Attent The General Manager.

Dear Sir,

In my short time living in Westbury, I find the progress rate extremely high and alarming. "Low" density living with the stroke of a pen becomes "High" density living - more subdivisions, smaller blocks, more traffic, and this is the rural end of Westbury.

No consideration for the future, apart from modern progress - bricks and mortar. The serene country atmosphere is so important, the clear air, the hawthorn hedges, and animal life is unreplaceable and makes Westbury unique.

Please dont destroy all of what we still have remaining.

Yours sincerely Susan Hartam.
