

14.6.2020

Chief Executive Officer,
Launceston City Council,

I am writing to you regarding the proposed units to be built at 357 - 361 Hobart Road.

My Mother lives in close proximity of this proposed site.

This cannot happen!

My Mum owns her own home but the majority of houses in the area are now housing department, which were not the case when she bought her property.

She has had endless trouble with certain occupants close by. Police visiting on a regular basis, unsavoury behaviour, unsavoury language, and unsavoury visitors, swearing, violent outbursts and screeching cars at all times day and night.

At 85 years of age she should not be in a situation where she feels forced to move from her property, which she has lived at for

30 years.

It is hard enough for her, that she has to live in fear and endure such bad behaviour of some, but to build 24 units right near her and a respectable retirement village, is a huge mistake.

This will automatically de value her and other home owners properties.

Ask yourself, would you be happy with 24 units being built on your doorstep?

I hope common sense prevails and this proposed site does not go ahead.

Kind Regards

A very concerned daughter.
