Glenorchy Local Provisions Schedule

GLE-Local Provisions Schedule Title

GLE-1.1 This Local Provisions Schedule is called the Glenorchy Local Provisions Schedule and comprises all the land within the municipal area.

GLE Effective Date

GLE-1.2 The effective date for this Local Provisions Schedule is <insert date>.

GLE-Local Area Objectives

GLE-18.0 Light Industrial Zone Local Area Objectives

Reference Number	Area Description	Local Area Objectives
GLE-18.1	Prince of Wales Bay Maritime Industrial Precinct, shown on an overlay map as GLE-18.1	<p>The objectives for this area are to:</p> <ul style="list-style-type: none"> (a) support the Prince of Wales Bay Maritime Industrial Precinct's role as a regional multi-user marine and industrial precinct and sheltered anchorage; (b) promote the sustainable management of the Precinct's land and waters (including any future land reclamation processes) by supporting uses of appropriate scale and intensity; (c) support uses which protect the amenity and safety of residents abutting and near the waterfront area, and the safety of recreational boat users, through the implementation of appropriate mitigation measures to manage noise, dust, light spill, increased traffic flow and security requirements; and (d) support opportunities to improve public amenity within the Precinct.

GLE-19.0 General Industrial Zone Local Area Objectives

Reference Number	Area Description	Local Area Objectives
------------------	------------------	-----------------------

GLE-19.1	Prince of Wales Bay Maritime Industrial Precinct, shown on an overlay map as GLE-19.1	<ul style="list-style-type: none"> (a) support the Prince of Wales Bay Maritime Industrial Precinct's role as a regional multi-user marine and industrial precinct and sheltered anchorage; (b) promote the sustainable management of the Precinct's land and waters (including any future land reclamation processes) by supporting uses of appropriate scale and intensity; (c) support uses which protect the amenity and safety of residents abutting and near the waterfront area, and the safety of recreational boat users, through the implementation of appropriate mitigation measures to manage noise, dust, light spill, increased traffic flow and security requirements; and (d) support opportunities to improve public amenity within the Precinct.
----------	---	---

GLE-25.0 Port and Marine Zone Local Area Objectives

Reference Number	Area Description	Local Area Objectives
GLE-25.1	Prince of Wales Bay Maritime Industrial Precinct, shown on an overlay map as GLE-25.1	<p>The objectives for this area are to:</p> <ul style="list-style-type: none"> (a) support the Prince of Wales Bay Maritime Industrial Precinct's role as a regional multi-user marine and industrial precinct and sheltered anchorage; (b) promote the sustainable management of the Precinct's land and waters (including any future land reclamation processes) by supporting uses of appropriate scale and intensity; (c) support uses which protect the amenity and safety of residents abutting and near the waterfront area, and the safety of recreational boat users, through the implementation of appropriate mitigation measures to manage noise,

		<p>dust, light spill, increased traffic flow and security requirements; and</p> <p>(d) support opportunities to improve public amenity within the Precinct</p>
--	--	--

GLE-28.0 Recreation Zone Local Area Objectives

Reference Number	Area Description	Local Area Objectives
GLE-28.1	<p>KGV Sports and Community Precinct, shown on an overlay map as GLE-28.1</p>	<p>The objectives for the area are to:</p> <ul style="list-style-type: none"> (a) promote sporting, recreational and leisure facilities, and complementary non-sporting community uses; and (b) allow complementary uses that support and remain subservient to the predominant sporting, recreational and leisure uses, provided they do not undermine the viability of those uses, or the viability of the City's activity centre hierarchy.

GLE-P1.0 Particular Purpose Zone – Future Road Corridor

GLE-P1.1 Zone Purpose

The purpose of the Particular Purpose Zone – Future Road Corridor is:

- GLE-P1.1.1 To identify land that may be required for a road corridor in the future.
- GLE-P1.1.2 To protect the corridor from use or development, including on adjacent land, which may affect the future safety, efficiency and amenity of the road corridor or the use or development on adjoining land.
- GLE-P1.1.3 To ensure that a future road corridor is not compromised by use or development that prevents the road being constructed through its chosen route as a result of an increase in social or economic costs.

GLE-P1.2 Local Area Objectives

This sub-clause is not used in this particular purpose zone.

GLE-P1.3 Definition of Terms

This sub-clause is not used in this particular purpose zone.

GLE-P1.4 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Permitted	
Passive Recreation	
Resource Development	If for agricultural use, excluding controlled environment agriculture, tree farming or plantation forestry.
Utilities	If for: (a) minor utilities; or (b) road infrastructure.
Discretionary	
Resource Development	If not listed as Permitted.
Utilities	If not listed as Permitted.
Prohibited	
All other uses	

GLE-P1.5 Use Standards

This sub-clause is not used in this particular purpose zone.

GLE-P1.6 Development Standards for Buildings and Works

GLE-P1.6.1 Buildings and works

Objective:	That buildings and works are for road infrastructure or do not prejudice the future use and development of land for road infrastructure.	
Acceptable Solutions		Performance Criteria
A1	Buildings or works are for the development of a road by, or under the direction of, the road authority.	P1 Buildings or works must not preclude the future use and development of land for road infrastructure.
A2	Buildings and other permanent improvements must comply with the consent of the Minister pursuant to section 9A(5) of the <i>Roads and Jetties Act 1935</i> , where the land is declared to be the intended line of a state highway or subsidiary road.	P2 No Performance Criterion.

GLE-P1.7 Development Standards for Subdivision

GLE-P1.7.1 Subdivision

Objective:	That subdivision of land does not prejudice the future use of land for road infrastructure.	
Acceptable Solutions		Performance Criteria
A1	Subdivision is for the purpose of creating a lot for the development of a road by, or under the direction of, the road authority.	P1 No Performance Criterion.
A2	Subdivision must comply with the consent of the Minister pursuant to section 9A(5) of the <i>Roads and Jetties Act, 1935</i> , where the land is declared to be the intended line of a state highway or a subsidiary road.	P2 No Performance Criterion.

GLE-P1.8 Tables

This sub-clause is not used in this particular purpose zone.

GLE-P2.0 Particular Purpose Zone – Technopark

GLE-P2.1 Zone Purpose

The purpose of the Particular Purpose Zone – Technopark is:

- GLE-P2.1.1 To provide land for use and development with a high technology, science, innovation or communications focus.
- GLE-P2.1.2 To support a range or compatible land uses focused on high technology, science, innovation or communications.
- GLE-P2.1.3 To facilitate business incubation opportunities or support activities associated with high technology, science, innovation or communications.
- GLE-P2.1.4 To prevent use or development that would detract from the character of the area or inhibit the operation of other uses established in the area.
- GLE-P2.1.5 To ensure that the design of use and development enhances the appearance of the site and “business park” character of the area.

GLE-P2.2 Local Area Objectives

This sub-clause is not used in this particular purpose zone.

GLE-P2.3 Definition of Terms

This sub-clause is not used in this particular purpose one.

GLE-P2.4 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Utilities	If for minor utilities.
Permitted	
Business and Professional Services	If for a high technology, innovation or communications purpose.
Manufacturing and Processing	If for a high technology, innovation or communications purpose.
Research and Development	
Discretionary	
Educational and Occasional Care	If for an employment training centre or tertiary institution.
Food Services	
Passive Recreation	

Utilities	If not listed as No Permit Required.
Vehicle Parking	
Prohibited	
All other uses	

GLE-P2.5 Use Standards

GLE-P2.5.1 Noise

Objective:	That noise emissions do not cause environmental harm and do not have unreasonable impact on residential amenity on land within a residential zone.	
Acceptable Solutions		Performance Criteria
A1 Noise emissions measured at the boundary of a residential zone must not exceed the following: (a) 55dB(A) (LAeq) between the hours of 7.00 am to 7.00 pm; (b) 5dB(A) above the background (LA90) level or 40dB(A) (LAeq), whichever is the lower, between the hours of 7.00 pm to 7.00 am; and (c) 65dB(A) (LAmix) at any time. Measurement of noise levels must be in accordance with the methods in the Tasmanian Noise Measurement Procedures Manual, 2nd Edition, July 2008, including adjustment of noise levels for tonality and impulsiveness. Noise levels are to be averaged over a 15 minute time interval.		A2 Noise emissions measured at the boundary of a residential zone must not cause or be likely to cause environmental harm within the residential zone.
A2 External amplified loud speakers or music must not be used within 50m of a residential zone.		P2 No Performance Criterion.

GLE-P2.5.2 Dust, smell, fumes and other emissions

Objective:	That dust, smell, fumes and other emissions do not cause environmental harm and do not have unreasonable impact on residential amenity on land within a residential zone.	
Acceptable Solutions		Performance Criteria
A1 A use must not emit dust or other particles,		P1 The emission of dust or other particles,

smell or fumes beyond the boundaries of its site.	<p>smell or fumes must not have unreasonable impact on the amenity and safety of any other property taking into account all of the following:</p> <ul style="list-style-type: none"> (a) the hours of operation; (b) the frequency of the emission; (c) the nature of the emission and the degree of its impact on other land, including whether such land is in a residential zone; (d) whether the emission contains any harmful substance; and (e) whether surrounding land contains uses with similar emissions.
---	---

GLE-P2.6 Development Standards for Buildings and Works

GLE-P2.6.1 Building height

Objective:	That building height contributes positively to the streetscape.	
Acceptable Solutions	Performance Criteria	
A1	P1	
Building height must be not more than 8m.	<p>Building height must satisfy all of the following:</p> <ul style="list-style-type: none"> (a) be compatible with the scale of nearby buildings; (b) not unreasonably overshadow adjacent public space; (c) allow for a transition in height between adjoining buildings, where appropriate; and (d) be no more than 12m. 	

GLE-P2.6.2 Setback

Objective:	That building setback contributes positively to the streetscape.	
Acceptable Solutions	Performance Criteria	
A1	P1	
<p>Buildings must have a setback from a frontage which is:</p> <ul style="list-style-type: none"> (a) parallel to the frontage; and (b) not less than 4.5m, <p>if fronting Innovation Drive or Longreach Avenue.</p>	<p>Building setback from frontage must satisfy all of the following:</p> <ul style="list-style-type: none"> (a) be compatible with the setback of adjoining buildings, generally maintaining a continuous building line if evident in the streetscape; (b) enhance the characteristics of the site, adjoining lots and the streetscape; and (c) provide adequate opportunity for parking. 	

GLE-P2.6.3 Design

Objective:	That building design contributes positively to the streetscape and the amenity and safety of the public and enhances the appearance of the site and the “business park” character of the area.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Building design must address the street by complying with all of the following:</p> <ul style="list-style-type: none"> (a) provide the main pedestrian entrance to the building at the frontage; (b) for new building or alterations to an existing façade, provide windows and door openings at ground floor level in the front façade no less than 20% of the surface area of the ground floor level facade; (c) ensure any single expanse of blank wall in the ground level front façade and facades facing other public spaces does not exceed 30m²; (d) screen mechanical plant and miscellaneous equipment such as heat pumps, air conditioning units, switchboards, hot water units or similar from view from the street and other public spaces; (e) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the roof; and (f) not include security shutters over windows or doors with a frontage to a street or public place. 	<p>P1</p> <p>Building design must enhance the streetscape by satisfying all of the following:</p> <ul style="list-style-type: none"> (a) provide the main access to the building in a way that is visible from the street or other public space boundary; (b) provide windows in the front façade in a way that enhances the streetscape and provides for passive surveillance of public spaces; (c) treat very large expanses of blank wall in the front façade and facing other public space boundaries with architectural detail or public art so as to contribute positively to the streetscape and public space; (d) ensure the visual impact of mechanical plant and miscellaneous equipment, such as heat pumps, air conditioning units, switchboards, hot water units or similar, is limited when viewed from the street; and (e) ensure roof-top service infrastructure, including service plants and lift structures, is screened so as to have limited visual impact.
<p>A2</p> <p>Building design must enhance the appearance of the site and the “business park” character of the area by satisfying all of the following:</p> <ul style="list-style-type: none"> (a) external wall materials must be one or more of the following: <ul style="list-style-type: none"> (i) off-form concrete or sandwich panels with paints or applied spray finish; (ii) face brick or block work with a render or paint finish; 	<p>P2</p> <p>Building design must enhance the appearance of the site and the “business park” character of the area by presenting a unified corporate image for the site that complements the high quality architectural standard of the area, having regard to:</p> <ul style="list-style-type: none"> (a) quality of materials used; (b) roof pitch and quality of roof detailing; and (c) quality of the colour scheme.

<ul style="list-style-type: none"> (b) metal cladding is restricted to use as a roofing material and is painted; (c) roof construction must be low-pitched, 7.5 degrees or less, with boxed gutters concealed behind flush fascias; and (d) external surfaces of all buildings on a site must use a single colour scheme in accordance with all of the following: <ul style="list-style-type: none"> (i) the colour palette must be unique to the site within the zone; (ii) the colour palette must highlight architectural features of the building; and (iii) the colour palette must use a minimum of 3 colours and a maximum of 5 colours. 	
--	--

GLE-P2.6.4 Passive surveillance

Objective:	That building design provides for the safety of the public.
Acceptable Solutions	Performance Criteria
A1 Building design must comply with all of the following: <ul style="list-style-type: none"> (a) provide the main entrance or entrances to a building so that they are clearly visible from the street and well-lit at night; (b) provide windows with clear glazing no less than the following: <ul style="list-style-type: none"> (i) 20% of the facade at ground level of walls that front the street; and (ii) 10% of the facade at ground level of walls that face public space or a car park for the building; (c) avoid creating entrapment spaces around the building site, such as concealed alcoves near public spaces; (d) provide external lighting to illuminate car parking areas and pathways; and (e) provide well-lit public access at the 	P1 Building design must provide for passive surveillance of public spaces by satisfying all of the following: <ul style="list-style-type: none"> (a) provide the main entrance or entrances to a building so that they are clearly visible from nearby buildings and public spaces; (b) locate windows to adequately overlook the street and adjoining public spaces; (c) incorporate windows and doors for ground floor offices to look upon public access to the building; (d) locate external lighting to illuminate any entrapment spaces around the building site; (e) provide external lighting to illuminate car parking areas and pathways; (f) design and locate public access to provide high visibility for users and provide clear sight lines between the entrance and adjacent properties and public spaces; and (g) provide for sight lines to other buildings and public spaces.

ground floor level from any external car park.	
--	--

GLE-P2.6.5 Landscaping

Objective:	To provide a safe and attractive local native landscaping treatment that enhances the appearance of the site and area.
Acceptable Solutions	Performance Criteria
A1 There is existing local native landscaping provided at the site frontage and arrangements are in place to protect that landscaping in its entirety for the duration of construction.	P1 Landscaping must be provided to satisfy all of the following: <ul style="list-style-type: none"> (a) enhance the appearance of the development; (b) provide a range of local native plants of varying height and forms to create diversity, interest and amenity in accordance with the NRM South: <i>Native Gardens – A Planting and Landscaping Guide for the Southern Region of Tasmania</i>; and (c) not create concealed entrapment spaces.

GLE-P2.6.6 Outdoor storage areas

Objective:	That outdoor storage areas for non-residential use do not detract from the appearance of the site or area.
Acceptable Solutions	Performance Criteria
A1 Outdoor storage areas must: <ul style="list-style-type: none"> (a) be located behind the building line and the goods and materials stored therein, screened from public view; and (b) not encroach upon car parking areas, driveways or landscaped areas. 	P1 Outdoor storage areas must satisfy the following: <ul style="list-style-type: none"> (a) be located, treated or screened to avoid unreasonable adverse impact on the visual amenity of the area; and (b) not encroach upon car parking areas, driveways or landscaped areas.

GLE-P2.6.7 Fencing

Objective:	That fencing does not detract from the appearance of the site or the area and provides for passive surveillance
Acceptable Solutions	Performance Criteria
A1 Fencing must comply with the following: <ul style="list-style-type: none"> (a) fences and gates greater than 2.1m in height, must not be erected within 10m of the frontage; 	P1 Fencing must contribute positively to the streetscape, having regard to: <ul style="list-style-type: none"> (a) the height of the fence; (b) the degree of transparency of the

and (b) fences along a frontage must be 50% transparent above a height of 1.2m.	fence; (c) the location and extent of the fence; (d) the design of the fence; (e) the fence materials and construction; (f) the nature of the use; and (g) the characteristics of the site, the streetscape and the area, including fences.
--	--

GLE-P2.7 Development Standards for Subdivision

GLE-P2.7.1 Subdivision

Objective:	To provide for lots with appropriate area, dimensions, services, roads and access to public open space to accommodate development consistent with the Zone Purpose.	
Acceptable Solutions		Performance Criteria
A1 Each lot, or a lot proposed in a plan of subdivision, must: (a) have an area of not less than 1000m ² ; (b) be required for public open space or a riparian reserve; or (c) be required for the provision of Utilities.		P1 Each lot, or a lot proposed in a plan of subdivision, must have sufficient area to accommodate development consistent with the Zone Purpose.
A2 Each lot, or a lot proposed in a plan of subdivision, must provide a minimum building area that is rectangular in shape and complies with all of the following: (a) clear of the frontage, side and rear boundary setbacks; (b) clear of easements; (c) clear of title restrictions that would limit or restrict the development of a commercial building; (d) has a slope no more than 1 in 10; and (e) is 20m x 20m in size.		P2 Each lot, or a lot proposed in a plan of subdivision, must contain a building area able to satisfy all of the following: (a) be reasonably capable of accommodating use and development consistent with the Zone Purpose; (b) provides for sufficient useable area on the lot for on-site parking and manoeuvring, unless adequate arrangements are made for suitable alternative solutions to future likely demand generated by the development potential of the lot; and (c) minimises the need for earth works, retaining walls, and cut and fill associated with future development.
A3 The frontage for each lot, or a lot proposed in a plan of subdivision, must be not less than 7m.		P3 The frontage of each lot, or a lot proposed in a plan of subdivision, must be sufficient to accommodate development consistent with the Zone Purpose.

<p>A4</p> <p>No Acceptable Solution.</p>	<p>P4</p> <p>The arrangement of roads within a subdivision must satisfy all of the following:</p> <ul style="list-style-type: none"> (a) the subdivision will not compromise appropriate and reasonable future subdivision of the entirety of the parent lot; (b) accords with any relevant road network plan adopted by the Council; (c) facilitates the subdivision of neighbouring land with subdivision potential through the provision of connector roads, where appropriate, to the common boundary; and (d) provides for acceptable levels of access, safety, convenience and legibility through a road function hierarchy.
<p>A5</p> <p>Each lot, or a lot proposed in a plan of subdivision, must be connected to services adequate to support the likely future use and development of the land.</p>	<p>P5</p> <p>No Performance Criterion.</p>
<p>A6</p> <p>No Acceptable Solution.</p>	<p>P6</p> <p>Public Open Space must be provided as land or cash in lieu, in accordance with the relevant Council policy.</p>

GLE-P2.8 Tables

This sub-clause is not used in this particular purpose zone.

GLE-S1.0 Claremont Peninsula Specific Area Plan

GLE-S1.1 Plan Purpose

The purpose of the Claremont Peninsula Specific Area Plan is:

- GLE-S1.1.1 To protect the landscape character of the Claremont Peninsula by the retention of open space qualities provided by the golf course.
- GLE-S1.1.2 To encourage the retention of recreational facilities on the Claremont Peninsula.
- GLE-S1.1.3 To facilitate the development of a range of commercial and residential uses in a coordinated manner through the establishment of specific precincts.

GLE-S1.2 Application of this Plan

- GLE-S1.2.1 The specific area plan applies to an area of land designated as the Claremont Peninsula Specific Area Plan on the overlay maps.
- GLE-S1.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for or in addition to the provisions of the:
 - (a) Environmental Management Zone;
 - (b) Recreation Zone; and
 - (c) C2.0 Parking and Sustainable Transport Code
 as specified in the relevant provision.
- GLE-S1.2.3 The specific area plan is divided into the following precincts:
 - (a) Golf Course Precinct;
 - (b) Recreation Precinct 1;
 - (c) Recreation Precinct 2;
 - (d) Recreation Precinct 3;
 - (e) Residential Precinct; and
 - (f) Commercial Precinct.
- GLE-S1.2.4 The extent of each precinct is shown in Figure GLE-S1.1 Claremont Peninsula Precinct Map.

GLE-S1.3 Local Area Objectives

GLE-S1.3.1 Local Area Objectives – Golf Course Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.1	Golf Course Precinct, shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>The local area objectives for the Golf Course Precinct are to:</p> <ul style="list-style-type: none"> (a) protect the continued operation of the 18-hole golf course; and (b) allow for development of the golf course, compatible outdoor recreation use and development and integration with use and development in other precincts.

