Subject: CM: Rezone my property [REDACTED] snug

I strongly object to the rezoning of my property at [REDACTED] snug, has already been rezoned once without any consultation with myself since ive owned the property ,I think it was zoned rural living when I brought it and want it to be put back to that zone ,what gives any government authorities the right to change the rules of our property that we have worked hard to own payed taxes and now devalue it, payed land tax ,rates, to be dictated to by a tax funded government department on how I should manage my property, should the council or the government pay me carbon credits for the 50 acres or more of my 58 acres I have untouched of bush and trees that is supporting approximately 30 or more families carbon offset.

I Philip and Amanda Crane of [REDACTED] snug strongly object to the rezoning of our property!!!!
