Subject: Draft LPS

I have read the representation from Ms Anna Pafitis including the accompanying report of Danielle Gray. I agree with it and adopt it as my own representation. As part of my my representation, I would wish to add that the Tasman Peninsula is a breathtakingly beautiful part of Tasmania. Its beauty (and the amenity of the Peninsula more generally) is underpinned by a number of matters not the least of which is raw natural beauty. That should be protected and preserved, insofar as possible, in the ultimate LPS. Contributing to that natural beauty and its preservation is, I believe, existing limitations on the subdivision of land and the building of houses thereupon.

I would like the opportunity to present at any Tasman draft LPS hearings.

Could you please acknowledge receipt of this representation.

Best regards

Michael Moore
