Submission

Thank you, Re the large gravel area next to the BYC which is used for overflow parking. I believe this is an important public space and should be retained and improved as a free car park and other public use. I think there could be some minor commercial use of the area from the old rail terminus/boat shed to Eastlands but it is an important recreation area and should be retained as such. I agree with Cr Mulder that a large hotel and luxury apartments should not be built there. The car parking needs for hotel users would make it difficult for the public. Thank you
