[REDACTED]

Good Afternoon,

I offer my support to the Macquarie Point Stadium proposal for the following reasons:

- Development of a world class stadium for Tasmania
- Provides an opportunity for Tasmanians, Australians and international stars to play or perform in a world class venue
- Has the opportunity to provide some of the best conference facilities that are not currently available in Tasmania
- Holding of events that are not willing to come to Tasmania as they would not be feasible due to venue capacity
- Opportunity to promote Tasmanian produce and also develop a number of retail opportunities
- Provide wonderful hospitality facilities
- Provide wonderful employment and training opportunities without Tasmanians having to move to the mainland for further opportunities
- Tours could be provided through the facility
- Provide further support to development of light rail/busway and additional ferries for people attending the venue
- One of the wonderful facilities for the waterfront
- Provides endless economic opportunities for the state

There are many more reasons and I support the draft guidelines that have been formulated previously.

If you need to contact me, you can either call me on [REDACTED] or email me at [REDACTED]

Kind Regards,

Shane Wilkins