GLE-S1.3.2 Local Area Objectives – Recreation Precinct 1

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.2	Recreation Precinct 1, shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>The local area objectives for Recreation Precinct 1 are to:</p> <ul style="list-style-type: none"> (a) provide for the expansion of the bowling club and compatible uses; and (b) protect the foreshore area from use or development that affects the character or amenity of the foreshore or prevents pedestrian access.

GLE-S1.3.3 Local Area Objectives – Recreation Precinct 2

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.3	Recreation Precinct 2, shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>The local area objectives for Recreation Precinct 2 are to:</p> <ul style="list-style-type: none"> (a) provide for shared car parking; and (b) protect the foreshore area from use or development that affects the character or amenity of the foreshore or prevents pedestrian access.

GLE-S1.3.4 Local Area Objectives – Recreation Precinct 3

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.4	Recreation Precinct 3, shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>The local area objectives for Recreation Precinct 3 are to:</p> <ul style="list-style-type: none"> (a) accommodate the outdoor bowling greens or compatible development that will not impact on the amenity of neighbouring residential areas; and (b) protect the foreshore area from use or development which would impact upon its character or prevent pedestrian access and enhancement of the amenity for users.

GLE-S1.3.5 Local Area Objectives – Residential Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.5	Residential Precinct,	<p>The local area objectives for the Residential Precinct are to:</p>

	shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>(a) provide for medium density residential and compatible visitor accommodation in the landscape setting of the peninsula and surrounding golf course; and</p> <p>(b) protect the foreshore area from use or development that affects the character or amenity of the foreshore or prevents pedestrian access.</p>
--	--	---

GLE-S1.3.6 Local Area Objectives – Commercial Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S1.3.6	Commercial Precinct, shown in Figure GLE-S1.1 Claremont Peninsula Precinct Plan Map	<p>The local area objectives for the Commercial Precinct are to:</p> <p>(a) provide for the development of a motel, restaurant and function centre;</p> <p>(b) provide for commercial use and development that supports the recreation uses in the Specific Area Plan, including but not restricted to a pro-shop, bar, meeting rooms and administrative areas; and</p> <p>(c) protect the foreshore area from use or development that affects the character or amenity of the foreshore or prevents pedestrian access.</p>

GLE-S1.4 Definition of Terms

GLE-S1.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
public footway	means a footway or boardwalk that is accessible to the public, largely or entirely constructed within the public space.
public space	means the land within the Residential Precinct within 20m of the high water mark described by the right of way in favour of Glenorchy City Council in SP167845, as well as any other additional area of land required to provide a pedestrian access along the foreshore of the precinct.
shared space	means the land within the Residential Precinct that is not dedicated for use by one dwelling and is not part of the public space.

GLE-S1.5 Use Table

GLE-S1.5.1 Use Table – Golf Course Precinct

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
-----------	---------------

No Permit Required	
Utilities	If for minor utilities.
Permitted	
Sports and Recreation	If for a golf course.
Discretionary	
Passive Recreation	
Residential	If for access.
Sports and Recreation	If (a) for an outdoor recreation facility; or (b) not listed as Permitted.
Utilities	If not listed as No Permit Required.
Visitor Accommodation	If for access.
Prohibited	
All other uses	

GLE-S1.5.2 Use Table – Recreation Precinct 1

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
No Permit Required	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If for access or car parking.
Food Services	If for access or car parking.
Residential	If for access or car parking.
Sports and Recreation	
Visitor Accommodation	If for access or car parking
Discretionary	
Community Meeting and Entertainment	If not listed as Permitted.
Food Services	If not listed as Permitted.

Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S1.5.3 Use Table – Recreation Precinct 2

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
No Permit Required	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If for access or car parking.
Food Services	If for access or car parking.
Residential	If for access or car parking.
Sports and Recreation	If for access or car parking
Vehicle Parking	
Discretionary	
Sports and Recreation	If not listed as Permitted.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S1.5.4 Use Table – Recreation Precinct 3

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
No Permit Required	
Utilities	If for minor utilities.
Permitted	
No uses	
Discretionary	
Sports and Recreation	If not for access or car parking.

Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S1.5.5 Use Table – Residential Precinct

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
No Permit Required	
Utilities	If for minor utilities.
Permitted	
Residential	If not for a single dwelling.
Visitor Accommodation	If for serviced apartments, where the number of serviced apartments is not more than 10% of the number of dwellings in the precinct.
Discretionary	
Sports and Recreation	
Utilities	If not listed as No Permit Required.
Visitor Accommodation	If (a) for serviced apartments, where the number of serviced apartments is not more than 10% of the number of residential apartments on the site; or (b) not listed as Permitted.
Prohibited	
All other uses	

GLE-S1.5.6 Use Table – Commercial Precinct

This sub-clause is in substitution of Environmental Management Zone – Clause 23.2 Use Table and Recreation Zone – Clause 28.2 Use Table.

Use Class	Qualification
No Permit Required	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If for a function centre.
Food Services	If for a restaurant.
Sports and Recreation	
Residential	If for access.

Visitor Accommodation	If for a motel or serviced apartments.
Discretionary	
Residential	If (a) for a residential care facility or retirement village; or (b) not listed as Permitted.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S1.6 Use Standards

GLE-S1.6.1 Use Standards – Residential Precinct

GLE-S1.6.1.1 Traffic management

This sub-clause is in substitution for C2.0 Parking and Sustainable Transport Code – Clause C2.5.1 – Car Parking Numbers.

Objective:	That: (a) sufficient car parking is provided to meet the reasonable needs of all users of a use or development, taking into account the level of parking available on or outside of the land and the access afforded by other modes of transport; and (b) use or development maintains the amenity of the locality and users by: (i) preventing regular parking overspill; and (ii) minimising the impact of car parking on heritage value and local character.
Acceptable Solutions	Performance Criteria
A1 The number of on-site car parking spaces must be no less than: (a) 1.5 spaces per dwelling, or serviced apartment, with 1 or 2 bedrooms; or (b) 2 spaces per dwelling, or serviced apartment, with more than 2 bedrooms; and (c) 1 visitor space for every 5 dwellings located in shared parking areas.	P1 The number of on-site car parking spaces must satisfy the needs of the residents and visitors, and must not detract from the amenity of users or the locality.

GLE-S1.7 Development Standards for Buildings and Works

GLE-S1.7.1 Development Standards for Buildings and Works – Golf Course Precinct

GLE-S1.7.1.1 Height and setback

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.2 Building height setback and siting A1 and P1 and A2 and P2, and Recreation Zone – Clause 28.4.1 Building height, setback and siting A1 and P1 and A2 and P2.

Objective:	To protect the precinct from development that would impact upon the landscape qualities of the peninsula through their height or location.	
Acceptable Solutions		Performance Criteria
A1	Building height must be not more than 10m.	P1 Building height must not cause a significant adverse impact on the landscape qualities of the peninsula, taking into account all of the following: (a) the particular shape, contours or slope of the subject land, or of adjoining land; (b) the adjoining development; and (c) the need to protect existing natural features or qualities of the surrounding area.
A2	Buildings must have a setback from boundaries of not less than 10m.	P2 Setback must not cause a significant adverse impact on the landscape qualities of the peninsula, taking into account all of the following: (a) the particular shape, contours or slope of the subject land, or of adjoining land; (b) the adjoining development; and (c) the need to protect existing natural features or qualities of the surrounding area.

GLE-S1.7.1.2 Access serving the Residential Precinct

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That access providing for use or development within the Residential Precinct: (a) does not impact upon the use of the golf course; (b) does not impact upon the amenity or landscape qualities of the peninsula; (c) does not cause loss of historic cultural heritage significance of the golf clubhouse; and (d) provides safe access suitable for the anticipated vehicles and traffic.	
Acceptable Solutions		Performance Criteria

<p>A1</p> <p>No Acceptable Solution</p>	<p>P1</p> <p>Vehicular accesses required for development within the Residential Precinct must meet the following:</p> <ul style="list-style-type: none"> (a) provide the minimum width of access required to provide for traffic generated by development and including service vehicles; (b) ensure any onsite turning and access for service vehicles is in accordance with <i>Australian Standard AS2890.2:2002 - Parking facilities Part 2: Off-street commercial vehicle facilities</i>, 2nd Ed, SAI Ltd, Sydney, 2002; (c) be drained and paved incorporating water sensitive urban design principles where practical; (d) create a reduced speed, safe and visually attractive pedestrian environment; and (e) be located, landscaped and designed to meet the following: <ul style="list-style-type: none"> (i) provide separation between access and the golf course; (ii) integrate the access in to the landscape setting; (iii) not impact on the viable use of the golf course or result in land use conflict from interactions with golf balls, taking into account all of the following: <ul style="list-style-type: none"> a. topography; b. prevailing wind direction; c. landscaping; d. orientation of fairway; and e. fencing; (iv) be sympathetic to the historic cultural heritage significance of the golf club house, including views to and from the building; and (v) not be located between the golf course and the heritage listed golf club house.
--	---

GLE-S1.7.1.3 Fairway design

This sub-clause is in addition to Environmental Management Zone – Clause 23.4

Development Standards for Buildings and Works and Recreation Zone – Clause 28.4

Development Standards for Buildings and Works.

Objective:	That alteration to the layout of fairways adjacent to the Residential Precinct will avoid land use conflict with use or development in that precinct.
Acceptable Solutions	Performance Criteria

A1 No Acceptable Solution.	P1 Any alteration to fairways must not result in land use conflict or loss of amenity for use or development in the Residential Precinct from interaction with golf balls, taking into account all of the following: <ul style="list-style-type: none"> (a) topography; (b) prevailing wind direction; (c) landscaping; (d) orientation of fairway; and (e) fencing.
--	---

GLE-S1.7.2 Development Standards for Buildings and Works – Recreation Precinct 1

GLE-S1.7.2.1 Height and setback

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.2 Building height setback and siting, and Recreation Zone – Clause 28.4.1 Building height, setback and siting A1 and P1 and A2 and P2.

Objective:	Development: <ul style="list-style-type: none"> (a) is of a scale that provides a transition between the commercial and residential development precincts to the east and the recreational precincts to the west; and (b) protects the foreshore area from development that would impact upon its character or prevent pedestrian access.
Acceptable Solutions	Performance Criteria
A1 Building height must be not more than 8m, unless within 10m of the high water mark.	P1 Building height must satisfy the following: <ul style="list-style-type: none"> (a) be compatible with the character and amenity of the surrounding residential commercial and recreational developments, taking into account: <ul style="list-style-type: none"> (i) the particular shape, contours or slope of the subject land, or of adjoining land; (ii) the adjoining development; (iii) the extent of any overshadowing; and (iv) any significant water views; and (b) be not more than 12m.
A2 Buildings must: <ul style="list-style-type: none"> (a) if within 20m of the high water mark, be non-habitable; and (b) if within 10m of the high water mark, have a building height of not more 	P2 Buildings must not cause a significant adverse impact on the character of or the pedestrian access to the foreshore, taking into account: <ul style="list-style-type: none"> (a) the building height; (b) the setback; and

than 4m.	(c) the use of the building.
----------	------------------------------

GLE-S1.7.2.2 Amenity

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish, and in addition to Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That development does not impact adversely on the amenity and character of the locality.	
Acceptable Solutions		Performance Criteria
A1	P1	
Roofing must have a solar absorption of not less than 50%.	Roofing must not cause significant adverse impact on the amenity of surrounding Residential or Visitor Accommodation uses, taking into account all of the following: <ul style="list-style-type: none"> (a) the reflectivity of the roofing; (b) the pitch and orientation of the roof; and (c) the particular shape, contours or slope of the subject land, or of adjoining land. 	
A2	P2	
No external lighting.	External lighting must not cause significant adverse impact on surrounding Residential or Visitor Accommodation uses, taking into account all of the following: <ul style="list-style-type: none"> (a) the shading of the light; (b) the height of the light; and (c) the particular shape, contours or slope of the subject land, or of adjoining land. 	

GLE-S1.7.3 Development Standards for Buildings and Works – Recreation Precinct 2**GLE-S1.7.3.1 Height and setback**

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.2 Building height, setback and siting, and Recreation Zone – Clause 28.4.1 Building height, setback and siting A1,P1 and A2,P2.

Objective:	To: <ul style="list-style-type: none"> (a) prevent development that impacts upon the future development of the precinct for a car park; and (b) protect the foreshore area from development that would adversely impact on its character or prevent pedestrian access or enhancement of the amenity for users. 	
Acceptable Solutions		Performance Criteria

<p>A1</p> <p>Buildings must be unroofed.</p>	<p>P1</p> <p>Building height must satisfy the following:</p> <ul style="list-style-type: none"> (a) be compatible with the character and amenity of the surrounding residential, commercial and recreational development, taking into account all of the following: <ul style="list-style-type: none"> (i) the particular shape, contours or slope of the subject land, or of adjoining land; (ii) the adjoining development; (iii) the extent of any overshadowing; and (iv) any significant water views, and (b) be not more than 10m.
<p>A2</p> <p>Setback of development to land in a General Residential Zone must:</p> <ul style="list-style-type: none"> (a) if for residential and non-residential development, comply with clause 8.4.2 A3 as if the development were a dwelling; and (b) if for non-residential garages and carports, comply with clause 8.4.2 A2. 	<p>P2</p> <p>Setback must be compatible with the character and amenity of surrounding residential development taking into account all of the following:</p> <ul style="list-style-type: none"> (a) the particular shape, contours or slope of the subject land, or of adjoining land; (b) the adjoining development and zone standards; (c) the extent of any overshadowing; (d) privacy; and (e) any significant water views.
<p>A3</p> <p>Buildings must:</p> <ul style="list-style-type: none"> (a) if within 20m of the high water mark, be non-habitable; and (b) if within 10m of the high water mark, have a building height of not more than 4m. 	<p>P3</p> <p>Buildings must not cause a significant adverse impact on the character of, or the pedestrian access to the foreshore taking into account all of the following:</p> <ul style="list-style-type: none"> (a) the particular shape, contours or slope of the subject land or of adjoining land; (b) the building height; (c) the setback; and (d) the use of the building.

GLE-S1.7.3.2 Amenity

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish, and in addition to Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That development does not impact adversely on the amenity and character of the locality.
------------	--

Acceptable Solutions	Performance Criteria
A1 Roofing must have a solar absorption of not less than 50%.	P1 Roofing must not cause significant adverse impact on the amenity of surrounding Residential or Visitor Accommodation uses, taking into account all of the following: <ul style="list-style-type: none"> (a) the reflectivity of the roofing; (b) the pitch and orientation of the roof; and (c) the particular shape, contours or slope of the subject land, or of adjoining land.
A2 No external lighting.	P2 External lighting must not cause significant adverse impact on surrounding Residential or Visitor Accommodation uses, taking into account all of the following: <ul style="list-style-type: none"> (a) the shading of the light; (b) the height of the light; and (c) the particular shape, contours or slope of the subject land, or of adjoining land.

GLE-S1.7.4 Development Standards for Buildings and Works – Recreation Precinct 3

GLE-S1.7.4.1 Height and setback

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.2 Building height, setback and siting, and Recreation Zone – Clause 28.4.1 Building height, setback and siting A1 and P1 and A2 and P2.

Objective:	To: <ul style="list-style-type: none"> (a) provide for development which will not impact on the amenity of neighbouring residential area; and (b) protect the foreshore area from development which would impact upon the character of the foreshore or prevent pedestrian access and enhancement of the amenity of users.
Acceptable Solutions	Performance Criteria
A1 Building height must be not more than 6m.	P1 Building height must satisfy the following: <ul style="list-style-type: none"> (a) be compatible with the character and amenity of the surrounding residential commercial and recreational development, having regard to: <ul style="list-style-type: none"> (i) the particular shape, contours or slope of the subject land, or of adjoining land; (ii) the adjoining development; (iii) the extent of any overshadowing; and

	<p>(iv) any significant water views, and</p> <p>(b) be not more than 10m.</p>
<p>A2</p> <p>Setback of development to land in a General Residential Zone must:</p> <p>(a) if for residential and non-residential development, comply with clause 8.4.2 A3 as if the development were a dwelling; and</p> <p>(b) if for non-residential garages and carports, comply with clause 8.4.2 A2.</p>	<p>P2</p> <p>Setback must be compatible with the character and amenity of surrounding residential development, taking into account all of the following:</p> <p>(a) the particular shape, contours or slope of the subject land, or of adjoining land;</p> <p>(b) the adjoining development and zone standards;</p> <p>(c) the extent of any overshadowing;</p> <p>(d) privacy; and</p> <p>(e) any significant water views.</p>

GLE-S1.7.4.2 Amenity

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish, and in addition to Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That development does not impact adversely on the amenity and character of the locality.	
Acceptable Solutions		Performance Criteria
A1	Roofing must have a solar absorption of not less than 50%.	<p>P1</p> <p>Roofing must not cause significant adverse impact on the amenity of surrounding Residential or Visitor Accommodation uses, taking into account all of the following:</p> <p>(a) the reflectivity of the roofing;</p> <p>(b) the pitch and orientation of the roof; and</p> <p>(c) the particular shape, contours or slope of the subject land, or of adjoining land.</p>
A2	No external lighting.	<p>P2</p> <p>External lighting must not cause significant adverse impact on surrounding Residential or Visitor Accommodation uses, taking into account all of the following:</p> <p>(a) the shading of the light;</p> <p>(b) the height of the light; and</p> <p>(c) the particular shape, contours or slope of the subject land, or of adjoining land.</p>

GLE-S1.7.5 Development Standards for Buildings and Works – Residential Precinct

GLE-S1.7.5.1 Residential density

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	To create a residential density that: <ul style="list-style-type: none"> (a) provides for dwelling types and sizes appropriate to the location; and (b) encourages efficient utilisation of the residential precinct and services.
Acceptable Solutions	Performance Criteria
A1 The precinct must be developed with: <ul style="list-style-type: none"> (a) not less than 56 dwellings or serviced apartments; and (b) not more than 75 dwellings or serviced apartments. 	P1 No Performance Criterion.

GLE-S1.7.5.2 Building envelope

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.1 Development area, Clause 23.4.2 Building height, setback and siting, and Recreation Zone – Clause 28.4.1 Building height, setback and siting.

