

## Planners Portal – Question and Answer

### Question

What field should the PPZ reference number go in – ZONE\_NO or ZONE\_SUB?

### Answer

Apply the following revised GIS table structure (Schema) for zones that includes the attribute field ZONE\_REF, for PPZ and rural living zone labels.

### Zones

<b>Attribute Field</b>	<b>Alias<sup>1</sup></b>	<b>Description / Comments</b>	<b>Field properties (type)</b>
LPS_NO	Local Provisions Schedule	The Local Provisions Schedule name in full, e.g. Brighton Local Provisions Schedule.	Char (50)
ZONE_NO	Zone name	The zone name, e.g. General Residential Zone or Particular Purpose Zone.	Char (50)
ZONE_SUB	Zone subgroup	To be used for only Rural Living Zone A, Rural Living Zone B, Rural Living Zone C or Rural Living Zone D, the full particular purpose zone name, such as Particular Purpose Zone – Inveresk, otherwise leave blank.	Char (50)
ZONE_REF	Zone label	The particular purpose zones label or rural living zones label, such as BRE-P1.0, or A, B, C or D.	Char(10)
NOTES	Notes	General comments/description such as information on the source of the data to assist in its maintenance. These notes are not on public display on the LIST.	Char (255)

---

<sup>1</sup> This field will be the name displayed when viewed in the LIST (where relevant).
