[REDACTED]

Postal address

[REDACTED] Alexandra Esplanade Bellerive

Submission

There appears to have been some changes to the overlays in some areas, with no explanation or justification. For example, at our address we appear to have moved into higher categories for coastal inundation, coastal erosion, and flood risk categories. I object to this occurring with no apparent justification. These changes need to have a sound, evidence based rationale, as they may lead to major negative impacts (financial, social and environmental) on affected residents, and I suspect there could even be legal action. I would appreciate if you could please advise me how these changes have been justified, and request that this is included for transparency in any further information relating to the scheme or schedules. Thank you