Objective:	To provide for development that is designed to: <ul style="list-style-type: none"> (a) integrate the scale and form of development: <ul style="list-style-type: none"> (i) within the peninsula landform, which is viewed from all sides; and (ii) with the adjacent golf course and established settlement pattern; and (b) protect the foreshore area from development which would impact upon its character or amenity.
Acceptable Solutions	Performance Criteria
A1 Development, excluding protrusions that extend not more than 0.6m horizontally beyond the building envelope, must be contained within a building envelope (see Figure GLE-S1.2) determined by: <ul style="list-style-type: none"> (a) a maximum of 4m above natural ground level within 20m of the high water mark precinct boundary; and (b) a line projecting at an angle of 20 degrees from the horizontal. at a height of 4m above natural ground level at a distance of 20m from the high water mark precinct boundary to a distance of 40m from the high water mark precinct boundary, and thereafter projecting a line at an angle of 8 degrees from the horizontal to a maximum height of 12m above natural ground level. 	P1 The building height must satisfy the following: <ul style="list-style-type: none"> (a) a building height compatible with the character and amenity of the peninsula, taking into account all of the following: <ul style="list-style-type: none"> (i) the topography of the site and nearby land; (ii) nearby development; (iii) the character of the peninsula and the foreshore; and (iv) the character of the peninsula and the foreshore; (b) provide diversity of building scale and mass with individual 2 to 3 storey building or parts of buildings or other architectural devices which reduce the perception of height; (c) locate higher bulkier parts of the development

	<p>away from the foreshore side of the precinct; and</p> <p>(d) limiting building height to not more than 20m, unless the building is within 20m of the high water mark, where it must be not more than 4m.</p>
<p>A2</p> <p>Buildings within 20m of the high water mark are to be non-habitable and not for residential purposes.</p>	<p>P2</p> <p>No Performance Criterion.</p>

GLE-S1.7.5.3 Sunlight and overshadowing

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	<p>To provide:</p> <p>(a) the opportunity for sunlight to enter habitable rooms (other than bedrooms) of a dwelling and serviced apartments; and</p> <p>(b) separation between dwellings and serviced apartments to provide reasonable opportunity for daylight and sunlight to enter habitable rooms and private open space.</p>
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>A dwelling or serviced apartment must have at least one habitable room (other than a bedroom) in which there is a window that faces between 30 degrees west of north and 30 degrees east of north (see Figure GLE-S1.3).</p>	<p>P1</p> <p>A dwelling or serviced apartment must be sited and designed, so as to allow sunlight to enter at least one habitable room (other than a bedroom).</p>
<p>A2</p> <p>Unless for an outbuilding with a building height no more than 2.4m, or protrusions that extend no more than 0.6m horizontally from the dwelling, a dwelling or serviced apartment that is to the north of a window of a habitable room (other than a bedroom) of another dwelling or serviced apartment, which window faces between 30 degrees west of north and 30 degrees east of north (see Figure GLE-S1.3), must:</p> <p>(a) be contained within a line projecting (see Figure GLE-S1.4):</p> <p>(i) at a distance of 3m from the</p>	<p>P2</p> <p>A dwelling or serviced apartment must be designed and sited to not cause unreasonable loss of amenity by overshadowing a window of a habitable room (other than a bedroom) of another dwelling or serviced apartment that faces between 30 degrees west of north and 30 degrees east of north (see Figure GLE-S1.3).</p>

<p>window; and</p> <p>(ii) vertically to a height of 3m above natural ground level and then at an angle of 45 degrees from the horizontal; or</p> <p>(b) not cause the habitable room to receive less than 3 hours of sunlight between 9.00am and 3.00pm on 21st June.</p>	
<p>A3</p> <p>Unless for an outbuilding with a building height no more than 2.4m, or protrusions that extend no more than 0.6m horizontally from the dwelling, a dwelling or serviced apartment that is to the north of the private open space of another dwelling or serviced apartment must:</p> <p>(a) be contained within a line projecting (see Figure GLE-S1.5):</p> <p>(i) at a distance of 3m from the northern edge of the private open space; and</p> <p>(ii) vertically to a height of 3m above natural ground level and then at an angle of 45 degrees from the horizontal; or</p> <p>(b) not cause 50% of the private open space to receive less than 3 hours of sunlight between 9.00am and 3.00pm on 21st June.</p>	<p>P3</p> <p>A dwelling or serviced apartment must be designed and sited to not cause unreasonable loss of amenity by overshadowing the private open space of another dwelling or serviced apartment.</p>

GLE-S1.7.5.4 Privacy

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	To provide reasonable privacy for dwellings
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>A balcony, deck, roof terrace, parking space, or carport (whether freestanding or part of the dwelling) that has a finished surface or floor level more than 1m above natural ground level must have a permanently fixed screen to a height of at least 1.7m above the finished surface or floor level, with a uniform transparency of no more than 25%, along the sides facing another dwelling, unless the balcony, deck, roof terrace, parking space, or carport is at least 6m from both of the</p>	<p>P1</p> <p>A balcony, deck, roof terrace, parking space or carport (whether freestanding or part of the dwelling) that has a finished surface or floor level more than 1m above natural ground level, must be screened, or otherwise designed, to minimise overlooking of a habitable room or open space of another dwelling.</p>

<p>following:</p> <ul style="list-style-type: none"> (a) a window or glazed door to a habitable room of the other dwelling; and (b) a balcony, deck, roof terrace or private open space of the other dwelling. 	
<p>A2</p> <p>A window or glazed door to a habitable room of a dwelling that has a floor level more than 1m above natural ground level, must be in accordance with one of the following:</p> <ul style="list-style-type: none"> (a) the window or glazed door is to be at least 6m from a facing window or glazed door to a habitable room of another dwelling; (b) the window or glazed door: <ul style="list-style-type: none"> (i) is to be offset, in the horizontal plane, at least 1.5m from the edge of a window or glazed door to a habitable room of another dwelling; (ii) is to have a sill height of at least 1.7m above the floor level or have fixed obscure glazing extending to a height of at least 1.7m above the floor level; (iii) is to have a permanently fixed external screen for the full length of the window or glazed door, to a height of at least 1.7m above floor level, with a uniform transparency of not more than 25%; <p>unless the facing window to a habitable room of another dwelling has a sill height of at least 1.7m above the floor level or has fixed obscure glazing extending to a height of at least 1.7m above the floor level.</p>	<p>P2</p> <p>A window or glazed door to a habitable room of a dwelling, that has a floor level more than 1m above the natural ground level, must be screened, or otherwise located or designed to minimise direct views to a window or glazed door to a habitable room of another dwelling.</p>
<p>A3</p> <p>A shared driveway or parking space (excluding a parking space allocated to that dwelling) must be separated from a window or glazed door to a habitable room of a dwelling, by a horizontal distance of not less than one of the following:</p> <ul style="list-style-type: none"> (a) 2.5m; (b) 1m if one of the following applies: <ul style="list-style-type: none"> (i) it is separated by a screen of at least 1.7m in height; 	<p>P3</p> <p>A shared driveway or parking space must be screened or otherwise located or designed, to minimise detrimental impacts of vehicle noise or vehicle light intrusion to a habitable room of a dwelling unless the parking space is allocated to that dwelling.</p>

(ii) the window or glazed door to a habitable room has a sill height of at least 1.7m above the shared driveway or parking space, or has fixed obscure glazing extending to a height of at least 1.7m above the floor level.	
--	--

GLE-S1.7.5.5 Design

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish, and in addition to Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That the design of development enhances the amenity and character of the peninsula, created by its landform, golf course setting and existing development by: <ul style="list-style-type: none"> (a) integrating development within safe and attractive landscaped public and shared spaces; (b) designing buildings which respond to the landform by being able to be seen from all sides, with all sides being of equal importance; (c) making each stage or part of a development form a component of the whole; (d) creating a building form that reinforces a cohesive 'stand-alone' identity within the precinct; and (e) providing a safe and convenient traffic environment for residents and visitors, with pedestrian footways, driveways and parking areas, which are integrated within, but do not visually dominate, landscaped public and shared spaces.
Acceptable Solutions	Performance Criteria
A1 The development must include not less than 3 landscaped links that provide for views between the Golf Course Precinct and the river. The landscaped links must have a horizontal width of not less than: <ul style="list-style-type: none"> (a) 2/3 the height of the wall of adjacent buildings; or (b) 4m; whichever is the greater.	P1 The development provides for visual connections between the Golf Course Precinct and the river.
A2 The layout of development must include all of the following: <ul style="list-style-type: none"> (a) all pedestrian access designed and constructed to comply with IPWEA Tasmanian Standard Drawing TSD-R11-v1; (b) a public footway along the foreshore from the west boundary to the north-east boundary of the precinct 	P2 No Performance Criterion.

<p>designed and constructed to comply with the following:</p> <ul style="list-style-type: none"> (i) <i>Australian Standard AS2156.1-2001 Walking tracks Part 1: Classification and signage</i>, SAI Ltd., Sydney, 2001, Table Class 1; and (ii) width not less than 1.8m; (c) not less than 5% of dwellings are to be provided with pedestrian access to the publicly accessible pedestrian footway/boardwalk public footway designed to be DDA compliant to <i>Australian Standards AS 1428 (Set) Design for access and mobility Set</i>, SAI Ltd., Sydney. 	
<p>A3</p> <p>The horizontal separation between the public footway and residential buildings must not be less than 7.5m.</p>	<p>P3</p> <p>Separation between the public areas and residential buildings must:</p> <ul style="list-style-type: none"> (a) provide landscaping with clear visual cues for identifying private and shared space from public space; and (b) prevent real and perceived encroachment on public space.
<p>A4</p> <p>Development must include a landscaping plan, showing the following:</p> <ul style="list-style-type: none"> (a) all footways, outdoor car parks, other outdoor vehicular access areas, and public, shared or private open space must be landscaped; (b) boundaries between public, shared or private open space must be defined using one or more of the following: <ul style="list-style-type: none"> (i) grade changes; (ii) changes in vegetation; (iii) low fencing or walls; and (iv) changes in surface treatment; (c) clear sightlines must be maintained between footways, car parks, other vehicle access areas, and public, shared or private open space; (d) planting within 20m of the foreshore must use locally endemic species; (e) planting must not include the following: <ul style="list-style-type: none"> (i) <i>Eucalyptus globulus</i> or 	<p>P4</p> <p>No Performance Criterion.</p>

<p><i>Eucalyptus ovata</i>;</p> <p>(ii) known environmental weeds; and</p> <p>(f) a vegetation management plan for weed removal and weed hygiene must be provided.</p>	
<p>A5</p> <p>Roof colour must be non metallic and have a solar absorption of not less than 50%.</p>	<p>P5</p> <p>Roof colour must provide adequate amenity, taking into account all of the following:</p> <ul style="list-style-type: none"> (a) the reflectivity of the roofing; (b) the pitch and orientation of the roof; and (c) the particular shape, contours or slope of the subject land, or of adjoining land.
<p>A6</p> <p>Building facades facing public or shared space must include a window from a habitable room that complies with the following:</p> <ul style="list-style-type: none"> (a) a sill height not more than 1.5m above floor level; (b) transparent glazing; and (c) an area of not less than 1m². 	<p>P6</p> <p>Building facades facing public or shared space must:</p> <ul style="list-style-type: none"> (a) include detailing which addresses shared and public spaces so that the building is experienced as fronting all shared and public spaces; and (b) provide adequate opportunity for passive surveillance.
<p>A7</p> <p>Outbuildings ancillary to a dwelling must be designed as an integrated part of the dwelling by using the same palette of materials, colours and details.</p>	<p>P7</p> <p>No Performance Criterion.</p>
<p>A8</p> <p>Vehicle access must:</p> <ul style="list-style-type: none"> (a) have accesses that serve 2 or more dwellings with a width not less than 4.3m, except where additional width is required for turning, manoeuvring or intersections or for the inclusion of 5.5m wide passing bays at minimum 45m intervals; (b) provide for onsite turning and access for service vehicles in accordance with <i>Australian Standard AS2890.2 - Parking facilities Part 2: Off-street commercial vehicle facilities</i>, 2nd Ed, SAI Ltd, Sydney, 2002; and (c) be drained and paved incorporating water sensitive urban design principles and landscaping. 	<p>P8</p> <p>Vehicle accesses must be designed to accommodate the anticipated traffic and vehicle types generated by the development and create a reduced speed, safe and visually attractive environment.</p>

<p>A9</p> <p>The design and location of shared parking areas must comply with the following:</p> <ul style="list-style-type: none"> (a) the requirements of <i>Australian/New Zealand Standard AS/NZS 2890.1:2004 Parking Facilities, Part 1: Off Road Car Parking</i>, incorp. Amd 1, Standards Australia, Sydney; (b) include a variety of surfaces or paving materials. (c) not provide opportunities for entrapment; and (d) not be located between dwellings and the foreshore, where those dwellings are located directly adjacent to the foreshore. 	<p>P9</p> <p>Parking areas located between dwellings and the foreshore must minimise visual impact of parking on the streetscape of the driveway, enhance visual amenity as seen from within the site and from external to the site and minimise opportunities for crime or anti-social behaviour, taking into account all of the following:</p> <ul style="list-style-type: none"> (a) landscaping, including paving design; (b) location of car parking; (c) ensuring that there are no entrapment spots of hiding places; (d) provision of lighting; (e) opportunities for visual surveillance; and (f) methods proposed for defining boundaries between private and public common spaces.
<p>A10</p> <p>Lighting must be provided in compliance with <i>Australian/New Zealand Standard AS/NZS 1158.3.1:2005 Lighting for roads and public spaces Part 3.1: Pedestrian area (Category P) lighting—Performance and design requirements</i>, Inc. amd. 3, SAI Ltd., Sydney, 2013, to the following minimum levels:</p> <ul style="list-style-type: none"> (a) shared driveways: P4; (b) shared parking areas: P11C; (c) accessible parking spaces: P12; (d) footways/boardwalks: P3; and (e) cycle paths: P4. 	<p>P10</p> <p>No Performance Criterion.</p>

GLE-S1.7.5.6 Private open space

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	To provide for reasonable private open space for the needs of the residents.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Dwellings must have an area of private open space, appurtenant and directly accessible from a habitable room, which complies with the following:</p> <ul style="list-style-type: none"> (a) is in one location; (b) is not less than 8m² with a dimension 	<p>P1</p> <p>Dwellings must have an area of private open space that complies with the following:</p> <ul style="list-style-type: none"> (a) is sufficient to meet the needs of the residents; (b) does not discourage use of public or shared spaces through the creation of large private

<p>of not less than 2m;</p> <p>(c) have an area of not more than 30m²;</p> <p>(d) if on ground level, is clearly defined by a fence and landscaping; and</p> <p>(e) is not located to the south, south-east or south-west of the dwelling, unless the area receives not less than 3 hours of sunlight to 50% of the area between 9.00am and 3.00pm on the 21st June.</p>	<p>gardens; and</p> <p>(c) is not more than 40m² in area.</p>
--	--

GLE-S1.7.5.7 Fences

This sub-clause is in addition to Environmental Management Zone – Clause 23.4
Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4
Development Standards for Buildings and Works.

Objective:	To provide for mutual passive surveillance between dwellings, private open space, public spaces and shared spaces.	
Acceptable Solutions		Performance Criteria
A1		P1
Fencing must comply with the following:		All fences (including free-standing walls) must meet the following:
<p>(a) between buildings and the boundary of either the Golf Precinct or the Commercial Precinct, a fence must have a height of not more than:</p> <p>(i) 1.2m if the fence is non-transparent; or</p> <p>(ii) 1.8m, if any part of the fence has openings above a height of 1.2m which provide a uniform transparency of not less than 30% (excluding any posts);</p> <p>(b) between buildings and the foreshore or shared driveway, a fence must have a height of not more than:</p> <p>(i) 0.5m, if the fence is non-transparent; or</p> <p>(ii) 1m, if any part of the fence has openings above a height of 0.5m which provide a uniform transparency of not less than 30% (excluding any posts); and</p> <p>(c) within public or shared spaces, no fencing unless required as a balustrade or similar in accordance with the National Construction Code of Australia and which provide a uniform transparency of not less than 30% (excluding any posts).</p>		<p>(a) provide safe and attractive public and shared spaces that allow for mutual passive surveillance between the dwellings and public or shared spaces;</p> <p>(b) maintain and enhance the streetscape of any driveway and foreshore edge by not visually dominating public and shared spaces;</p> <p>(c) avoid visual division of outdoor spaces; and</p> <p>(d) avoid creating opportunities for entrapment.</p>

GLE-S1.7.5.8 Waste storage

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	To provide for the storage of garbage and recycling bins for development and provision of waste collection.
Acceptable Solutions	Performance Criteria
A1 Dwellings must have a storage area that provides for waste and recycling bins, and is within one of the following locations: <ul style="list-style-type: none"> (a) in an area for the exclusive use of each dwelling which is not located between the dwelling and any shared driveway or is enclosed and designed as an integrated part of the dwelling by using the same palette of materials, colours and details; or (b) in a communal storage area that complies with the following: <ul style="list-style-type: none"> (i) has an impervious surface; (ii) has a setback of at least 3m from a shared driveway; (iii) is at least 5.5m from any dwelling; and (iv) is screened from the shared driveways and any dwelling by a wall to a height of at least 1.2m above the finished surface level of the storage area. 	P1 Development must provide storage for waste and recycling bins, which complies with the following: <ul style="list-style-type: none"> (a) capable of storing the number of bins required for the site; (b) screened from the frontage and dwellings; and (c) if a communal storage area, separated from dwellings on the site to minimise impacts caused by odours and noise.
A2 Development must provide for the collection of waste from within the site.	P2 No Performance Criterion.

GLE-S1.7.5.9 Noise Attenuation

This sub-clause is in addition to Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That residential development is constructed to a standard that provides suitable noise attenuation from neighbouring uses.
Acceptable Solutions	Performance Criteria
A1 Buildings intended for Residential uses must comply with 'satisfactory design sound levels' specified in <i>Australian/New Zealand Standard AS/NZS 2107:2000 Acoustics</i> -	P1 Residential development must be constructed so that the occupants of buildings intended for Residential uses are provided with a satisfactory noise environment, taking into account all of the

<i>Recommended design sound levels and reverberation times for building interiors</i> ; SAI Ltd., Sydney, 2000, Table 1.	<p>following:</p> <ul style="list-style-type: none"> (a) the nature of neighbouring noise sources; (b) the distance to neighbouring noise sources; (c) the particular shape, contours or slope of the subject land, or of adjoining land; and (d) the type of building construction; and (e) any advice from a suitable qualified acoustics engineer.
--	--

GLE-S1.7.6 Development Standards for Buildings and Works – Commercial Precinct

GLE-S1.7.6.1 Height and setback

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.1 Development area, Clause 23.4.2 Building height, setback and siting, and Recreation Zone – Clause 28.4.1 Building height, setback and siting.

Objective:	<p>To provide for multi storey development which is designed to sit within the landscape setting of the peninsula and surrounding golf course with a design and building detailing that:</p> <ul style="list-style-type: none"> (a) integrates the scale and form of development with the landform and adjacent residential settlement; and (b) protects the foreshore area from development which would impact upon its character or prevent pedestrian access and enhancement of the amenity for users.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Building height must be not more than 15m, unless within 10m of the high water mark.</p>	<p>P1</p> <p>Building height must satisfy the following:</p> <ul style="list-style-type: none"> (a) be compatible with the character and amenity of the site, taking into account all of the following: <ul style="list-style-type: none"> (i) the particular shape, contours or slope of the subject land, or of adjoining land; (ii) the adjoining residential development; (iii) the impacts on the peninsula and foreshore; and (iv) diversity of the building scale and mass, reducing with individual elements of buildings reading as 2 to 3 storeys and the architectural language seeking to reduce the perception of height, and (b) be not more than 25m.
<p>A2</p> <p>Buildings must:</p> <ul style="list-style-type: none"> (a) if within 20m of the high water mark, be non-habitable; and (b) if within 10m of the high water mark, 	<p>P2</p> <p>Buildings must not cause a significant adverse impact on the character of, or the pedestrian access to, the foreshore, taking into account all of the following:</p> <ul style="list-style-type: none"> (a) the particular shape, contours or slope of the

be not be more than 4m in height.	subject land or of adjoining land; (b) the building height; (c) the setback; and (d) the use of the building.
-----------------------------------	--

GLE-S1.7.6.2 Amenity

This sub-clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish, and in addition to Recreation Zone – Clause 28.4 Development Standards for Buildings and Works.

Objective:	That development does not impact adversely on the amenity and character of the locality.	
Acceptable Solutions		Performance Criteria
A1	No Acceptable Solution.	P1
		External colours and materials, including fenestration, must reduce the apparent bulk and scale of buildings, taking into account all of the following: (a) the particular shape, contours or slope of the subject land, or of adjoining land; and (b) the character of the surrounding area.
A2		P2
	No Acceptable Solution.	Development within 30m of the high water mark must be landscaped to enhance the visual amenity of the area and reduce the visual impact of buildings when viewed from the foreshore, taking into account all of the following: (a) the particular shape, contours or slope of the subject land, or of adjoining land; (b) the character of the surrounding foreshore and existing vegetation; and (c) the scale and mass of the adjoining development.
A3	No external lighting.	P3
		External lighting must not cause significant adverse impact on surrounding Residential or Visitor Accommodation uses, taking into account all of the following: (a) the shading of the light; (b) the height of the light; and (c) the particular shape, contours or slope of the subject land, or of adjoining land.

GLE-S1.7.6.3 Noise attenuation

This sub-clause is in addition to Environmental Management Zone – Clause 23.4

Development Standards for Buildings and works, and Recreation Zone – Clause 28.4
Development Standards for Buildings and Works.

Objective:	That residential development is constructed to a standard that provides suitable noise attenuation from neighboring uses.
Acceptable Solutions	Performance Criteria
A1 Buildings intended for Residential use must comply with 'satisfactory design sound levels' specified in <i>Australian/New Zealand Standard AS/NZS 2107:2000 Acoustics - Recommended design sound levels and reverberation times for building interiors</i> ; SAI Ltd., Sydney, 2000, Table 1.	P1 Residential development must be constructed so that the occupants of buildings intended for Residential uses are provided with a satisfactory noise environment, taking into account all of the following: <ul style="list-style-type: none"> (a) the nature of neighbouring noise sources; (b) the distance to neighbouring noise sources; (c) the particular shape, contours or slope of the subject land, or of adjoining land; (d) the type of building construction; and (e) any advice from a suitably qualified acoustics engineer.

GLE-S1.7.6.4 Access serving the Residential Precinct and access to the foreshore

This sub-clause is in addition to Environmental Management Zone – Clause 23.4
Development Standards for Buildings and Works, and Recreation Zone – Clause 28.4
Development Standards for Buildings and Works.

Objective:	That the design of access: <ul style="list-style-type: none"> (a) does not fetter the use and development potential of commercial use while providing safe access suitable for the anticipated vehicles and traffic; and (b) provides safe pedestrian access for the public from Bourneville Avenue to the public footway along the foreshore in the Residential Precinct.
Acceptable Solutions	Performance Criteria
A1 Vehicle access must be located within the right of way shown on the approved subdivision plan, application PLN 13-081.	P1 Vehicular access must be: <ul style="list-style-type: none"> (a) located to minimise loss of developable area within the Commercial Precinct; and (b) not be located between the golf course and the heritage listed golf clubhouse.
A2 Vehicle access must be designed and constructed to comply with <i>Guide to Road Design Parts 1-8</i> :.	P2 No Performance Criterion.

