Dear John, I am writing this letter as my official opposition to the Planned Changes to the Low-Density Residential Zone. Ie Prohibit Multiple Dwellings.

I just received a letter to inform me of these changes and this is the very First time I have been contacted in regards to these changes.

I bought into this property with my Mother & two son's Cain 24 and Dylan 15 yr's old. With the intention of Building a Granny Flat for my mum and a house each for my son's. When they are both ready and financially able to do so. This property of 5 acres was to become our Family Legacy.

So, you can see how these changes would make this entire endeavor null & void and a total waste of the past 10 years.

The letter I received said there were Public Hearings in regards to these Changes. I was not notified of these Hearings. Nor have I received any other communication's in regards to these changes. All I received from Council in 2018 was the Wheelie Bin proposal of which we disregarded. As we recycle our waste at the Deloraine tip & I compost our green waste.

I find these changes extremely Unfair and if I had known these changes were to be considered I would have reassessed my entire investment into this Property & this Township.

So please count this letter as my official Representation of Opposition to these changes & I also represent my mother Julie Whitehall and my two son's Cain & Dylan Dunning in this matter.

Sincerely Disgruntled Resident,

N P Dunning
