**Subject:** A Representation in Support of PSA-2/2017

I write in support of the sensible provision of home sites for people who want to live in this beautiful area. I am a descendant of settlers in the Channel and Huon. My father, Arnold, was born in a house under the old pear tree at Slab Road in 1926.

Cygnets has always been a beautiful town and provided a lifestyle envied in many other places.

It is therefore entirely fair and reasonable for more people to be able to enjoy it as residents and visitors and for people to be able to retire or invest there if they want to.

It is important that land is put to the highest and best use as the town evolves and the re-zoning of this land is an important step in that direction.

I applaud the application and the detail contained therein. The project adds a valuable layer to the social fabric of Cygnets and therefore must be wholeheartedly supported.