<p>A3</p> <p>The layout of development must include a public footway from Bournville Crescent to the public footway along the foreshore in the Residential Precinct, constructed to comply with <i>Australian Standard AS2156.1- 2001 Walking tracks Part 1: Classification and signage</i>, SAI Ltd., Sydney, 2001, Table 2. Class 2.</p>	<p>P3</p> <p>The layout of development must include suitable public footway from Bournville Crescent to the public footway along the foreshore in the Residential Precinct to provide adequate temporary access, until the Commercial Precinct is developed.</p>
<p>A4</p> <p>Lighting must be provided in compliance with <i>Australian/New Zealand Standard AS/NZS 1158.3.1:2005 Lighting for roads and public spaces Part 3.1: Pedestrian area (Category P) lighting—Performance and design requirements</i>, Inc. amd. 3, SAI Ltd., Sydney, 2013, to the following minimum levels:</p> <p>(a) shared driveways: P4;</p> <p>(b) shared parking areas: P11C;</p> <p>(c) accessible parking spaces: P12;</p> <p>(d) footways/boardwalks: P3;</p> <p>(e) cyclepaths: P4.</p>	<p>P4</p> <p>No Performance Criterion.</p>

GLE-S1.8 Development Standards for Subdivision

GLE-S1.8.1 Development Standards for Subdivision – All Precincts

GLE-S1.8.1.1 Lot size and dimensions

This sub-clause is in substitution for Environmental Management Zone – Clause 23.5.1 Lot design, and Recreation Zone – Clause 28.5.1 Lot design.

Objective:	That lots are suitable for the purpose and outcomes of the specific area plan.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>The design of each lot, or a lot proposed in a plan of subdivision, must:</p> <p>(a) provide boundaries in accordance with precinct boundaries or otherwise provide for development in accordance with the specific area plan; and</p> <p>(b) include a frontage or boundary to a right of carriageway that is not</p>	<p>P1</p> <p>No Performance Criterion.</p>

required for the sole means of
frontage for another lot, of 3.6m.

GLE-S1.9 Tables

This sub-clause is not used in this specific area plan.

GLE-S2.0 Wilkinsons Point and Elwick Bay Specific Area Plan

GLE-S2.1 Plan Purpose

The purpose of the Wilkinsons Point and Elwick Bay Specific Area Plan is:

- GLE-S2.1.1 To develop the Wilkinsons Point and Elwick Bay area as an iconic waterfront location with quality environments and structures that complement each other, integrate well into the surroundings and contribute towards a richly vibrant waterfront precinct – a place that is engaging, contemporary and culturally relevant.
- GLE-S2.1.2 To take advantage of the value of the site within the larger landscape setting.
- GLE-S2.1.3 To consider a mix of appropriate uses and development that would create the opportunity for feasible investment and partnership arrangements in the redevelopment of the area.
- GLE-S2.1.4 To build on the foundation provided by the DEC and GASPI as significant community facilities.
- GLE-S2.1.5 To support the selection of development sites and building forms that respond to the physical setting and use of the area.
- GLE-S2.1.6 To recognise the area as a major gateway opportunity to Glenorchy and Hobart.
- GLE-S2.1.7 To protect the natural values of the foreshore and bay.
- GLE-S2.1.8 To encourage all land to remain in the freehold ownership of the Glenorchy City Council.
- GLE-S2.1.9 To provide comfortable and continuous foreshore open space, including the development of shared trails, along the entire length of foreshore through the study area.
- GLE-S2.1.10 To support and where possible, extend the recreational values of the foreshore and community facilities.
- GLE-S2.1.11 To promote public health and well-being through the provision of significant amounts of open space and the promotion of linkages within the area and to the broader City.
- GLE-S2.1.12 To provide for future use and development of open space and facilities within the realistic resources of the Council and community to manage, maintain and upgrade.
- GLE-S2.1.13 To improve access, parking, pedestrian and cycling infrastructure to cater for future use of the area.
- GLE-S2.1.14 To improve linkages to the surrounding facilities, suburbs and the Glenorchy CBD.

GLE-S2.2 Application of this Plan

- GLE-S2.2.1 The specific area plan applies to an area of land designated as the Wilkinsons Point and Elwick Bay Specific Area Plan on the overlay maps.
- GLE-S2.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for, or in addition to, the provisions of the:
- (a) Community Purpose Zone;
 - (b) Open Space Zone; and
 - (c) C2.0 Parking and Sustainable Transport Code,
- as specified in the relevant provision.
- GLE-S2.2.3 The specific area plan is divided into the following precincts:
- (a) Montrose Foreshore Community Park Precinct;
 - (b) Elwick Bay Foreshore Public Open Space Precinct;
 - (c) Brooker Highway Frontage Precinct;
 - (d) Derwent Entertainment Centre Precinct; and
 - (e) Wilkinsons Point Visitor Service Precinct.
- GLE-S2.2.4 The extent of each precinct is shown in Figure GLE-S2.1 Wilkinsons Point Precinct Map and in Figure GLE-S2.2 Elwick Bay Precinct Map.

GLE-S2.3 Local Area Objectives**GLE-S2.3.1 Local Area Objectives - Montrose Foreshore Community Park Precinct**

Sub-clause	Area Description	Local Area Objectives
GLE-S2.3.1	Montrose Foreshore Community Park Precinct, shown in Figure GLE-S2.2 Elwick Bay Precinct Map.	<p>The local area objectives for the Montrose Foreshore Community Park Precinct are to:</p> <ul style="list-style-type: none"> (a) strengthen the Precinct as the major hub for the GASP! initiative including social enterprise, recreational facilities and activities, display of art, interpretation and training functions and education; (b) provide for social enterprise facilities, services and activities that foster engagement, education and enjoyment with the community; including uses related to the existing sports clubs, playground facilities, picnic facilities, trails, boat launching ramp, display of art, interpretation and the opportunity for education and

		<p>training functions; and</p> <p>(c) provide for commercial functions connected with recreational uses, such as a kiosk/café or an outlet for hire of recreation equipment such as bikes or kayaks.</p>
--	--	--

GLE-S2.3.2 Local Area Objectives - Elwick Bay Foreshore Public Open Space Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S2.3.2	Elwick Bay Foreshore Public Open Space Precinct, shown in Figure GLE-S2.2 Elwick Bay Precinct Map.	<p>The local area objectives of the Elwick Bay Foreshore Public Open Space Precinct are to:</p> <ul style="list-style-type: none"> (a) maintain the natural values and enhance community, cultural and recreational use of the foreshore as a linear open space link between Montrose Community Park, Wilkinsons Point and beyond; (b) ensure that the enhancement of the foreshore is in accordance with the GASP! Vision for a dynamic, inspirational and internationally resonant open space providing unique encounters with art and creating memorable experiences for all in the natural environment; (c) build on Tasmania's cultural tourism offerings; (d) increase liveability; (e) enhance commercial opportunities by improving the sense of place, connectivity and vibrancy of the area; and (f) retain the whole of the area primarily for public open space uses and uses that support public open space use with provision for pop-up, mobile or temporary commercial use.

GLE-S2.3.3 Local Area Objectives – Brooker Highway Frontage Precinct

Sub-clause	Area	Local Area Objectives
-------------------	-------------	------------------------------

	Description	
GLE-S2.3.3	Brooker Highway Frontage Precinct, shown in Figure GLE-S2.1 Wilkinsons Point Precinct Map.	The local area objectives for the Brooker Highway Frontage Precinct are to: (a) recognise the Precinct's role as part of an open landscape setting of Elwick Bay with the potential to create a strong visitor entry facility and services to the City while supporting the role and function of the DEC and GASP!

GLE-S2.3.4 Local Area Objectives – Derwent Entertainment Centre Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S2.3.4	Derwent Entertainment Centre Precinct, shown in Figure GLE-S2.1 Wilkinsons Point Precinct Map.	The local area objectives for the Derwent Entertainment Centre Precinct are to: (a) enhance the role and function of the DEC as a major entertainment, events and conference facility for the City, region and State.

GLE-S2.3.5 Local Area Objectives – Wilkinsons Point Visitor Service Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S2.3.5	Wilkinsons Point Visitor Service Precinct, shown in Figure GLE-S2.1 Wilkinsons Point Precinct Map.	The local area objectives for the Wilkinsons Point Visitor Service Precinct are to: (a) create a vibrant public open space with provision for future development opportunities that will allow Wilkinsons Point to become a major waterfront destination, attracting visitors and residents.

GLE-S2.4 Definition of Terms

GLE-S2.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
DEC	means Derwent Entertainment Centre
GASP!	means Glenorchy Art and Sculpture Park
social enterprise	means an organisation the primary objective of which is to create public or community benefit from the sale of goods or services.

GLE-S2.5 Use Table

GLE-S2.5.1 Use Table - Montrose Foreshore Community Park Precinct

This sub-clause is in substitution for Open Space Zone – Clause 29.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If for GASP! activities.
Educational and Occasional Care	If for GASP! activities.
Discretionary	
Community Meeting and Entertainment	If (a) for sporting, social and cultural events; and (b) not listed as Permitted.
Education and Occasional Care	If (a) for education and training undertaken within existing facilities or associated with management and maintenance of Elwick Bay – Wilkinsons Point foreshore area; and (b) not listed as permitted.
Food Services	If for a kiosk, café, restaurant or take away food premises for occasional sporting, social and cultural events.
General Retail and Hire	If for a recreational hire outlet providing recreational

	equipment to the users of the park and foreshore areas.
Pleasure Boat Facility	If for a recreational hire outlet providing recreational equipment to the users of the river.
Sports and Recreation	
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S2.5.2 Use Table – Elwick Bay Foreshore Public Open Space Precinct

This sub-clause is in substitution for Open Space Zone – Clause 29.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If for GASP! activities.
Food Services	If (a) associated with occasional or temporary sporting, social or cultural events, or (b) for GASP! activities.
Discretionary	
Pleasure Boat Facility	If for the temporary mooring of vessels at the wharf and jetty facilities at Wilkinsons Point.
Port and Shipping	If for the temporary mooring of vessels and loading or unloading of visitors or passengers at wharf and jetty facilities at Wilkinsons Point.
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S2.5.3 Use Table – Brooker Highway Frontage Precinct

This sub-clause is in substitution for Open Space Zone – Clause 29.2 Use Table

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
No Uses	
Discretionary	
Community Meeting and Entertainment	
Food Services	
Tourist Operation	
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S2.5.4 Use Table – Derwent Entertainment Centre Precinct

This sub-clause is in substitution for Community Purpose Zone – Clause 27.2 Use Table.

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If (a) at the DEC; or (b) associated with a function centre (eg food and

	wine pavilion).
Food Services	(a) If at the DEC; or (b) associated with a function centre (eg food and wine pavilion) or occasional sporting, social and cultural events
Sports and Recreation	(a) If at the DEC; or (b) associated with a function centre (eg food and wine pavilion).
Discretionary	
Community Meeting and Entertainment.	If not listed as Permitted.
Food Services	If not listed as Permitted.
Sports and Recreation	If not listed as Permitted.
Tourist Operation	
Utilities	If not listed as No Permit Required.
Prohibited	
All other uses	

GLE-S2.5.5 Use Table – Wilkinsons Point Visitor Service Precinct

This sub-clause is in substitution for Community Purpose Zone – Clause 27.2 Use Table.

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
No uses	
Discretionary	
Community Meeting and Entertainment	If for an art and craft centre, public art gallery, museum.

Food Services	(a) If for a café or restaurant; or (b) a takeaway food premises associated with occasional sporting, social and cultural events.
General Retail and Hire	If (a) for a commercial art gallery; or (b) not for a bottleshop.
Hotel Industry	
Residential	If for apartments that are located on the southern side of the primary access road to Wilkinsons Point.
Sports and Recreation	
Tourist Operation	
Utilities	If not listed as No Permit Required.
Visitor Accommodation	If for a motel or serviced apartments.
Prohibited	
All other uses	

GLE-S2.6 Use Standards

GLE-S2.6.1 Use Standards – Montrose Foreshore Community Park Precinct

GLE-S2.6.1.1 Limit on private commercial use

This sub-clause is in addition to Open Space Zone – Clause 29.3 Use Standards.

Objective:	To retain the bulk of the Precinct for public open space.	
Acceptable Solutions		Performance Criteria
A1		P1
Private, commercial uses in the Precinct must not, in aggregate, occupy an area greater than 5000m ² .		No Performance Criterion.

GLE-S2.6.2 Use Standards – Elwick Bay Foreshore Public Open Space Precinct

GLE-S2.6.2.1 Public use only

This sub-clause is in addition to Open Space Zone – Clause 29.3 Use Standards.

Objective:	To restrict the use of the Precinct to predominantly public use.	
Acceptable Solutions		Performance Criteria

A1 The use must be a public use or a mobile use.	P1 Uses for private events and displays must be: (a) temporary; and (b) appropriate to the scale and environmental sensitivities of the Precinct.
--	---

GLE-S2.6.3 Use Standards – Derwent Entertainment Centre Precinct

GLE-S2.6.3.1 Relationship with the DEC

This sub-clause is in addition to Community Purpose Zone – Clause 27.2 Use Standards.

Objective:	That any use in the Precinct supports the operation of the DEC as a major events, entertainment and conferencing venue.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 All uses must support the operation of the DEC as a regional events, entertainment and conference venue.

GLE-S2.7 Development Standards for Buildings and Works

GLE-S2.7.1 Development Standards for Buildings and Works – Montrose Foreshore Community Park Precinct

GLE-S2.7.1.1 Limit on buildings

This sub-clause is in addition to Open Space Zone – Clause 29.4 Development Standards for Buildings and Works.

Objective:	To: (a) retain the predominant public open space character of the Precinct; and (b) preserve expansive views across the water plane by restricting the number and nature of buildings allowed in the Precinct.	
Acceptable Solutions		Performance Criteria
A1	P1	
There must be no buildings or extensions to buildings within the Precinct, except for one or more of the following: (a) a food premises, training facility or recreational hire outlet only in the car free area; (b) a social enterprise; or (c) BBQ facilities, picnic shelter, public amenities or public area.		Buildings in the Precinct must be subservient to the landscape character, be limited in number and be designed in the round.

GLE-S2.7.1.2 Building height

This sub-clause is in substitution for Open Space Zone – Clause 29.4.1 Building height, setback and siting A1 and P1.

Objective:	To maintain a scale of development in the Precinct in keeping with the foreshore location and the predominant scale of existing built form.	
Acceptable Solutions		Performance Criteria
A1	P1	
Building height must not be more than 5m, or one storey, whichever is the higher.		Building height must not result in the following: (a) domination of the public foreshore or open space in the precinct by visual bulk; (b) unreasonable overshadowing of the public foreshore or open space in the precinct; or (c) obstruction of key public views or vistas.

GLE-S2.7.1.3 Setback from high water mark

This sub-clause is in substitution for Open Space Zone – Clause 29.4.1 Building height, setback and siting, A2 and P2.

Objective:	To maintain a sufficient setback from high water mark to allow for continuous and safe pedestrian access to the foreshore edge.	
Acceptable Solutions		Performance Criteria
A1		P1
Buildings, other than marine structures, must have a setback from high water mark of not less than 10m.		Buildings, other than marine structures, must be sited sufficiently from high water mark to allow for continuous and safe pedestrian access to the foreshore edge.

GLE-S2.7.1.4 Passive surveillance

This sub-clause is in addition to Open Space Zone – Clause 29.4. Development Standards for Buildings and Works.

Objective:	To design and site buildings to minimise opportunities for crime and anti-social behaviour.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		Buildings must satisfy the following: <ul style="list-style-type: none"> (a) be designed and sited to provide natural surveillance of pedestrian routes and car parks; (b) be free of concealment and entrapment spots; (c) be lit to a level that is adequate to ensure a reasonable level of security; (d) have access and egress points that are clearly visible from the public domain; and (e) be constructed of materials that are hardy or easily replaceable, and resistant to vandalism.

GLE-S2.7.2 Development Standards for Buildings and Works – Brooker Highway Frontage Precinct**GLE-S2.7.2.1 Building design**

This sub-clause is in addition to Community Purpose Zone – Clause 27.4.

Development Standards for Buildings and Works.

Objective:	That building design contributes positively to the parkland setting and the amenity and safety of the public.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		<p>Buildings must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the Design Principles for the Brooker Highway Frontage Precinct in Table GLE-S2.9.1; (b) be freestanding and designed in the round; (c) address and be accessible from both the Brooker Highway frontage and the DEC carpark; (d) provide protection from the elements around the building curtilage; and (e) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the building.

GLE-S2.7.2.2 Building height

This sub-clause is in substitution for Community Purpose Zone – Clause 27.4.1 Building height.

Objective:	To ensure that building height contributes positively to the scale of the setting and maintains the visual dominance of the DEC.	
Acceptable Solutions		Performance Criteria
A1		P1.1
<p>Building height must be:</p> <ul style="list-style-type: none"> (a) not less than two storeys; and (b) within the range of 7.2m to 10m. 		<p>Building height must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the Design Principles for the Brooker Highway Frontage Precinct in Table GLE-S2.9.1; (b) be compatible with the scale of the setting; (c) not unreasonably overshadow adjacent public space; and (d) allow for a transition in height to the DEC.
		P1.2

	Building height may contain an architectural element of greater height, provided that such element contributes positively to the building and the parkland setting.
--	---

GLE-S2.7.2.3 Setback from frontage

This sub-clause is in substitution of Community Purpose Zone – Clause 27.4.2 Setback A1 and P1.

Objective:	To reinforce the role of the space as parkland where buildings are treated in the round while reinforcing its appearance as part of a landscaped highway frontage rather than a street edge.	
Acceptable Solutions		Performance Criteria
A1		P1
Buildings must have a setback from a frontage of not less than 10m.		Buildings must be set back sufficiently from the Brooker Highway so that: <ul style="list-style-type: none"> (a) public pedestrian and bicycle access past the site is not inhibited; and (b) the development of a landscaped space between the building edge and the Highway is enabled.

GLE-S2.7.2.4 Passive surveillance

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	To design and site buildings to minimise opportunities for crime and anti-social behaviour.	
Acceptable Solutions		Performance Criteria

A1	P1
No Acceptable Solution.	Buildings must satisfy the following: <ul style="list-style-type: none"> (a) be designed and sited to provide natural surveillance of pedestrian routes and car parks; (b) be free of concealment and entrapment spots; (c) be lit to a level that is adequate to ensure a reasonable level of security; (d) have access and egress points that are clearly visible from the public domain; and (e) be constructed of materials that are hardy or easily replaceable and resistant to vandalism.

GLE-S2.7.2.5 Access to State road

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works and in substitution of C2.0 Parking and Sustainable Transport Code – Clause 2.6.1 Number of accesses for vehicles.

Objective:	To restrict development of new accesses to the Brooker Highway to protect the safety and efficiency of the State road network.	
Acceptable Solutions		Performance Criteria
A1	Access or egress must only be by way of existing access points to the Brooker Highway.	P1 A second access from the Brooker Highway adjacent to the existing easternmost exit must not to be created without the prior approval of the State road authority.

GLE-S2.7.2.6 Parking location

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	To provide parking required to serve a building within the existing DEC car park to prevent further erosion of the Precinct's landscaped character.	
Acceptable Solutions		Performance Criteria

A1	P1
Parking must be provided only within the existing DEC car parking area.	No Performance Criterion.

GLE-S2.7.2.7 Landscaping

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces.
Acceptable Solutions	Performance Criteria
A1	P1
No Acceptable Solution.	A landscaping plan, prepared by a suitably qualified landscape architect must demonstrate to the satisfaction of the planning authority that publicly accessible spaces between and around buildings are landscaped to a high standard and integrate with other public open spaces, with a shared palette of urban detail such as paving materials, street furniture and lighting throughout the Brooker Highway Frontage Precinct.

GLE-S2.7.3 Development Standards for Buildings and Works – Derwent Entertainment Centre Precinct

GLE-S2.7.3.1 Building design

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That building design contributes positively to the parkland setting and the amenity and safety of the public.
Acceptable Solutions	Performance Criteria

<p>A1</p> <p>No Acceptable Solution.</p>	<p>P1</p> <p>Buildings must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the Design Principles for the Derwent entertainment Centre Precinct in Table GLE-S2.9.2. (b) be freestanding and designed in the round; (c) must not read as an extension to the DEC; (d) provide protection from the elements around the building curtilage; and (e) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the building.
---	--

GLE-S2.7.3.2 Building height

This sub-clause is in substitution for Community Purpose Zone – Clause 27.4.1 Building height.

