Subject: I2022189645 - Re: Representation 638 greens Beach Road Yorktown

Following are our comments & concerns in regards to correspondence for environmental management zone review.

1. We have existing dwellings on our site and request to retain any previous rights regarding them.
2. We wish to remain the right to build a dwelling in the future on our land.
3. We are concerned that the proposed environmental management zone may impact on property values in the future.

Thank you for allowing us to comment on the proposal Regards Kris & Anne Maddox
