Subject: George Town Hearings Landscape Conservation Zones Priority Vegetation Areas

Categories:

Attention Commissioner,

Please accept my further submission as follows;

I support the Conservation Landholders Tasmania, CLT's submission(4/5) as it is in the public interest for the native vegetation to be adequately and comprehensively protected.

In the interest of consistency I trust the commission will also ensure that the Planning Authority adopts a uniform approach to the zoning and overlay matters raised by the CLT regarding the Northern Tasmania Regional Land Use Strategies. eg NTRUS Action BNV – AO1 'Apply appropriate zoning and/or overlays through planning schemes to protect areas of native vegetation' and BNV-A05 which includes 'To protect, conserve and enhance the region's biodiversity considering the extent, condition and connectivity of critical habitats (especially in relation to native bird species)

Yours sincerely,
Roger G. Richards
