Dear Commissioner Hynes

**Macquarie Point Multipurpose Stadium Project of State Significance – Integrated Assessment
Notification and Consultation Request**

Thank you for your letter dated 26 September 2024 regarding progress of the Macquarie Point Multipurpose Stadium Project of State Significance.

NBN Co remains ready to support the broadband connectivity needs of the Stadium, as outlined in our letter to the Commission dated 19 December 2023 (copy attached for your reference). We have had a number of in-depth conversations with the Proponent's project team including with Greg Cooper – Chief Operating Officer of the Macquarie Point Development Corporation. More recently, we have met with the Proponent's project management consultant Rare who have been appointed to assist in delivering the stadium precinct and are overseeing the site's infrastructure needs. Discussions focused on how nbn can support and enhance the digital connectivity of the Stadium and surrounding precinct, explaining nbn's products, design & construction process as well as how nbn's Smart Places solution could support the innovation requirements of the precinct.

We welcome the opportunity to be further involved in the consultation process to support the Commission's assessment of the project. Should you have any questions or require any further information, please contact Angus McKenzie-Wills, State Government Relations at angusmckenziwills@nbnco.com.au or 0474 748 841.

Yours sincerely

Andrew Walsh
Executive General Manager, New Developments
NBN Co Limited