Objective:	To design buildings with a low profile in keeping with the Wilkinsons Point landform and the visual dominance of the DEC.	
Acceptable Solutions		Performance Criteria
<p>A1</p> <p>Building height must not be more than 8m.</p>		<p>P1</p> <p>Building height must not be more than 8m, except for an architectural element, which may be of greater height provided that such element:</p> <ul style="list-style-type: none"> (a) contributes positively to the architectural quality of the building; (b) does not clash visually with the Wilkinsons Point landform; (c) does not obstruct views from the main entry level of the DEC, and (d) does not compromise the visual dominance of the DEC.

GLE-S2.7.3.3 Passive surveillance

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	To design and site buildings to minimise opportunities for crime and anti-social behaviour.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 Buildings must satisfy the following: <ul style="list-style-type: none"> (a) be designed and sited to provide natural surveillance of pedestrian routes and car parks; (b) be free of concealment and entrapment spots; (c) be lit to a level that is adequate to ensure a reasonable level of security; (d) have access and egress points that are clearly visible from the public domain; and (e) be constructed of materials that are hardy or easily replaceable and resistant to vandalism.

GLE-S2.7.3.4 Landscaping

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 A landscaping plan, prepared by a suitably qualified landscape architect, must demonstrate to the satisfaction of the planning authority that publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces, with a shared palette of urban detail such as paving materials, street furniture and lighting throughout the Precinct.

GLE-S2.7.4 Development Standards for Buildings and Works – Wilkinsons Point Visitor Service Precinct

GLE-S2.7.4.1 Building design

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That building design contributes positively to the streetscape linear pedestrian space (as appropriate) within the broader parkland setting and to the amenity and safety of the public.	
Acceptable Solutions		Performance Criteria
A1	P1	
No Acceptable Solution	<p>In sub-precinct A, see Figure GLE-S2.1, building design must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3; (b) provide an active frontage; (c) be freestanding pavilion forms; (d) be designed in the round; (e) where providing breaks between buildings, design them to be small enough to ensure effective definition of the public street space and to provide a level of protection from northerly winds, while at the same time being large enough to allow for view corridors and pedestrian passage without being detrimental to a sense of continuous street edge; (f) provide protection from the elements around the building curtilage; and (g) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the building. 	
A2	P2	
No Acceptable Solution.	<p>In sub-precinct B, see Figure GLE-S2.1, building design must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the Design Principles 	

	<p>for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3;</p> <ul style="list-style-type: none"> (b) provide an active frontage; (c) create a building form that addresses and aligns with the frontage; (d) create a building form that is stepped back to reduce its apparent mass; (e) provide a designed roofscape for lower building elements as they will be in the view field of higher building elements to the rear; (f) provide protection from the elements around the building curtilage; and (g) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the building.
<p>A3</p> <p>No Acceptable Solution.</p>	<p>P3</p> <p>In sub-precincts C1, C2 and C3, see Figure GLE-S2.1, building design must satisfy the following, where relevant:</p> <ul style="list-style-type: none"> (a) in all of the sub-precincts: <ul style="list-style-type: none"> (i) be consistent with the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3; (ii) provide an active frontage; (iii) provide a designed roofscape for lower buildings elements as they will be in the view field of higher building elements to their rear; (iv) provide protection from the elements around the building curtilage; and (v) incorporate roof-top service infrastructure, including service plants and lift structures, within the design of the building; (b) in sub-precinct C1: <ul style="list-style-type: none"> (i) be freestanding pavilion forms; (ii) be designed in the round; and (iii) where creating breaks between buildings, design them to be small enough to ensure effective definition of the linear pedestrian

	<p>space and to provide a level of protection from northerly winds, while at the same time being large enough to allow for view corridors and pedestrian passage; and</p> <p>(c) in sub-precincts C2 & C3:</p> <p>(i) be a building or buildings in space;</p> <p>(ii) be designed in the round; and</p> <p>(iii) orient building massing inland and not towards the end of the Point.</p>
--	--

GLE-S2.7.4.2 Building height

This sub-clause is in substitution for Community Purpose Zone – Clause 27.4.1 Building height.

Objective:	That buildings are of a scale and profile in keeping with the Wilkinsons Point landform.	
Acceptable Solutions		Performance Criteria
A1		P1
Building height must be in accordance with Table GLE-S2.9.4.		Building height must be consistent with the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3.

GLE-S2.7.4.3 Siting

This sub-clause is in substitution for Community Purpose Zone – Clause 27.4.2 Setback.

Objective:	That buildings are sited in accordance with the requirements of the particular sub-precinct to provide for spatial definition for streets or linear public space.	
Acceptable Solutions		Performance Criteria
A1		P1
Buildings in sub-precincts A and B, see Figure GLE-S2.1, must be built to the frontage.		Buildings must be sited from a frontage consistent with the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3.
A2		P2
Buildings in sub-precinct C3, see Figure GLE-S2.1, must have a setback from a frontage of not less than 10m.		Buildings in sub-precinct C3, see Figure GLE-S2.1, must be sited from a frontage consistent with the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3.

<p>A3</p> <p>In sub-precincts C1, C2 and C3, see Figure GLE-S2.1, buildings must provide for, align with and address a central and public pedestrian space, 20m wide, that extends the curved alignment of the road reservation through the southern part of the Precinct to the Point and its shelter and wharf.</p>	<p>P3.1</p> <p>Buildings in sub-precinct C, see Figure GLE-S2.1, must be sited to provide for, align with, and address a central and public pedestrian space, no less than 15m wide, that extends the curved alignment of the road reservation through the southern part of the Precinct.</p> <p>P3.2</p> <p>The pedestrian space must be of sufficient width to accommodate emergency vehicle access, pedestrian passage, landscaping and urban detail, including lighting and seating.</p>
--	--

GLE-S2.7.4.4 Passive surveillance

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	Design and site buildings to minimise opportunities for crime and anti-social behavior.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>No Acceptable Solution.</p>	<p>P1</p> <p>Buildings must satisfy the following:</p> <ul style="list-style-type: none"> (a) be designed and sited to provide natural surveillance of pedestrian routes and car parks; (b) be free of concealment and entrapment spots; (c) be lit to a level that is adequate to ensure a reasonable level of security; (d) have access and egress points that are clearly visible from the public domain; and (e) be constructed of materials that are hardy or easily replaceable; and resistant to vandalism.

GLE-S2.7.4.5 Landscaping

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces.	
Acceptable Solutions		Performance Criteria
A1	No Acceptable Solution.	P1
		A landscaping plan, prepared by a suitably qualified landscape architect must demonstrate to the satisfaction of the planning authority that publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces, with a shared palette of urban detail such as paving materials, street furniture and lighting throughout Precinct.

GLE-S2.7.4.6 Limit on parking

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	To limit the proportion of the Precinct which is devoted to car parking.	
Acceptable Solutions		Performance Criteria
A1	Additional uncovered car parking spaces must not be provided in the Precinct.	P1
		Additional parking spaces may be provided within the building envelope of a building which predominantly serves a non-parking related purpose, provided such provision does not prevent the building meeting the Design Principles for the Wilkinsons Point Visitor Service Precinct in Table GLE-S2.9.3.

GLE- S2.7.4.7 Private open space

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	That dwellings and serviced apartments are provided with sufficient private open space to meet the recreational needs of residents or occupants.	
Acceptable Solutions		Performance Criteria

A1 Each dwelling or serviced apartment above ground floor level must have a balcony which must have the following characteristics: (a) directly accessible from and adjacent to a habitable room (other than a bedroom); (b) an area no less than 12m ² ; and (c) a width of not less than 2m.	P1 Each dwelling or serviced apartment above ground floor level must have sufficient private open space to meet the reasonable recreation needs of residents or occupants, having regard to: (a) provision of private open space, other than balconies; or (b) the availability of communal open space or recreation facilities.
--	--

GLE-S2.8 Development Standards for Subdivision

GLE-S2.8.1 Development Standards for Subdivision – Montrose Foreshore Community Park Precinct

GLE-S2.8.1.1 Subdivision

This sub-clause is in substitution for Open Space Zone – Clause 29.5.1 Lot design A1 and P1.

Objective:	That subdivision is suitable for the intended use and development and to restrict the carrying out of subdivision within the Precinct to the Council or a State authority.	
Acceptable Solutions		Performance Criteria
A1	Each lot, or a lot proposed in a plan of subdivision, must be required for a public use by the Council or a State authority.	P1
		No Performance Criterion.
A2	No Acceptable Solution.	P2
		Each lot, or a lot proposed in a plan of subdivision, must have sufficient area, suitable proportions, adequate services and sufficient frontage to a road or access by right of way to satisfy its intended use or development.

GLE-S2.8.2 Development Standards for Subdivision – Elwick Bay Foreshore Public Open Space Precinct

GLE-S2.8.2.1 Subdivision

This sub-clause is in substitution for Open Space Zone – Clause 29.5.1 Lot design A1 and P1.

Objective:	That subdivision is suitable for the intended use and development and to restrict the carrying out of subdivision within the Precinct to the Council or a public authority.	
Acceptable Solutions		Performance Criteria
A1	Each lot, or a lot proposed in a plan of subdivision, must be required for a public use by the Council or a State authority.	P1
		No Performance Criterion.
A2	No Acceptable Solution.	P2
		Each lot, or a lot proposed in a plan of subdivision, must have sufficient area, suitable proportions, adequate services and sufficient frontage to a road or access by

	right of way to satisfy its intended use or development.
A3 Where a subdivision creates a road, the minimum reservation width must be 20m.	P3 No Performance Criterion.

GLE-S2.8.3 Development Standards for Subdivision – Brooker Highway Frontage Precinct, Derwent Entertainment Centre Precinct and Wilkinsons Point Visitor Service Precinct

GLE-S2.8.3.1 Subdivision

This sub-clause is in substitution of Community Purpose Zone – Clause 27.5.1 Lot design A1 and P1.

Objective:	That subdivision is suitable for the intended use and development and to restrict the carrying out of subdivision within Brooker Highway Frontage Precinct, Derwent Entertainment Centre Precinct and Wilkinsons Point Visitor Service Precinct to the Council or a State authority.	
Acceptable Solutions		Performance Criteria
A1 Each lot, or a lot proposed plan of subdivision, must be required for a public use by the Crown, a Council or a State Subdivision must be by or for the Council or a public authority.	P1 No performance criteria.	
A2 No acceptable solution	P2 Each lot must have sufficient area, suitable proportions, adequate services and sufficient frontage to a road or access by right of way to satisfy its intended use or development.	
A3 Where a subdivision creates a road, the minimum reservation width must be 20m.	P3 No performance criteria.	

GLE-S2.9 Tables

Table GLE-S2.9.1 – Design principles for Brooker Highway Frontage Precinct

<p>(a) Development extends and supports the existing landscaping associated with the DEC and the foreshore, especially the formality of the harbour avenue through the principal car parking bay.</p> <p>(b) Development is sited within an open 'parkland' setting, with scope for two</p>

distinct site parcels either side of the central pathway.

- (c) Buildings are of a contemporary design, addressing environmental sustainability principles (i.e. energy efficiency, water management); have high quality design and finishes consistent with the site's highly visible location and are designed 'in the round', with all elevations/edges of development being of equal importance.
- (d) Buildings are a minimum of 2 storeys in height (or equivalent) with discretion for a feature/celebration element of greater height subject to review.
- (e) The visual impact of car parking and traffic movement on the site is avoided by making use of the available car parking spaces for the DEC.
- (f) Development encourages and reinforces pedestrian access via the central walkway rather than creating multiple access points.
- (g) The existing pedestrian and cycle crossing point on the Brooker Highway is enhanced with direct path links to the foreshore and proposed visitor facilities.

Table GLE- S2.9.2 – Design principles for Derwent Entertainment Centre Precinct

- (a) New buildings are of contemporary design, addressing environmental sustainability design principles (e.g. energy efficiency and water management) and recognise the landmark quality of the site and their relationship with the existing DEC building as a freestanding building in a parkland setting.
- (b) New development does not impede the panoramic vistas out from the main entry level of the DEC.
- (c) New buildings are designed 'in the round' as if viewed from all sides and are orientated to the DEC, public space created by the primary access road and promenade spaces.
- (d) Parking is provided within existing or redesigned parking areas adequate for the general needs (not the maximum need) of the DEC's operations.

Table GLE- S2.9.3 – Design principles for Wilkinson Point Visitor Service Precinct

- (a) Buildings are of high quality, contemporary design in form, materials and finishes.
- (b) Commercial and public development in sub-precincts A and B are sited along and address the primary entry road.
- (c) In sub-precinct A, building heights are 2 storeys or 1 storey plus mezzanine.
- (d) In sub-precinct B, building heights step upwards across the site from 2 storeys at the frontage up to 5 storeys at the rear. Visitor Accommodation or Residential use is development at first floor and above, with ground floor restaurant/café/ gallery uses, car parking behind and landscaped areas below it.
- (e) In sub-precinct C, encourage an extensive linear pedestrian space that

	continues beyond the road, acting as a public promenade and giving access to the civic space at the end of Wilkinsons Point.
(f)	In sub-precinct C1, encourage commercial and public development pavilion forms to be sited to the west of the linear pedestrian space.
(g)	In sub-precincts C2 and C3, encourage major commercial and public development to be sited to the east of the linear pedestrian space with the higher buildings to be in sub-precinct C3. Building massing in both sub-precincts C2 and C3 is to be oriented inland and not towards the end of the Point.
(h)	In sub-precinct C3 building height should not significantly exceed approximate equivalence with the building height of the DEC.
(i)	Support the opportunity for the redevelopment of existing car parking areas to the north-east of the DEC provided the supply of parking available to the DEC is not diminished in any such redevelopment.
(j)	Support opportunities for a mix of outdoor and covered car parking areas within the precinct.
(k)	Support improved access to the ferry berthing and jetty facilities at Wilkinsons Point to better cater for visitor access and transport to other attractions on the river.

Table GLE-S2.9.4 Building height in the Wilkinsons Point Visitor Service Precinct

Sub-precinct	Location of control	Minimum building height of predominant building elements	Minimum wall height	Maximum building height
A	N/A	6m	4.5m	Two storeys or 1 storey plus mezzanine to a maximum height of 7.2m.
B	Less than 3.5m from a frontage:	6m	4.5m	Two storeys or 1 storey plus mezzanine to a maximum height of 7.2m.
	Between 3.5m and 15m of a frontage:	8.4m	7.2m	9m
	More than 15m from a frontage:	14m	12.8m	17.5 m
C1	N/A	6m	4.5m	Two storeys or 1 storey plus mezzanine to a maximum height of 7.2m.

