**Subject:** Property ID 9546408 Lot 1 Liddells Rd, Crabtree

I attended the LPS meeting on May 9th, I hadn't known what was taking place, after being alerted to it by Chris Duggan who is a neighbouring landowner to the above property. The chairman on the day said I should email the committee & that I would have the opportunity to raise my concerns at a future meeting.

When I purchased Lot 1 Liddells Rd in Dec 2021 it was zoned rural residential & since then I have received no communication from HVC that it would change. I live on the aged pension & work part time, this land is my superannuation which I used to purchase it believing it would be a long term investment & recreational space for my children & their families. We all love to spend time there, treasure it & hope we can continue to enjoy it while it remains an asset. The time will come when I need to sell to allow me a comfortable retirement when I can no longer work & need to utilise this to supplement the pension. I hope the original zoning can be restored.

Regards
