To Whom It May Concern

Regarding the proposed stadium that our current State Government is determined to put through, I wish to voice my objections.

I am not against an AFL team (even though I don't follow AFL) nor am I against a stadium. I am, however, opposed not only to its location but it's cost, the lack of transparency regarding building approvals, etc.

It is my opinion that the Coleman Proposal for a stadium on the Domain waterfront is much more acceptable, feasible and common sense in all respects to make the stadium viable. That proposal would indeed be one of State Significance and would not cost the Tasmanian taxpayer (of which I am one), any more than what was originally proposed.

As the Tasmanian Planning Commission, PLEASE address this issue with the important it deserves.
