Attention General Manager

I am responding to the invitation in the Kentish public notice for written submission in regard to Kentish Draft Local Provision Schedule of the Tasmanian Planning Scheme. Our representation is in regard to our 60 acres located at 145 Allison's Rd Lower Barrington which 40 acres is covered by a Conservation Covenant. We wish to have the rezoned area under Landscape Conservation Zone not Rural as suggested by the council. The area of land which border ours on both sides belonging to Philip Milner and Stuart Philips both also have a conservation covenant. These are highly significant areas with a pair of breeding eagles and a great diversity of birds and wildlife. Please advise us of your decision and record this request .

Kind Regards Rose and David Waller
