fourez, Senior Planning Adviser, on 03 6165 6819.

Yours sincerely

TASMANIAN PLANNING COMMISSION

Assessment of projects of state significance Part 3, State Policies and Projects Act 1993 Macquarie Point Multi-Purpose Stadium

TASMANIAN PLANNING COMMISSION

Integrated assessment report and recommendation to Minister *Macquarie Point Multi-Purpose Stadium*

Preparation of reports

The Commission writes to the Hobart City Council and agencies to inform them that they have been identified as 'relevant agencies'.

Macquarie Point Corporation (Corporation) is invited to submit reports which address the matters in the guidelines as well as its views on the merit of the proposed project.

Prior to submitting reports, the Corporation may liaise with staff of the Commission on how relevant matters are addressed.

Views on project from Council & Agencies

The Commission commences its assessment when all reports have been received from the Corporation.

The Commission notifies and seeks written submissions from the Hobart City Council and agencies.

Consultation with Council & Agencies

The Commission will hold meetings with the Hobart City Council and agencies as required, including to clarify or explore matters raised in their submissions.

The Commission may seek specialist professional advice on matters it is addressing.

Following its consideration of advice, the Commission may:

- hold further meetings with the Hobart City Council or agencies; and will
- provide the Corporation with an opportunity to respond.

Public exhibition of draft IAR

The Commission prepares its draft integrated assessment report (IAR) and publicly exhibits it, along with any submissions received.

Representations may be submitted by any person during the exhibition period. The Commission must consider representations.

The Commission may hold hearings in relation to representations. The Corporation will be invited to participate in any hearings.

Final IAR and recommendation

Following the process above, the Commission may modify the draft IAR.

The Commission submits a report to Minister with a recommendation on whether or not the project should proceed, and if so on what conditions.

In addition the Commission must, under section 22 of the Act, prepare a draft integrated assessment report in consultation with each such agency (and the Hobart City Council). The draft has to be placed on public exhibition and advertised.

Please note that the Commission has not yet commenced the integrated assessment. It will commence when the Macquarie Point Development Corporation has provided to the Commission all the reports relied on by the Corporation.

The Commission has determined Marine and Safety Authority, Tasmania to be a relevant agency with an interest in the Macquarie Point multipurpose stadium. A number of others have likewise been determined to be an 'agency'.

This letter is to advise at an early stage how the integrated assessment process for the project will include Marine and Safety Tasmania and to provide forewarning, to allow Marine and Safety Tasmania to plan for their involvement.

In due course the formal notice under section 21(1) of the Act will be given. Accompanying will be the reports from the Macquarie Point Development Corporation.

As noted, the Commission is required to consult with Marine and Safety Tasmania in the preparation of a draft integrated assessment report. To that end, the Commission will hold meetings with the agencies as required, including to explore matters raised in their submissions.

¹ As defined in section 3 of the Act.

The Commission will establish procedures and communication protocols to apply at the meetings to ensure there is transparency in the scope and outcomes of these meetings.

A flowchart providing further details of the integrated assessment process is attached.

Further information can be found at the Commission website under [Macquarie Point Multipurpose Stadium Integrated Assessment](http://www.planning.tas.gov.au/assessments-and-hearings/current-assessments-and-hearings/macquarie-point-multipurpose-stadium-integrated-assessment)².

If you wish to nominate a specific contact officer for the project, please respond by email to tpc@planning.tas.gov.au.

If you have any queries or otherwise wish to raise any matter(s) then please contact Sarah Fourez, Senior Planning Adviser, on 03 6165 6819.

Yours sincerely

TASMANIAN PLANNING COMMISSION

Assessment of projects of state significance Part 3, State Policies and Projects Act 1993 Macquarie Point Multi-Purpose Stadium

TASMANIAN PLANNING COMMISSION

Integrated assessment report and recommendation to Minister *Macquarie Point Multi-Purpose Stadium*

Preparation of reports

The Commission writes to the Hobart City Council and agencies to inform them that they have been identified as 'relevant agencies'.

