Attention: Michael Stretton, CEO, City of Launceston

I am writing on behalf of Neil and Christine Ayres, the owners of the 58.8 ha conservation property on two titles in the Launceston municipality at 160 Whites Mill Road, Underwood (PID 3228043, Title Refs.161070/4 and 206977/1).

As they do not currently have telephone or internet available, and the exhibition period closes tomorrow 18 September, I am attaching a scanned copy of the letter which I received from Neil Ayres last week in which he states that they wish to support Conservation Landholders Tasmania's proposal to rezone their property to Landscape Conservation.

Kind regards

John

Dear John,

Thank you for your letter about the proposed rezoning of our property 180 Whites Mill Road, Underwood.

We are at a particular disadvantage at the moment with both our landline and internet down and Telstra is having trouble fixing the problem. However Telstra will be back Monday and we hope we can send and receive emails then.

We would certainly like our property to be zoned Landscape Conservation and would like your advice on whether a letter to the Council stating this is sufficient or should we justify our case by pointing out the particular conservation value of the property such as the fact that it is habitat for the rare Mount Arthur burrowing crayfish and a rare plant.

Thanks again.

Neil Fyres
