

TO WHOM IT MAY CONCERN

The General Manager
Flinders Island Council

Dear Sir,

We would like the SAP removed completely from Flinders Island.

Having some SAP removed and others not, is not a fair compromise.

The SAP is restricting the whole island from further development and council already have the powers to control building development and subdivision, without the people having further restrictions.

Furthermore, the Flinders Council insisted that we build on the footprint of the old house. We were unable to build back further onto the property, and our home is very close to the road.

We trust in our council to see the negative side of the SAP into the future and reverse the it completely

Yours faithfully,

3/7/2026

Linda Essex-Evans
