Hello

Reference section 3.6.4  
Transport.

Regarding cycle ways I would urge you to keep cycleways segregated from roads and to avoid crossing vehicle access routes to the site.

I would also request a large area of bike parking covered by CCTV if this area is indeed going to be a hub where active transport modes are encouraged.

And finally please ensure the cycle routes from the site connect to feeders in town including 2 way access for the length of Collins Street.

Thanks for your consideration.

Regards Stephen Anstee