Macquarie Point Corporation (Corporation) is invited to submit reports which address the matters in the guidelines as well as its views on the merit of the proposed project.

Prior to submitting reports, the Corporation may liaise with staff of the Commission on how relevant matters are addressed.

Views on project from Council & Agencies

The Commission commences its assessment when all reports have been received from the Corporation.

The Commission notifies and seeks written submissions from the Hobart City Council and agencies.

Consultation with Council & Agencies

The Commission will hold meetings with the Hobart City Council and agencies as required, including to clarify or explore matters raised in their submissions.

The Commission may seek specialist professional advice on matters it is addressing.

Following its consideration of advice, the Commission may:

- hold further meetings with the Hobart City Council or agencies; and will
- provide the Corporation with an opportunity to respond.

Public exhibition of draft IAR

The Commission prepares its draft integrated assessment report (IAR) and publicly exhibits it, along with any submissions received.

Representations may be submitted by any person during the exhibition period. The Commission must consider representations.

The Commission may hold hearings in relation to representations. The Corporation will be invited to participate in any hearings.

Final IAR and recommendation

Following the process above, the Commission may modify the draft IAR.

The Commission submits a report to Minister with a recommendation on whether or not the project should proceed, and if so on what conditions.

Ms Denise McIntyre
Acting Deputy Secretary
Transport and Infrastructure

By email: info@stategrowth.tas.gov.au; Denise.McIntyre@stategrowth.tas.gov.au

Dear Ms McIntyre

Macquarie Point Multipurpose Stadium - Project of State Significance Integrated assessment process

The Tasmanian Planning Commission (the Commission) is required to undertake an integrated assessment of the Macquarie Point Multipurpose Stadium, which has been declared a project of State significance.

Under section 21 of the *State Policies and Projects Act 1993* (the Act) the Commission must within 14 days of the commencement of the assessment give to each 'agency'¹ which the Commission considers has an interest in the project notice. Thereafter, such agency has 28 days (or such longer period as the Commission may allow) to make submissions to the Commission setting out the agency's views in relation to the project.

In addition the Commission must, under section 22 of the Act, prepare a draft integrated assessment report in consultation with each such agency (and the Hobart City Council). The draft has to be placed on public exhibition and advertised.

Please note that the Commission has not yet commenced the integrated assessment. It will commence when the Macquarie Point Development Corporation has provided to the Commission all the reports relied on by the Corporation.

The Commission has determined The Commissioner for Transport to be a relevant agency with an interest in the Macquarie Point multipurpose stadium. A number of others have likewise been determined to be an 'agency'.

This letter is to advise at an early stage how the integrated assessment process for the project will include Transport Tasmania and to provide forewarning, to allow Transport Tasmania to plan for their involvement.

In due course the formal notice under section 21(1) of the Act will be given. Accompanying will be the reports from the Macquarie Point Development Corporation.

As noted, the Commission is required to consult with Transport Tasmania in the preparation of a draft integrated assessment report. To that end, the Commission will hold meetings with the agencies as required, including to explore matters raised in their submissions.

¹ As defined in section 3 of the Act.

The Commission will establish procedures and communication protocols to apply at the meetings to ensure there is transparency in the scope and outcomes of these meetings.

A flowchart providing further details of the integrated assessment process is attached.

The Tasmanian Planning Commission (the Commission) is required to undertake an integrated assessment of the Macquarie Point Multipurpose Stadium, which has been declared a project of State significance.

Under section 21 of the *State Policies and Projects Act 1993* (the Act) the Commission must within 14 days of the commencement of the assessment give to each 'agency'¹ which the Commission considers has an interest in the project notice. Thereafter, such agency has 28 days (or such longer period as the Commission may allow) to make submissions to the Commission setting out the agency's views in relation to the project.

In addition the Commission must, under section 22 of the Act, prepare a draft integrated assessment report in consultation with each such agency (and the Hobart City Council). The draft has to be placed on public exhibition and advertised.

Please note that the Commission has not yet commenced the integrated assessment. It will commence when the Macquarie Point Development Corporation has provided to the Commission all the reports relied on by the Corporation.

