RE: Submission to Draft Meander Valley Local Provisions Schedule – Tasmanian Planning Scheme

Please be informed that I wish to maintain the Rural Living Zone D for the Weegen area. I do not want the current 15 hectare minimum lot size to be reduced to 10 hectares, therefore objecting to any additional lots being created.

I object to any proposal for smaller subdivisions in the Rural Living Zone in the Weegen area. The location is remote and isolated. No prospect of services such as; town water, sewerage, major road access, through roads, or any services at all.

I do not want any further farming restrictions on rural land on our farm at Weegen, taking into account our previous submissions to Meander Valley Council.

Sincerely,

Mr S. I. Andrews

P.S. Please provide confirmation that these three submissions have been included into the drafting proposal.