C2	N/A	10m	N/A	12.5m
C3	N/A	14m	N/A	20m

Figure GLE-S2.1 Wilkinsons Point Precinct Map

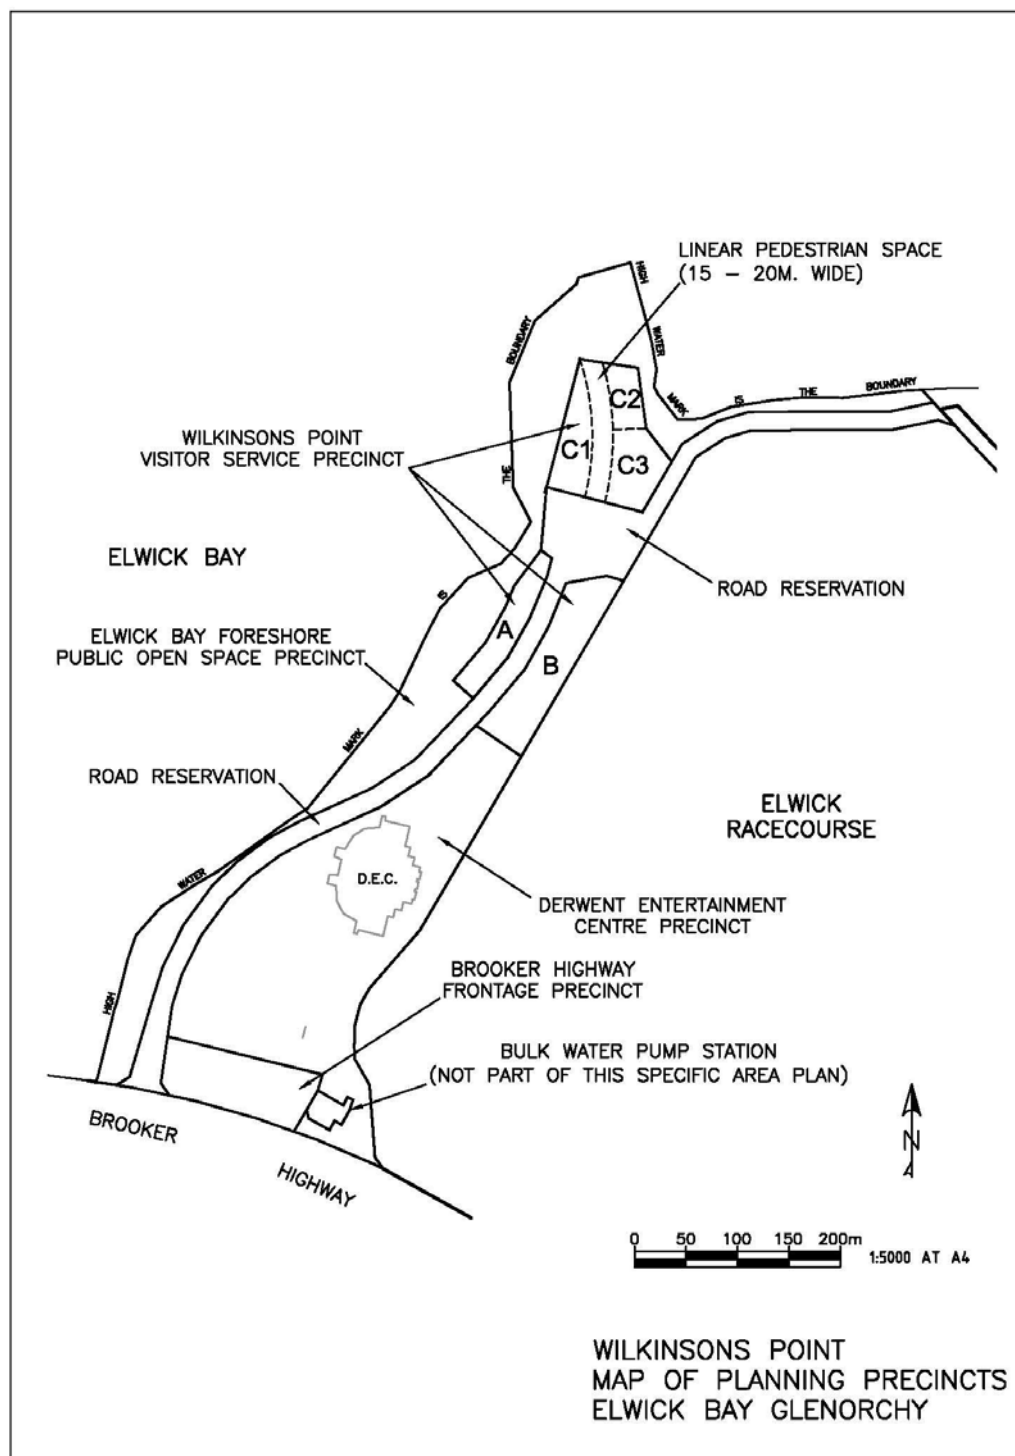

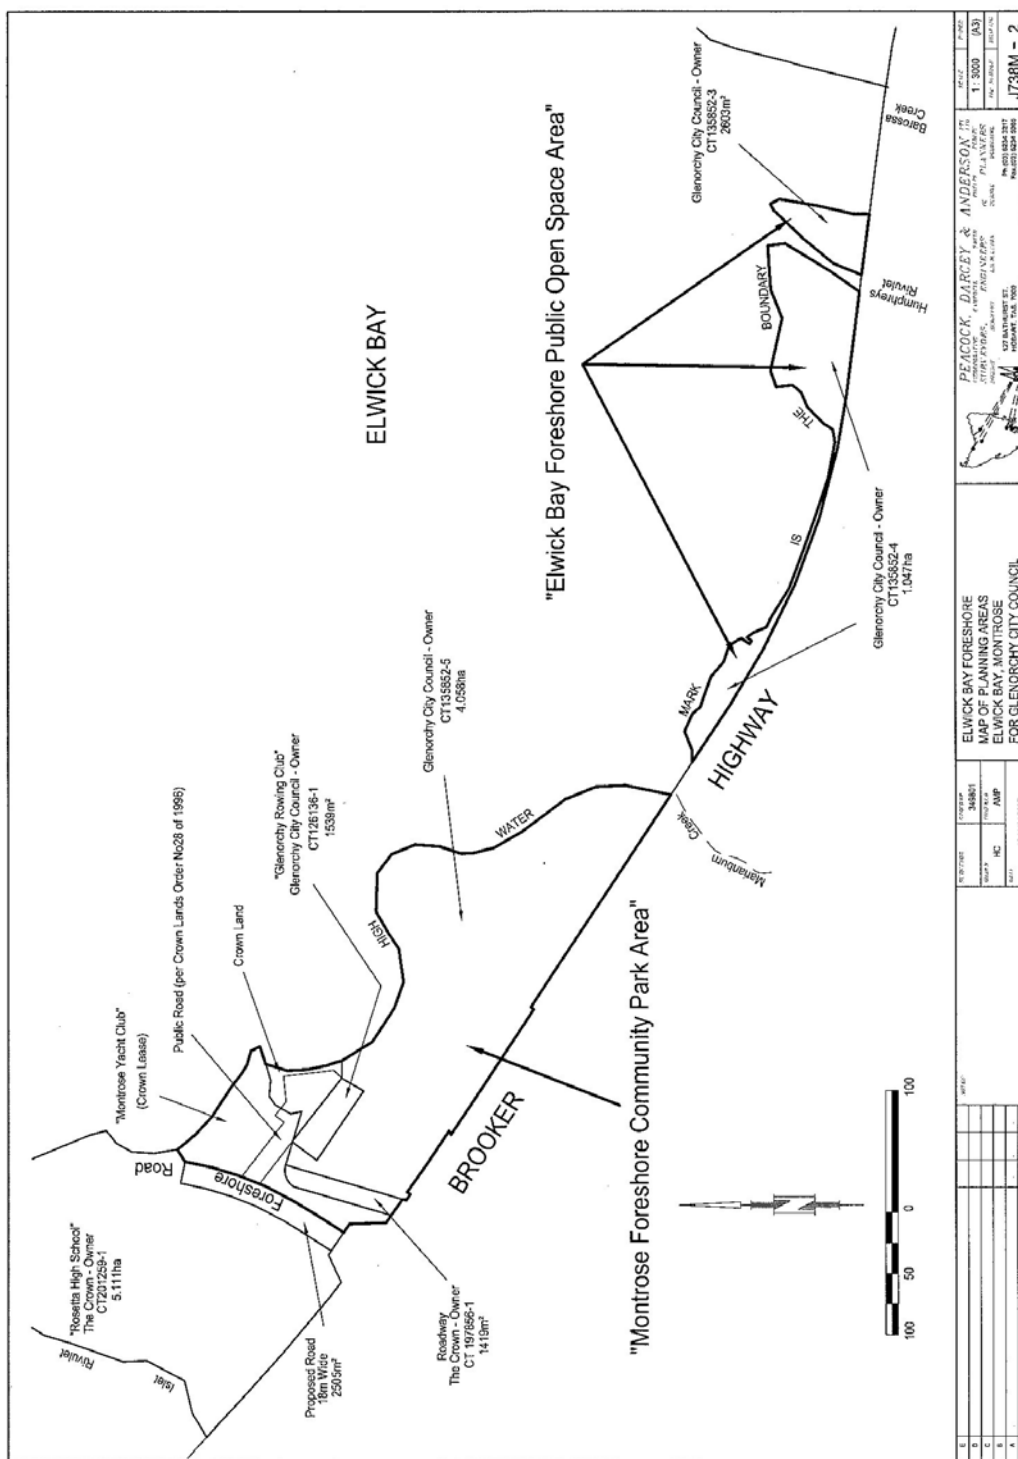

Figure GLE-S2.2 Elwick Bay Precinct Map

ona

GLE-S3.0 Hilton Hill and Environs Specific Area Plan

GLE-S3.1 Plan Purpose

The purpose of the Hilton Hill and Environs Specific Area Plan is:

- GLE-S3.1.1 To require structure planning to occur before subdivision so that road networks and open space and infrastructure systems are planned for and extended in an orderly way.
- GLE-S3.1.2 To ensure that development does not compromise structure planning.

GLE-S3.2 Application of this Plan

- GLE-S3.2.1 The specific area plan applies to an area of land designated as the Hilton Hill and Environs Specific Area Plan on the overlay maps.
- GLE-S3.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in addition to and in substitution for the provisions of a General Residential Zone, as specified in the relevant provisions.

GLE-S3.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S3.4 Definition of Terms

This sub-clause is not used in this specific area plan.

GLE-S3.5 Use Table

This sub-clause is a substitution for General Residential Zone – Clause 8.2 Use Table.

Use Class	Qualification
No Permit Required	
Natural and Cultural Values Management	
Permitted	
Residential	If for: (a) a single dwelling; or (b) home-based business.
Resource Development	If for agricultural use except for controlled environment agriculture.
Utilities	If for minor utilities.
Discretionary	
Passive Recreation	
Utilities	If not listed as Permitted.
Prohibited	
All other uses	

GLE-S3.6 Use Standards

This sub-clause is not used in this specific area plan.

GLE-S3.7 Development Standards for Buildings and Works

GLE-S3.7.1 Buildings and works

This sub-clause is an addition to General Residential Zone – Clause 8.4 Development Standards for Dwellings.

Objective:	That development does not prejudice the efficient future utilisation of land for urban development.	
Acceptable Solutions		Performance Criteria
A1 Development must comply with the following: <ul style="list-style-type: none"> (a) be for an addition to an existing dwelling, a secondary residence or a home-based business; (b) be for a single dwelling and is on a lot no more than 2000 m² in size; or (c) be of a temporary nature able to be readily removed prior to the development of the land for urban purposes. 		P1 Development must not preclude or hinder the effective and efficient future subdivision and development of the land to urban densities.

GLE-S3.8 Development Standards for Subdivision

GLE- S3.8.1 Subdivision

This sub-clause is a substitution of General Residential Zone – Clause 8.6.1 Lot Design A1 and P1.

Objective:	To prevent the premature subdivision of the area in order to ensure orderly extension of road networks, open space and other infrastructure systems. ^{L1}	
Acceptable Solutions		Performance Criteria
A1 No Acceptable Solutions.		P1 Subdivision of land must: <ul style="list-style-type: none"> (a) be to provide for public open space, a public reserve, public services or utilities; or (b) be for the excision of an existing dwelling provided that the lot design and layout does not preclude or hinder the effective

	and efficient future subdivision and development of the land to urban densities.
--	--

GLE-S3.9 Tables

This sub-clause is not used in this specific area plan.

Footnotes

- L1 It is intended that Council, in collaboration with stakeholders, prepare a structure plan and incorporate it within this SAP through a planning scheme amendment. The structure plan may include a plan identifying location of future roads and open space, location and upgrading of infrastructure and may include developer charges applicable to facilitate upgrading of infrastructure or provision of open space. It may include rezoning for specific uses, e.g. Open Space, Recreation, Community Purpose zones.

GLE-S4.0 Black Snake Rural Village Specific Area Plan

GLE-S4.1 Plan Purpose

The purpose of the Black Snake Rural Village Specific Area Plan is:

- GLE-S4.1.1 To impose appropriate controls over the Black Snake Rural Village in respect of development for buildings and works and subdivision associated with single dwellings.
- GLE-S4.1.2 To enable a greater choice for potential land users by providing a variety of lot sizes and type.
- GLE-S4.1.3 To recognise the opportunities and constraints defined by the existing built and natural environment that affect development and lot density in this area.
- GLE-S4.1.4 To provide for the sustainable development of the Black Snake Rural Village.

GLE-S4.2 Application of this Plan

- GLE-S4.2.1 The specific area plan applies to an area of land designated as the Black Snake Rural Village Specific Area Plan on the overlay maps.
- GLE-S4.2.2 The specific area plan is divided into precincts which set out the primary controls for the development of land for a single dwelling or for subdivision for a single dwelling.
 - (a) The precincts are:
 - (i) Existing small lots;
 - (ii) Village;
 - (iii) Small Holdings - Residential;
 - (iv) Small Holdings - Hobby Farms;
 - (b) The extent of each precinct is shown in Figure GLE-S4.3 Black Snake Rural Village Precinct Map.
- GLE-S4.2.3 Application Requirements:

In addition to any other application requirements, the planning authority may require the applicant to provide any of the following information if considered necessary to determine compliance with performance criteria:

 - (a) Shadow diagrams to demonstrate adequate solar access to the principal private open space and windows to main living areas of new dwellings and adjacent dwellings.
 - (b) A detailed soil and water management plan for any development involving or foreshadowing clearing of land or significant earthworks is to be submitted for Council approval with the application for a planning permit.
 - (c) All development applications (except for development that

does not impinge on the unbuilt area of a site), shall include a stormwater concept plan seeking to achieve the following:

- (i) no net increase in peak stormwater flows downstream; and
- (ii) principles necessary to minimise the potential for erosion sedimentation and pollution, following the principles of water sensitive urban design.

In this regard rainwater tanks may be used for the onsite detention of stormwater if they have a capacity and overflow discharge provision that meets Council specification.

Water in these tanks may also be used for non-potable purposes such as toilet flushing, watering of lawns and gardens, irrigating and firefighting.

- (d) All development applications (except for development that does not impinge on the unbuilt area of a site), shall include a landscape concept plan that clearly identifies native vegetation on site and that addresses the following:
 - (i) the retention and preservation of native trees, shrubs and groundcover, as well as natural features including rocks and watercourses on a site;
 - (ii) the provision for landscaping on site that enhances and complements the natural environment and the surrounding landscape character of the area; and
 - (iii) the provision for the replanting of native tree, shrub and groundcover species wherever possible on site.

GLE-S5.2.4 In the area of land this plan applies to, the provisions of the specific area plan are in addition to and in substitution for the provisions of the Future Urban Zone, as specified in the relevant provision.

GLE-S4.3 Local Area Objectives

GLE-S4.3.1 Local Area Objectives

Sub-clause	Area Description	Local Area Objectives
GLE-S4.3.1.1	Black Snake Rural Village, shown in Figure GLE-S4.1	<p>The local area objectives for the Black Snake Rural Village are to:</p> <ul style="list-style-type: none"> (a) retain the character of Black Snake Rural Village as a semi-rural area and Village cluster, with small lots fronting Black Snake Road, on the northern fringe of the City of Glenorchy; (b) promote dwellings set on large

		<p>allotments with generous separation distances bounded by remnant vegetation or landscaped garden areas;</p> <p>(c) maintain the semi-rural landscape quality of Black Snake Village by ensuring development does not intrude into the skyline when viewed from major public vantage points;</p> <p>(d) encourage development to preserve the rural visual backdrop and maintain the predominance of a low density single dwelling form;</p> <p>(e) allow some additional small lot development clustered along the Black Snake Road frontage to achieve a continuity of small lot development for the betterment of the Village form; and</p> <p>(f) encourage the use of colours and materials that blend with the colours of the natural landscape, so that buildings recede into the landscape rather than stand out.</p>
--	--	---

GLE-S4.4 Definition of Terms

GLE-S4.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
average lot area	means the result obtained by dividing the total area of a parent lot by the number of lots into which it is proposed to be subdivided.
scenic view	means a mid-distant view containing an attractive feature, including bushland, water bodies, other geographical features (hilltops, mountainscapes). It may include built form, but is generally natural in character.

GLE-S4.5 Use Table

This sub-clause is not used in this specific area plan.

GLE-S4.6 Use Standards

This sub-clause is not used in this specific area plan.

GLE-S4.7 Development Standards for Buildings and Works

GLE- S4.7.1 Desired future character

This sub-clause is a substitution for Future Urban Zone – Clause 30.4.1 Buildings and Works.

Objective:	That development for a single dwelling is consistent with the local area objectives for the Black Snake Rural Village.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		Development for a single dwelling must be consistent with the local area objectives at Clause GLE-S4.3.1.1.

GLE-S4.7.2 Building height

This subclause is a substitution for Future Urban Zone – Clause 30.4.2 building height, setback and siting A1 and P1.

Objective:	That the height of dwellings is consistent with the character and amenity of the Black Snake Rural Village	
Acceptable Solutions		Performance Criteria
A1		P1
Building height of a dwelling must be not more than 8.5m.		No Performance Criterion.

GLE-S4.7.3 Setback from a frontage

This subclause is a substitution for Future Urban Zone – Clause 30.4.2 Building height, setback and siting A2 and P2.

Objective:	To ensure that buildings are sited to: <ul style="list-style-type: none"> (a) prevent unreasonable impact upon streetscape or residential amenity; and (b) minimise adverse effects of noise, vibration, light and air emissions on sensitive uses from existing and future roads. 	
Acceptable Solutions		Performance Criteria
A1		P1
Building setback from a frontage, other than new habitable buildings for sensitive uses within 50m of the Brooker Highway, must be not less than the distance specified in Table GLE-S4.9.1.		The siting of buildings from a frontage must not have an adverse impact upon the streetscape character of the Black Snake Rural Village.
A2		P2

<p>Habitable buildings for sensitive uses must have a setback from the Brooker Highway of not less than 50m, unless they are:</p> <p>(a) located within a row of existing habitable buildings for sensitive uses and setback no closer than the immediately adjacent habitable building for sensitive use; or</p> <p>(b) an extension which extends no closer than:</p> <p>(i) the existing habitable building for sensitive use; or</p> <p>(ii) an immediately adjacent habitable building for sensitive use.</p>	<p>The siting of buildings from the Brooker Highway must be safe and not unreasonably impact on the efficiency of the road or amenity of sensitive uses, having regard to:</p> <p>(a) the proposed setback;</p> <p>(b) the existing setback of buildings on the site;</p> <p>(c) the speed limit and traffic volume of the road;</p> <p>(d) any noise, vibration, light and air emissions from the road;</p> <p>(e) the nature of the road;</p> <p>(f) the nature of the development;</p> <p>(g) the need for the development;</p> <p>(h) any traffic impact assessment;</p> <p>(i) any recommendations from a suitably qualified person for mitigation of noise, if for a habitable building for a sensitive use; and</p> <p>(j) any written advice received from the road authority.</p>
--	--

GLE-S4.7.4 Setback from a boundary other than a frontage

This sub-clause is in addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	That buildings are sited to not unreasonably impact upon neighbouring dwellings in terms of privacy, overshadowing or visual bulk.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Buildings must have a setback from side and rear boundaries of not less than the distance specified in Table GLE-S4.9.1.</p>	<p>P1</p> <p>Buildings must be sited to not unreasonably impact upon neighbouring dwellings in terms of privacy, overshadowing or visual bulk.</p>

GLE-S4.7.5 Site coverage

This sub-clause is an addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	To limit the scale of new development to achieve a reasonable level of amenity and character protection for the Black Snake Rural Village.
------------	--

Acceptable Solutions	Performance Criteria
A1 Site coverage must not be more than: (a) for a lot with an area less than 2ha: 300m ² plus 4% of the site area; or (b) for a lot with an area of 2ha or more: 400m ² plus 4% of the site area.	P1 No Performance Criterion.

GLE-S4.7.6 Solar access

This sub-clause is an addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	To achieve adequate solar access to the principal private open space and windows to main living areas of new dwellings and adjacent dwellings.
Acceptable Solutions	Performance Criteria
A1 The principal private open space and windows to main living areas of each new dwelling and existing adjacent dwelling must receive at least 3 hours sunlight over at least part of its area between 9.00am and 3.00pm on 21st June.	P1 No Performance Criterion.

GLE-S4.7.7 Privacy

This sub-clause is an addition to Future Urban Zone – 30.4 Development Standards for Buildings and Works.

Objective:	To maintain the reasonable privacy of main habitable rooms of adjoining and nearby dwellings.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 Direct overlooking to main habitable rooms of other dwellings must be minimised by building layout, location, position of balconies and or verandahs, design of windows, screening devices and landscaping.

GLE-S4.7.8 Building colour

This sub-clause is an addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	That building colours are consistent with the character of the
------------	--

	Black Snake Rural Village and its landscape setting.
Acceptable Solutions	Performance Criteria
A1 Exterior building surfaces must be non-reflective and coloured using dark toned colours specified in <i>AS2700: 2011 Colour Standards for General Purposes</i> .	P1 External building colours are to complement the range of colours in the natural bushland or on cleared land. The colour palette should include muted greens, blues, browns and colours in between.

GLE-S4.7.9 View sharing

This sub-clause is in addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	To minimise the unreasonable loss of existing views enjoyed by adjoining and nearby development and provide for an equitable sharing of views. ^{L1}
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 Where a scenic view can be obtained from a property subject to proposed development, as well as from nearby development, the proposed development must, as much as possible, minimise the loss of existing views enjoyed by the adjoining and nearby development and provide for an equitable share of the view in accordance with Figure GLE-S4.2 View Sharing.

Footnotes

- L1 The application of this control is not intended to prevent development of a similar size or scale to the adjoining development from being erected. However it may result in the re-siting of the development or modification to the design to provide an equitable share of views.

GLE-S4.7.10 Connection to services

This sub-clause is in addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	That development for a single dwelling in the Black Snake Rural Village is connected to reticulated water supply and sewer.
Acceptable Solutions	Performance Criteria

A1 All development for a single dwelling in the Black Snake Rural Village must be connected to reticulated water supply and sewer.	P1 No Performance Criterion.
--	--

GLE-S4.7.11 Stormwater flow

This sub-clause is in addition to Future Urban Zone – Clause 30.4 Development Standards for Buildings and Works.

Objective:	That development for a single dwelling in the Black Snake Rural Village is sited so that it is accessible by vehicle, well drained and does not cause adverse downstream stormwater flow impacts.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 Land which contains a water body, is subject to inundation, or is otherwise poorly drained, must not be developed for a single dwelling, unless: (a) all weather 2WD access is available to the land; (b) the land contains a well-drained building site; and (c) the development of the land does not impede the natural flow of waters on that land or on land in the vicinity.

GLE-S4.8 Development Standards for Subdivision

GLE-S4.8.1 Lot design

This sub-clause is a substitution for Future Urban Zone – Clause 30.5.1 Lot design.

Objective:	That subdivision for a single dwelling meets minimum standards and that the level of subdivision is consistent with the character of the Black Snake Rural Village, taking into account the existing and desired future development pattern in each Precinct.
Acceptable Solutions	Performance Criteria
A1 The average lot area must not be less than that which is specified in Table GLE-S4.9.1.	P2 No Performance Criterion.

A2 The area of a lot must not be less than the area specified in Table GLE-S4.9.1.	P2 No Performance Criterion.
A3 The frontage of a lot must not be less than the dimension specified in Table GLE-S4.9.1.	P3 No Performance Criterion.

GLE-S4.8.2 Lot dimensions

This sub-clause is in addition to Future Urban Zone – Clause 30.5 Development Standards for Subdivision.

Objective:	To create lots that are orientated for good solar access.	
Acceptable Solutions	Performance Criteria	
A1 Each lot, or a lot proposed in a plan of subdivision, must be able to contain a minimum area of 18m x 10m with a long axis between 30 degrees west of true north and 30 degrees east of true north, while maintaining minimum building setbacks from all boundaries in accordance with Table GLE-S4.9.2 Acceptable Solutions for Spatial Separation for each Precinct, and a 50m setbacks from the Brooker Highway.	P1 Each lot, or a lot proposed in a plan of subdivision, must be of sufficient dimension as to provide for good solar orientation for a future dwelling.	

GLE-S4.8.3 Connection to services

This sub-clause is in addition to Future Urban Zone – Clause 30.5 Development Standards for Subdivision.

Objective:	That development for subdivision for a single dwelling in the Black Snake Rural Village is connected to reticulated water supply and sewer.	
Acceptable Solutions	Performance Criteria	
A1 Each lot, or a lot proposed in a plan of subdivision, for a single dwelling in the Black Snake Rural Village must be connected to reticulated water supply and sewer.	P1 No Performance Criterion.	

GLE-S4.8.4 Stormwater flow

This sub-clause is in addition to Future Urban Zone – Clause 30.5 Development Standards for Subdivision.

Objective:	That development for subdivision for a single dwelling in the Black Snake Rural Village is sited so that it is accessible by vehicle, well drained and does not cause adverse downstream stormwater flow impacts.	
Acceptable Solutions		Performance Criteria
A1	P1	
No Acceptable Solution.	<p>Each lot, or a lot proposed in a plan of subdivision, which contains a water body, is subject to inundation, or is otherwise poorly drained, must not be developed for subdivision for a single dwelling, unless:</p> <ul style="list-style-type: none"> (a) all weather 2WD access is available to the lot; (b) the lot contains a well drained building site; and (c) the development of the lot does not impede the natural flow of waters on that land or on land in the vicinity. 	