The Commission has determined Tasmanian Networks Pty Ltd [TasNetworks] to be a relevant agency with an interest in the Macquarie Point multipurpose stadium. A number of others have likewise been determined to be an 'agency'.

This letter is to advise at an early stage how the integrated assessment process for the project will include TasNetworks and to provide forewarning, to allow TasNetworks to plan for their involvement.

In due course the formal notice under section 21(1) of the Act will be given. Accompanying will be the reports from the Macquarie Point Development Corporation.

As noted, the Commission is required to consult with TasNetworks in the preparation of a draft integrated assessment report. To that end, the Commission will hold meetings with the agencies as required, including to explore matters raised in their submissions.

¹ As defined in section 3 of the Act.

The Commission will establish procedures and communication protocols to apply at the meetings to ensure there is transparency in the scope and outcomes of these meetings.

A flowchart providing further details of the integrated assessment process is attached.

Further information can be found at the Commission website under [Macquarie Point Multipurpose Stadium Integrated Assessment](http://www.planning.tas.gov.au/assessments-and-hearings/current-assessments-and-hearings/macquarie-point-multipurpose-stadium-integrated-assessment)².

If you wish to nominate a specific contact officer for the project, please respond by email to tpc@planning.tas.gov.au.

If you have any queries or otherwise wish to raise any matter(s) then please contact Sarah Fourez, Senior Planning Adviser, on 03 6165 6819.

Yours sincerely

TASMANIAN PLANNING COMMISSION

Assessment of projects of state significance Part 3, State Policies and Projects Act 1993 Macquarie Point Multi-Purpose Stadium

TASMANIAN PLANNING COMMISSION

Integrated assessment report and recommendation to Minister *Macquarie Point Multi-Purpose Stadium*

Preparation of reports

The Commission writes to the Hobart City Council and agencies to inform them that they have been identified as 'relevant agencies'.

Macquarie Point Corporation (Corporation) is invited to submit reports which address the matters in the guidelines as well as its views on the merit of the proposed project.

Prior to submitting reports, the Corporation may liaise with staff of the Commission on how relevant matters are addressed.

Views on project from Council & Agencies

The Commission commences its assessment when all reports have been received from the Corporation.

The Commission notifies and seeks written submissions from the Hobart City Council and agencies.

Consultation with Council & Agencies

The Commission will hold meetings with the Hobart City Council and agencies as required, including to clarify or explore matters raised in their submissions.

The Commission may seek specialist professional advice on matters it is addressing.

Following its consideration of advice, the Commission may:

- hold further meetings with the Hobart City Council or agencies; and will
- provide the Corporation with an opportunity to respond.

Public exhibition of draft IAR

The Commission prepares its draft integrated assessment report (IAR) and publicly exhibits it, along with any submissions received.

Representations may be submitted by any person during the exhibition period. The Commission must consider representations.

The Commission may hold hearings in relation to representations. The Corporation will be invited to participate in any hearings.

Final IAR and recommendation

Following the process above, the Commission may modify the draft IAR.

The Commission submits a report to Minister with a recommendation on whether or not the project should proceed, and if so on what conditions.

Consultation with Council & Agencies

The Commission will hold meetings with the Hobart City Council and agencies as required, including to clarify or explore matters raised in their submissions.

The Commission may seek specialist professional advice on matters it is addressing.

Following its consideration of advice, the Commission may:

- hold further meetings with the Hobart City Council or agencies; and will
- provide the Corporation with an opportunity to respond.

Public exhibition of draft IAR

The Commission prepares its draft integrated assessment report (IAR) and publicly exhibits it, along with any submissions received.

Representations may be submitted by any person during the exhibition period. The Commission must consider representations.

The Commission may hold hearings in relation to representations. The Corporation will be invited to participate in any hearings.

Final IAR and recommendation

Following the process above, the Commission may modify the draft IAR.

The Commission submits a report to Minister with a recommendation on whether or not the project should proceed, and if so on what conditions.
