Dear Tasmanian Planning Commission

I am writing in support of the Kangaroo Bay hotel development.

I am in support of the development as it vastly improves the waterfront amenities and access.

I understand that the project includes publicly accessible foreshore boardwalks, landscaped greenspace, new pedestrian routes, walkways and cycleways and public open space.

I am also in support of sensitive and appropriate tourism developments, which lead to the benefits outlined below:

construction employment (200 FTE), ongoing hospitality and tourism jobs (450 FTE), increased accommodation capacity – a 50% increase in the 4 & 5-star category in Southern Tasmania

- expanded hospitality facilities and increased patronage to local businesses.

Thank you
Jen