GLE-S4.9 Tables

Table GLE-S4.9.1 Acceptable Solutions for Subdivision for each Precinct

Precinct*	Average Lot Area	Minimum lot area	Minimum frontages
Existing small lots	No Subdivision	N/A	N/A
Village lots	1 dwelling lot per 2000m ²	1000m ²	3.6m
Small Holdings - Residential	1 dwelling lot per 6000m ²	3000m ²	3.6m
Small Holdings -Hobby Farm	1 dwelling lot per 10,000m ²	7000m ²	6.0m

* Precincts are identified in Figure GLE-S5.3 Black Snake Rural Village Precinct Map

Table GLE-S4.9.2 Acceptable Solutions for Spatial Separation for each Precinct

Precinct*	Minimum setback from a Road Boundary	Minimum setback from a Boundary (other than a Road Boundary)
Existing small lots	6m	The greater of 1.5m or half the wall height

Village lots	6m	5m
Small Holdings -Residential	6m	5m
Small Holdings -Hobby Farm	15m	15m

* Precincts are identified in Figure GLE-S4.3 Black Snake Rural Village Precinct Map

Figure GLE-S4.1 Black Snake Rural Village Map

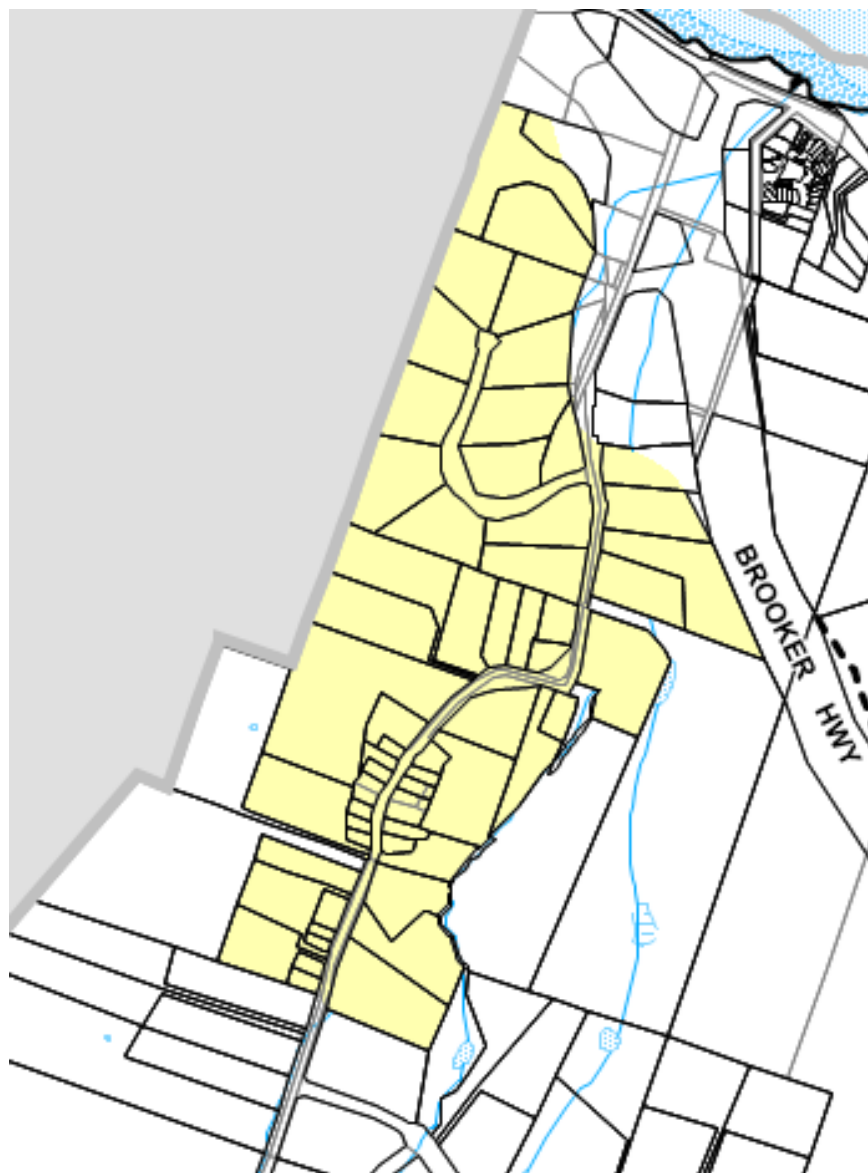

Figure GLE-S4.2 View Sharing

View sharing is achieved by maintaining a de facto building line, the principle of which is illustrated below:

Vertical View:

Angled View:

Wide View:

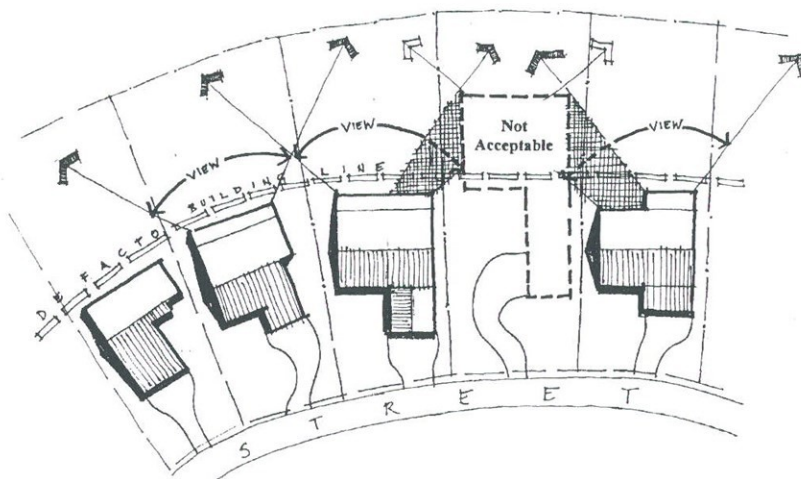

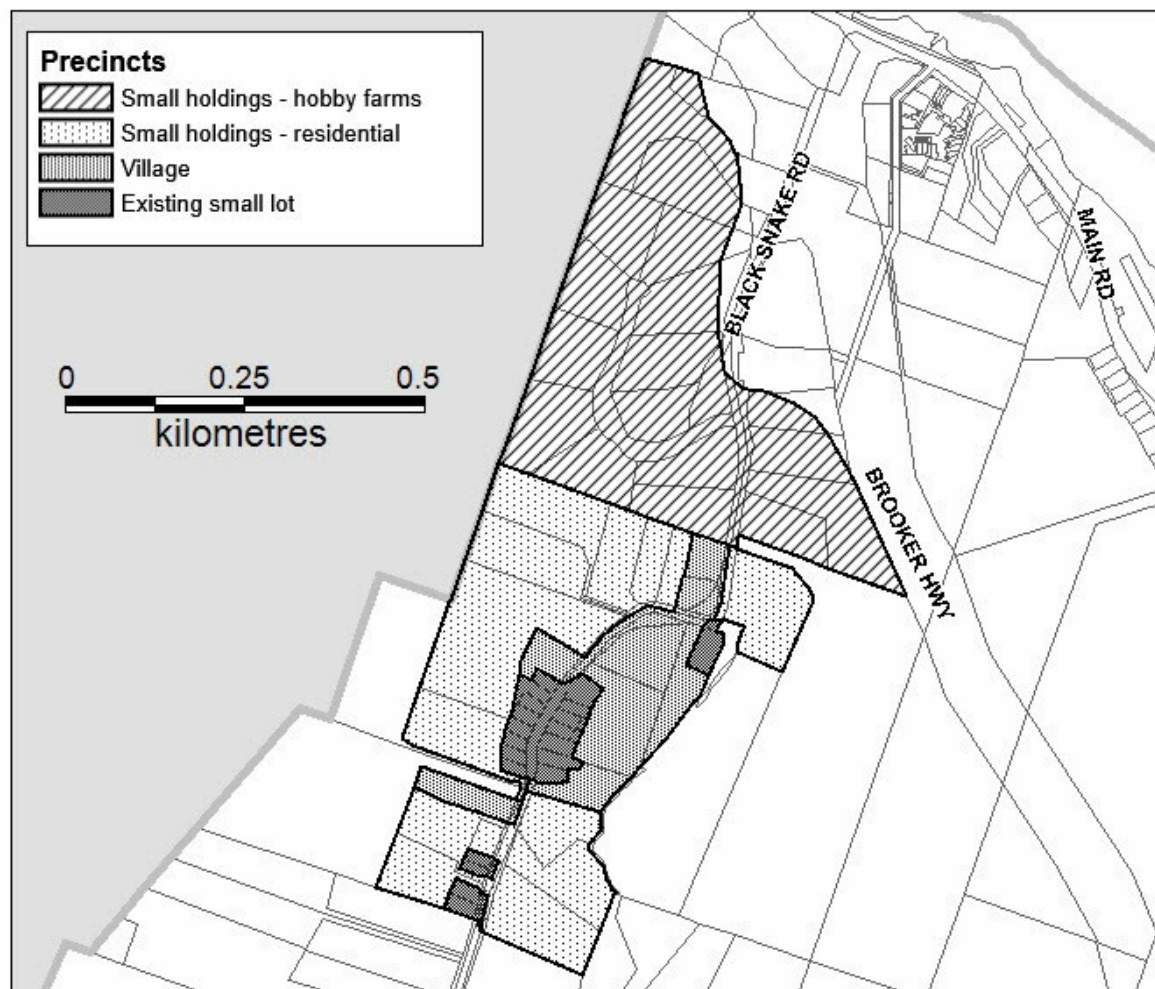

Figure GLE-S4.3 Black Snake Rural Village Precinct Map

GLE-S5.0 656 Main Road, Berriedale Specific Area Plan

GLE-S5.1 Plan Purpose:

The purpose of the 656 Main Road, Berriedale Specific Area Plan is:

GLE-S5.1.1 To limit impact from non-residential uses on the adjacent residential property.

GLE-S5.2 Application of this Plan

GLE-S5.2.1 The specific area plan applies to an area of land designated as the 656 Main Road Berriedale^{L1} Specific Area Plan on the overlay maps.

GLE-S5.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in addition to and in substitution for the provisions of the Local Business Zone, as specified in the relevant provision.

Footnotes:

L1: 656 Main Road, Berriedale is known as CT 24944/3

GLE-S5.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S5.4 Definition of Terms

This sub-clause is not used in this specific area plan.

GLE-S5.5 Use Table

This sub-clause is not used in this specific area plan

GLE-S5.6 Use Standards

This sub-clause is not used in this specific area plan.

GLE-S5.7 Development Standards for Buildings and Works

GLE-S5.7.1 Setbacks and building height

This sub-clause is a substitution for Local Business Zone Clause 14.4.1 A1 and P1, and Clause 14.4.2 Setbacks A1 and P1 and A2 and P2.

Objective:	To protect residential amenity on adjoining land.	
Acceptable Solutions	Performance Criteria	
A1	P1	
Buildings must have a setback from a frontage of not less than 13.5m.	No Performance Criterion.	

A2 Building must have a setback from the southern boundary of C.T. 24944/3 of not less than 3m.	P2 No Performance Criterion.
A3 Building height must be not more than: <ul style="list-style-type: none"> (a) 3m measured at 3m from the southern boundary of C.T. 24944/3; (b) 5.5m measured at 5m from the southern boundary of C.T. 24944/3; and (c) the height of a line drawn between the heights described in (a) and (b) above for a building located between 3m and 5m from the southern boundary of C.T. 24944/3. 	P3 No Performance Criterion.

GLE-S5.7.2 Fencing

This sub-clause is a substitution for Local Business Zone Clause 14.4.4 Fencing A2 and P2.

Objective:	To protect residential amenity on adjoining land.
Acceptable Solutions	Performance Criteria
A1 Any development must provide a 1.8m high timber paling fence along the southern side boundary of C.T. 24944/3.	P1 No Performance Criterion.

GLE-S5.7.3 Landscaping

This sub-clause is in addition to the provisions of the Local Business Zone Clause 14.4. Development Standards for Buildings and Works.

Objective:	To protect residential amenity on adjoining land.
Acceptable Solutions	Performance Criteria
A1 Landscaping must be provided along the southern boundary of C.T. 24944/3. The landscaping must: <ul style="list-style-type: none"> (a) reach a mature height of approximately 3.5; and (b) serve as a buffer to adjoining residential 	P1 No Performance Criterion.

development.	
--------------	--

GLE-S5.7.4 Signage

This sub-clause is in addition to the provisions of the Local Business Zone - Clause 14.4. Development Standards for Buildings and Works.

Objective:	To protect residential amenity on adjoining land.	
Acceptable Solutions		Performance Criteria
A1	Signage must not be located within 5m of the southern boundary of C.T. 24944/3.	P1 No Performance Criterion.

GLE-S5.7.5 Access

This sub-clause is in addition to the provisions of the Local Business Zone - Clause 14.4. Development Standards for Buildings and Works.

Objective:	To protect residential amenity on adjoining land.	
Acceptable Solutions		Performance Criteria
A1	Any access driveway must be sited a minimum of 10m from the southern boundary of C.T. 24944/3.	P1 No Performance Criterion.

GLE-S5.7.6 Car parking

This sub-clause is in addition to the provisions of the Local Business Zone Clause 14.4. Development Standards for Buildings and Works.

Objective:	To protect residential amenity on adjoining land.	
Acceptable Solutions		Performance Criteria
A1	Any car parking must be sited a minimum of 5m from the southern boundary of C.T. 24944/3.	P1 No Performance Criterion.

GLE-S5.8 Development Standards for Subdivision

This sub-clause is not used in this specific area plan.

GLE-S5.9 Tables

This sub-clause is not used in this specific area plan.

GLE-S6.0 Hobart Showground Specific Area Plan

GLE-S6.1 Plan Purpose

The purpose of the Hobart Showground Specific Area Plan is:

GLE-S6.1.1 To enhance the functionality and design of the Hobart Showground as a major event facility and give effect to the Hobart Showground Master Plan.

GLE-S6.2 Application of this Plan

GLE-S6.2.1 The specific area plan applies to an area of land designated as the Hobart Showground Specific Area Plan on the overlay maps.

GLE-S6.2.2 In addition to any other application requirements, the planning authority may require any of the following information:

- (a) A landscape plan which demonstrates a coordinated landscaping response across the site, and
- (b) A design response that accommodates the widening of Howard Road and the treatment of Howard Road accesses.

GLE-S6.2.3 In the area of land this plan applies to, the provisions of the specific area plan are in addition to and in substitution of the Community Purpose Zone, as specified in the relevant provision.

GLE-S6.3 Local Area Objectives

GLE-S6.3.1 Local Area Objectives

Sub-clause	Area Description	Local Area Objectives
GLE-S6.3.1.1	Hobart Show Ground shown in Figure GLE-S6.1	<p>The local area objectives for the Hobart Showground are to:</p> <ul style="list-style-type: none"> (a) recognise the site's current role as a major event facility for the Hobart Show and for other community events that serve the City of Glenorchy; (b) encourage the flexible use of the site by allowing additional use and development provided it does not compromise the operation of the Hobart Show or other community events, while protecting residential amenity in the local area; (c) create opportunity for additional development and site enhancement to support the Hobart Show event provided it does not compromise or distort the operation of Glenorchy's activity centres; and

		(d) encourage wider community use of the site through the provision of pedestrian and cycle links.
--	--	--

GLE-S6.4 Definition of Terms

GLE-S6.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
clearance sales outlet	means land for the use of selling goods at a discounted price, that is to remain open for business for only a short period of time during the year. Examples include carpet sales and wine sales.

GLE-S6.5 Use Table

This sub-clause is a substitution for Community Purpose Zone – Clause 27.2 Use Table.

Use Class	Qualification
No Permit Required	
Community Meeting and Entertainment	If for the purpose of the Hobart Show Event.
Passive Recreation	
Utilities	If for minor utilities.
Permitted	
Community Meeting and Entertainment	If: (a) for a place of worship, cinema; public hall, theatre, clubhouse or function centre; and (b) not listed as No Permit Required.
Domestic Animal Breeding, Boarding or Training	If for training domestic animals.
General Retail and Hire	If for: (a) a clearance sales outlet, which must not be in operation more than 60 days, whether consecutive or not consecutive, in any one year; or (b) a market.
Sports and Recreation	If for an outdoor recreation facility and not a firing range.

Storage	If for a warehouse.
Vehicle Parking	
Discretionary	
Bulky Goods Sales	If not for motor vehicle, boat or caravan sales, or a timber yard.
Business and Professional Services	If for veterinary centre.
Community Meeting and Entertainment	If: (a) not a library, museum, or public library; or (b) not listed as No Permit Required or Permitted.
Education and Occasional Care	If for an employment training centre.
Emergency Services	
Food Services	If not for a premises with a drive through facility.
General Retail and Hire	If: (a) located within the area nominated for Building 6 in Figure F6.2 Hobart Showground Master Plan; (b) each single tenancy is no less than 500m ² ; (c) not for a bottleshop; (d) not for a supermarket; and (e) not listed as Permitted.
Hotel Industry	
Manufacturing and Processing	
Motor Racing Facility	If for go-cart track.
Service Industry	If: (a) not for motor repairs, auto-electrical repairs, or panel beating; and (b) each single tenancy is no more than 200m ² in gross floor area.
Sports and Recreation	If not listed as Permitted.
Tourist Operation	
Utilities	

Visitor Accommodation	If for: (a) a camping and caravan park or overnight camping area; or (b) a backpacker hostel.
Prohibited	
All other uses	

GLE-S6.6 Use Standards

GLE-S6.6.1 Discretionary uses

This sub-clause is an addition to Community Purpose Zone – Clause 27.3 Use Standards.

Objective:	To ensure that discretionary uses: (a) provide for the intended mix of activities on the site; (b) do not compromise the operation of the Hobart Show or opportunities for other community events; (c) do not cause an unreasonable loss of residential amenity to residential zones; and (d) do not significantly impact on the existing retail hierarchy of Glenorchy.	
Acceptable Solutions		Performance Criteria
A1 The following uses must not, in aggregate, occupy a gross floor area greater than 30,000m ² : (a) Bulky Goods Sales; (b) Business and Professional Services (c) Food Services; (d) General Retail and Hire; (e) Hotel Industry; (f) Service Industry.		P1 No Performance Criterion.
A2 No Acceptable Solution.		P2 The use must not have an unreasonable impact on the amenity or operation of other uses on the site, or the amenity of adjacent residential zones, having regard to: (a) the appearance of the buildings and any outdoor areas;

	<ul style="list-style-type: none"> (b) the emissions of noise, smoke, odour, dust and illumination (c) traffic generation and parking location; and (d) the local area objectives at Clause GLE-S6.3.1.1.
<p>A3</p> <p>The following uses must not be located in Buildings 2, 3 or 4 or areas designated for these buildings, as shown on Figure GLE-6.2 Hobart Showground Master Plan:</p> <ul style="list-style-type: none"> (a) Bulky Goods Sales; (b) Business and Professional Services; (c) Education and Occasional Care; (d) Emergency Services; (e) General Retail and Hire; (f) Manufacturing and Processing; (g) Motor Racing Facility; (h) Service Industry; (i) Sports and Recreation; and (j) Visitor Accommodation. 	<p>P3</p> <p>Uses are located to ensure adequate area is available for the Show Event, having regard to:</p> <ul style="list-style-type: none"> (a) the areas designated for Open Space and Piazzas on Figure GLE-S6.3 Hobart Showground Urban Design Plan; (b) the area, including gross floor area and open areas, required for the operation of the Show Event as shown in Table GLE-S6.9.1 Area required for operation of the Hobart Show Event; (c) vehicular and pedestrian movement through the site; (d) parking and access requirements of the proposed use and existing uses on site; and (e) the local area objectives at Clause GLE-S6.3.1.1.
<p>A4</p> <p>No Acceptable Solution.</p>	<p>P4</p> <p>Manufacturing and Processing activities must minimise negative impacts on the amenity and operation of other uses on the site, and the amenity of adjacent residential zones, having regard to:</p> <ul style="list-style-type: none"> (a) the appearance of the buildings and unscreened storage areas; (b) the emission of noise, odours, steam, smoke, vapour, or any other form of pollution; (c) the escape of any liquid or solid

	<p>wastes from the land;</p> <p>(d) the emission of electro-magnetic radiation or potentially damaging vibrations, whether audible or inaudible;</p> <p>(e) the generation of vehicular traffic;</p> <p>(f) the hours of operation</p> <p>(g) the potential for an industrial accident; and</p> <p>(h) the local area objectives at Clause GLE-S6.3.1.1.</p>
--	--

GLE-S6.7 Development Standards for Buildings and Works

GLE-S6.7.1 Building height and siting

This sub-clause is a substitution for Community Purpose Zone – Clause 27.4.1

Building height and Clause 27.4.2 Setback A1 and P1 and A2 and P2.

