Subject: ReZoning [REDACTED]

I wish to make a submission for the rezoning of [REDACTED] . Margate. From what I can gather this property is about to be rezoned as Landscape conservation. This property does not fit that description as it needs fire management preventative measures and I believe conservation does not allow this to occur. This property should be left as environmental, but as that is not being considered, I want this property to be zoned rural.

Regards,
Jill Long Property owner
