[REDACTED]

I am 86 years old, so I am unlikely to be affected by whatever decision is made, but because of the enormity of this proposed development I feel the people who are going to be locked into paying for it should be able to express their opinion rather than those wanting to be elected to parliament. I don't have a preference because I don't have enough information, but feel that two things should happen before an informed decision can be made, they are The MacPoint Precinct Plan and The Review of The Aboriginal Heritage Act (1975) be completed. For too long we have gone off half cocked and found ourselves "up the creek without a paddle". Please think long and hard about your decision.

Regards,
ROD BROADBY
