Dear TPC,

Integrated Assessment for proposed Stadium at Macquarie Point

I find what the Tasmanian men are planning, who have the lowest education in the country and showing it, will ruin Tasmania and its Tourism. I have worked internationally in Tourism and I see what you don't...This idea of a stadium and football box will only rob Tasmanian people of stable mental health..Tasmania is in crisis in so many areas...a stadium will only punish Tasmanian people...and punished people behave like punished people don't they?...that negativity alone is financially unaffordable, let alone the stadium itself. I would like to know how the government has money for a stadium but nothing else?...I want to see a balance sheet to prove they have this money just to splash around..then there is the question as to why tas men in charge are not managing that money effectively?...I want them to explain why we as Tasmanian people and my 10yr old can't have a proper education and why she can't get a doctor or why my disabled sister can't get a doctor in Tasmania?!...we are not stupid people and really sick of being treated with the typical tas man cult mysogyny..The mentality my whole life here as a female with a brain or an opinion is disgraceful..tas men always elbow anyone in the face that dares stand up to them..we are always treated like "put up and shut up" you pieces of crap..when actually we are not...how do we end that primitive mentality from continuing if the government won't invest in education and health?!..The Hobart boys club Dictatorship must come to an end.

[REDACTED] why won't our government ever show transparency?...because poorly educated people are evil!..and like I said at the start...we are the dumbest state in the country and our current leadership continues to prove this fact, with every single liberal cult member we have forced and shoved in our faces who just all have obvious toxic personality disorders and punish the whole state with their stupidity...I think the onus is on the government to do the right thing...except how is that possible when a handful of uneducated men dictate?!..I see more and more for sale signs going up daily in tas...people have had enough of poor and corrupt Dictatorship..no one in government is listening they are in a dream-world and I feel once many of us leave and tell the mainland people of our grief under such a Dictatorship it will affect Tasmanian tourism and being stupidly American in this situation isn't going to work for the Liberals, instead will backfire...you have ruined your whole entire state's trust in any ability?...and your tourism industry will decline...you dictate and people will react as people know we are democracy?!..I feel Liberals have worked hard at intentionally causing harm to its own people with only concentrating on alcohol, gambling and drugs...why?...sedated people are compliant...sedated people can be brainwashed and dictated to...I lived in Germany for 9yrs under Angelica Merkel...I was perfectly taken care of and perfectly happy...not 1 tas man in charge has a fingernail of her ethics...because tas men have no ethics and this is proven in the fact I am writing this at all????....Try doing

the right thing here and stop all of us leaving....I feel if the government doesn't use common sense here all Tasmanian people will be punished by this ridiculously unaffordable stupid idea and that will increase suicide rates and people's mental health will suffer more?!...is that the intention?!...looks like it?!...I can't understand why the government hates us all so much to even try and harm us like this?!...my daughter attends [REDACTED].we need so much help at that school with equipment, excursions and motivated, educated teachers and a principal that doesn't look like he fell out of the bush after missing for 6mths?!...I think the Liberals need to google the word prioritisation and see why that Angelica Merkel so popular!...a stadium is unaffordable and not a priority nor should scamming your own people or stealing from them for personal dreams...that the majority clearly don't share!...when I returned home from working and living internationally, I saw Tasmania as usa no.2..Tasmania is brainwashed by usa like Germans were from Hitler and I said back then in 2004 and can still say it now..if you drug and alcohol tested every person in charge or with a job that carries responsibility...Hobart would be a ghost town after sending them all home...I feel prioritisation is the key word and tas has a lot to fix before we can even dream of a quality of life instead of punishment after punishment from idiot's who's only priority is themselves...politicians should be sacked and stripped from any perks for such destruction...they are fraudulent when all they want the job for is a fat selfish superannuation?!...they are fraudsters?!...I will have to leave tas as not 1 doctor wants to treat my disabled sister...and I will be doing a public face book call out as it's too much for me alone..and I will be forced to explain you prioritise stadium over lives?

I have read and fully endorse the submission made by Our Place - Hobart.

Stop the stadium and stop punishing tas people

Yours faithfully,

Jennifer Mackeprang
