Subject: Rezoning to LCZ

To HVC,

Re Property ID'S 7189272, 7189280 & 5862726.

It has come to my attention that there are plans for rezoning the above property's.

I have not had an adequate opportunity to engage a planner to review what the new zone means to my property's.

I DO NOT agree that they should be placed in the new LCZ zone.

By receipt of this email I am requesting council to accept my representation to the LPS planning change and that I will now be included in the opportunity to provide more detail and have a face to face review with the Tasmanian Planning ccommission in the near future to review any zone impacts or changes to my property.

Regards
