Subject: Objection to proposed Cellars Hill Wind Farm

You don't often get email from [REDACTED]. [Learn why this is important](#)

I object to this proposal for the following reasons:

It is a blight on the landscape.

It is therefore negative for Tasmania's important tourism industry.

It poses an unacceptable risk to the endangered Wedge-tailed eagle and other birds.

It introduces pollution into the air, water and ground through micro-fibres.

Wind turbines have a limited lifespan and the parts can't be recycled.

They don't produce reliable power, eg when there is no wind, or too much wind.

We have adequate other sources of energy.

There is no net economic benefit to Tasmanians.

Leigh Wasserfall