Objective:	<p>That development is:</p> <p>(a) consistent with the layouts and building heights of the Hobart Showground Master Plan; and</p> <p>(b) sympathetic to the amenity of adjacent residential zones.</p>
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Buildings must be consistent with the envelopes defined in Figure GLE-S6.2 Hobart Showground Master Plan.</p>	<p>P1</p> <p>Buildings must be consistent with the following:</p> <p>(a) building height and siting must protect the operation of the Hobart Show Event and must have regard to:</p> <p>(i) the spatial needs of the Hobart Show event as indicated in Table GLE-S6.9.1 Area required for operation of the Hobart Show Event, Figure GLE-S6.2 Hobart Showground Master Plan and Figure GLE-S6.3 Hobart Showground Urban Design Plan;</p> <p>(ii) vehicular and pedestrian movement across the site;</p> <p>(iii) parking needs;</p> <p>(iv) site access; and</p>

	<ul style="list-style-type: none"> (v) emergency public safety requirements; (b) the building's siting must protect the amenity of adjacent residential zones and must have regard to: <ul style="list-style-type: none"> (i) the height and setback of the building to the boundaries to prevent unreasonable impacts on the amenity, solar access and privacy of habitable room windows and the private open space of adjoining dwellings; (ii) the level and effectiveness of physical screening by fences and/or vegetation; (iii) the location and impacts of traffic circulation and parking and the need to locate parking away from residential boundaries; and (iv) landscaping to integrate development with the local area; and (c) building siting must not prevent pedestrian and cycle access across the site.
--	--

GLE-S6.7.2 Building facade design

This sub-clause is in addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works.

Objective:	<p>That buildings are:</p> <ul style="list-style-type: none"> (a) designed to signify the use of the showgrounds to the Brooker Highway and the intercity cycleway or to provide a level of articulation to enhance the amenity of adjacent residential areas; (b) designed to contribute positively to the streetscape, particularly the Brooker Highway; and (c) designed and sited to minimise opportunities for crime and anti-social behaviour.
Acceptable Solutions	Performance Criteria
A1 Facades identified as Significant Facades, Highway Facades and Entry Facades in Figure GLE-S6.3 Hobart	P1.1 Buildings that meet the envelopes defined in Figure GLE-S6.2 Hobart Showground Master Plan, must achieve a façade design

<p>Showground Urban Design Plan must not contain blank walls that are wider than 5.0m.</p>	<p>that complies with the following:</p> <ul style="list-style-type: none"> (a) facades identified as Entry Facades in Figure GLE-S6.3 Hobart Showground Urban Design Plan must satisfy all of the following: <ul style="list-style-type: none"> (i) have a legible connection with the use of the site as an agricultural show; and (ii) be highly articulated and coloured to attract attention. (b) facades identified as Significant Facades in Figure GLE-S6.3 Hobart Showground Urban Design Plan must be articulated to reduce the perceived height and bulk of the buildings. Design features used to achieve this may include articulation, fenestration, use of colours and materials and other devices; and (c) facades identified as Highway Facades in Figure GLE-S6.3 Hobart Showground Urban Design Plan must be articulated and landscaped to avoid large expanses of blank wall. Design features used to achieve this may include articulation, fenestration, use of colours and materials and other devices. <p>P1.2</p> <p>Buildings that do not meet the envelopes defined in GLE-S6.2 Hobart Showground Master Plan, must have facades designed with regard to the following:</p> <ul style="list-style-type: none"> (a) have a legible connection with the use of the site as an agricultural show; (b) are articulated to avoid large expanses of blank walls and reduce the perceived height and bulk of the buildings; and (c) use colours and materials to present a positive design outcome to the streetscape.
<p>A2</p> <p>Buildings that have Passive Surveillance</p>	<p>P2</p> <p>Buildings must be designed to minimise</p>

<p>Facades in Figure GLE-S6.3 Hobart Showground Urban Design Plan must be designed and sited in accordance with the following:</p> <p>(a) the building envelopes defined in Figure GLE-S6.2 Hobart Showground Master Plan; and</p> <p>(b) Passive Surveillance Facades identified in Figure GLE-S6.2 Hobart Showground Urban Design Plan must include ground floor windows capable of viewing either pedestrian/cycle routes or roads within or adjacent to the site boundary.</p>	<p>opportunities for crime and anti-social behaviour and must satisfy the following:</p> <p>(a) be designed and sited to provide natural surveillance of pedestrian routes and car parks;</p> <p>(b) avoid concealment and entrapment spots; and</p> <p>(c) building access and egress points must be visible from the public domain.</p>
--	---

GLE-S6.7.3 Internal access

This sub-clause is an addition to Community Purpose Zone – Clause 27.4 Development Standards for Buildings and Works and Parking and Sustainable Transport Code – Clause C2.6.

Objective:	To provide safe and efficient internal access roads and pedestrian links within the site.	
Acceptable Solutions	Performance Criteria	
<p>A1</p> <p>Internal road layout is in accordance with Figure GLE-S6.3 Hobart Showground Urban Design Plan.</p> <p>(a)</p>	<p>P1</p> <p>The layout of accesses must have regard to:</p> <p>(a) pedestrian safety and amenity;</p> <p>(b) traffic safety;</p> <p>(c) residential amenity on adjacent land</p> <p>(d) the impact on the streetscape; and</p> <p>(e) compatibility with Figure GLE-S6.3 Hobart Showground Urban Design Plan.</p>	

GLE-S6.8 Development Standards for Subdivision

GLE-S6.8.1 Subdivision

This sub-clause is a substitution of Community Purpose Zone – Clause 27.5.1 Lot

Design A1 and P1.

Objective:	That subdivision is suitable for the intended use and development.	
Acceptable Solutions		Performance Criteria
A1		P1
Each lot, or a lot proposed in a plan of subdivision, must be only by a lease of land containing an approved separate development and/or use for a term not exceeding 30 years.		<p>Each lot, or a lot proposed in a plan of subdivision is limited to:</p> <ul style="list-style-type: none"> (a) the purpose of a public utility, which must have sufficient area, suitable proportions, adequate services and reasonable vehicular access to satisfy its intended use and development; and (b) a lease of land containing an approved separate development and/or use for a term in excess of 30 years.

GLE-S6.9 Tables

Table GLE-S6.9.1 Area required for operation of the Hobart Show Event

Element	Area (m²)
Total building area required for the Show	20,529
Total open area required for the Show	15,700
Total area within Buildings 1-4 shown in Figure GLE-S6.2 Hobart Showground Master Plan	26,900
Total open area (open space and piazzas) allocated for the Show use shown in Figure GLE-S6.2 Hobart Showground Master Plan and Figure GLE-S6.3 Hobart Showground Urban Design Plan	16,980

Figure GLE-S6.1 Hobart Show Ground Map

Figure GLE-S6.2 Hobart Showground Master Plan

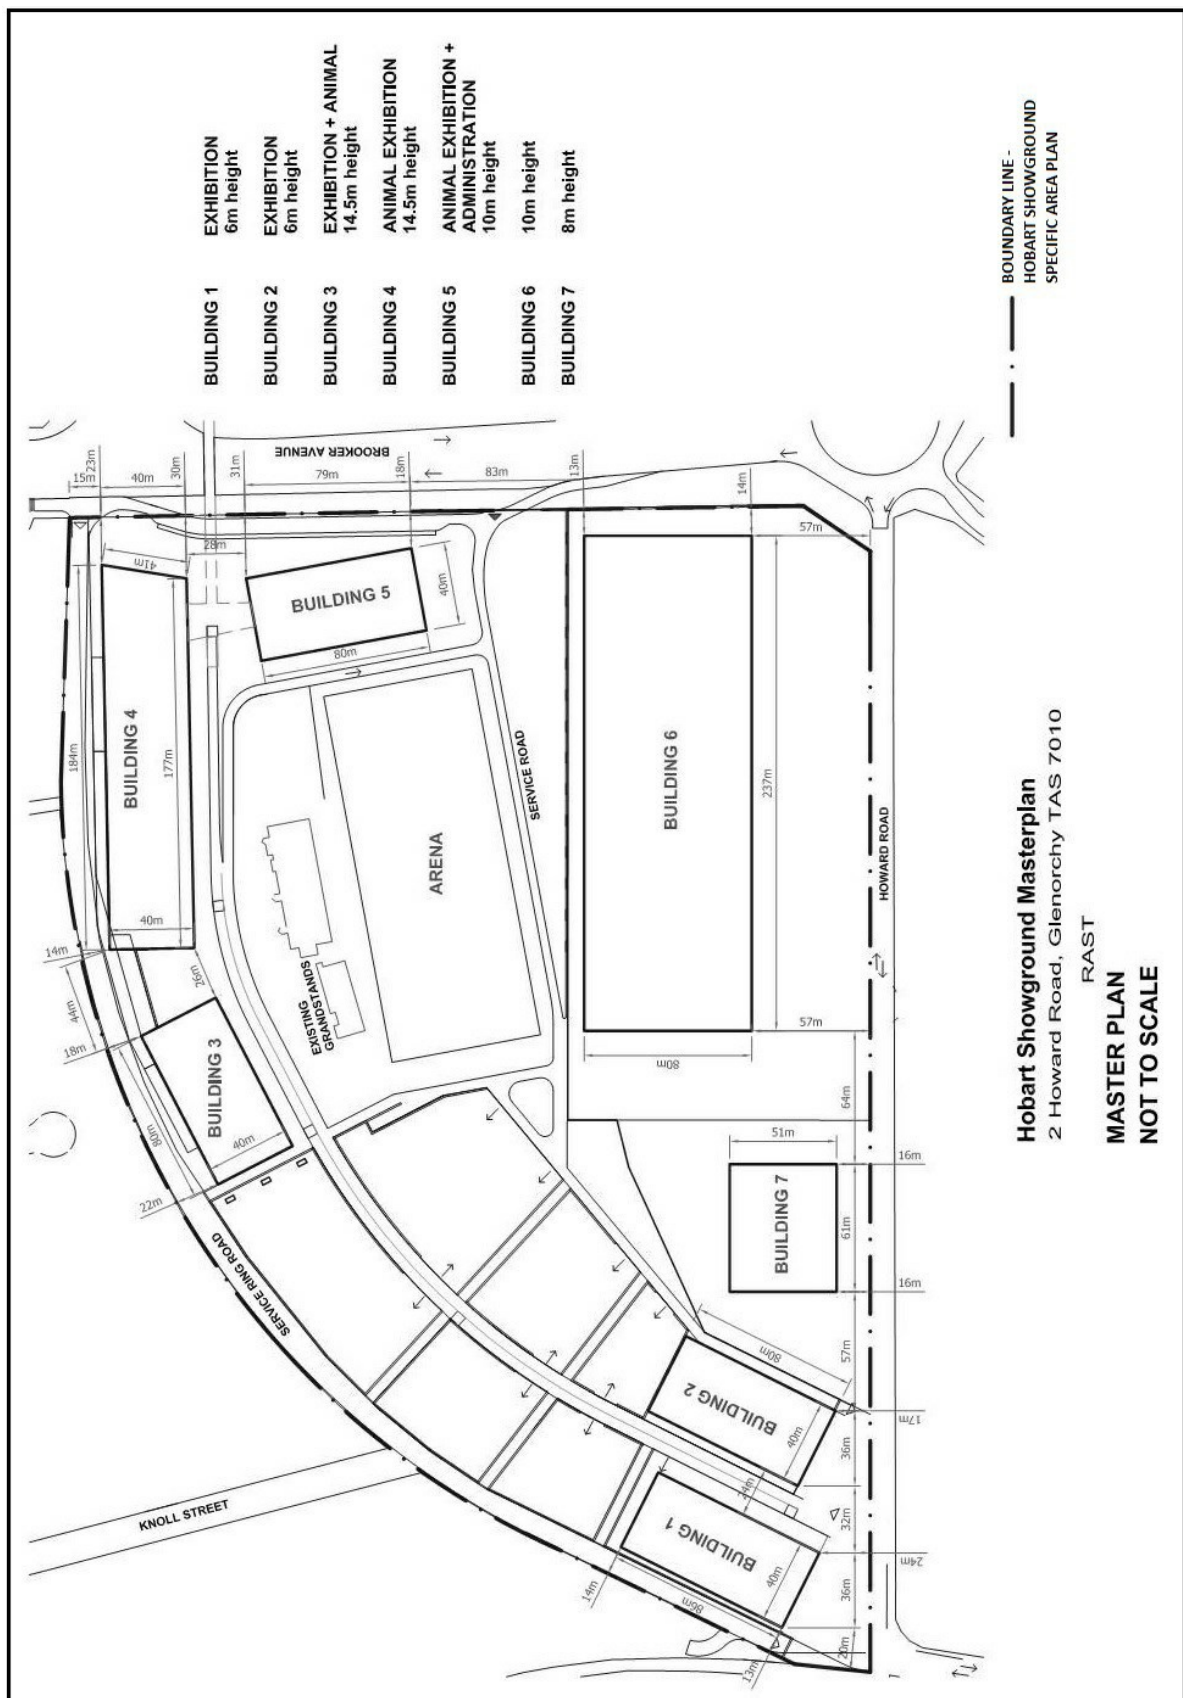

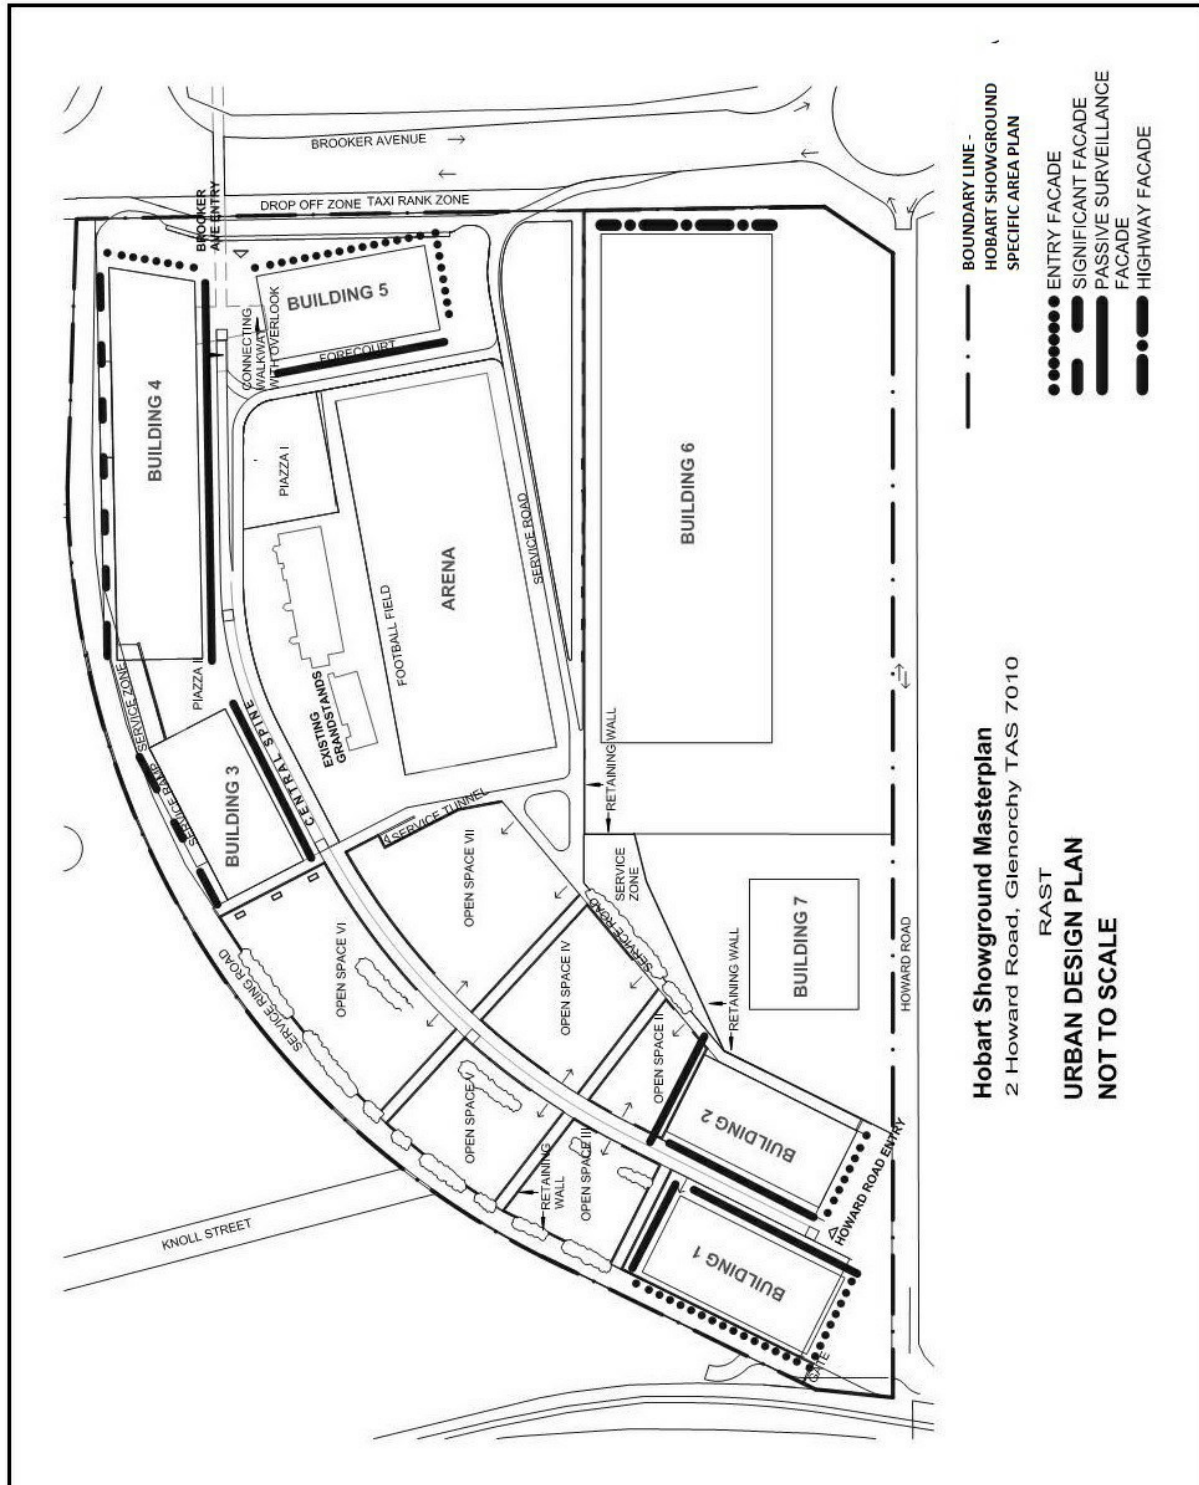

Figure GLE-S6.3 Hobart Showground Urban Design Plan

GLE-S7.0 Whitestone Point Specific Area Plan

GLE-S7.1 Plan Purpose

The purpose of the Whitestone Point Specific Area Plan is to:

- GLE-S7.1.1 Facilitate a range of residential development supported by recreational and local business services.
- GLE-S7.1.2 Facilitate transport and recreational connections to the north and the south including public access along the river foreshore.
- GLE-S7.1.3 Provide a street network that facilitates future expansion on to adjoining land parcels.
- GLE-S7.1.4 Manage stormwater through water sensitive urban design measures.
- GLE-S7.1.5 Provide appropriate protection of the natural and visual assets of the site including weed management.
- GLE-S7.1.6 Provide buffers which prevent conflict with nearby uses and infrastructure.
- GLE-S7.1.7 Ensure potentially contaminated land is appropriately investigated, remediated or managed prior to new use or development.

GLE-S7.2 Application of this Plan

- GLE-S7.2.1 The specific area plan applies to an area of land designated as the Whitestone Point Specific Area Plan on the overlay maps.
- GLE-S7.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in substitution for or in addition to the provisions of the:
 - (a) General Residential Zone;
 - (b) Local Business Zone;
 - (c) Environmental Management Zone; and
 - (d) C3.0 Road and Railway Code,as specified in the relevant provision.
- GLE-S7.2.3 The specific area plan is divided into the following precincts:
 - (a) Living Precinct;
 - (b) Neighbourhood Business Precinct; and
 - (c) Recreation and Conservation Precinct.
- GLE-S7.2.4 The extent of each precinct is shown in Figure GLE-S7.1 Whitestone Point Precinct Map.

GLE-S7.3 Local Area Objectives

- GLE-S7.3.1 Local Area Objectives – Living Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S7.3.1	Living Precinct, shown in Figure GLE-S7.1	<p>The local area objectives for the Living Precinct are to:</p> <ul style="list-style-type: none"> (a) provide for residential development with a high degree of pedestrian amenity and connectivity; (b) encourage diversity in neighbourhoods by housing people of ranging demographics; (c) ensure that the design of neighbourhoods is conscious of existing natural values on the site; (d) protect sensitive uses from any potential land use conflicts; (e) ensure that development does not result in potential conflict with adjoining land uses; (f) use native vegetation to enhance the visual amenity of the area; (g) ensure the protection of water quality; and (h) provide for sustainable transport opportunities.

GLE-S7.3.2 Local Area Objectives – Neighbourhood Business Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S7.3.2	Neighbourhood Business Precinct, shown on an overlay map as GLE-S7.3.2	<p>The local area objectives for the Neighborhood Business Precinct are to:</p> <ul style="list-style-type: none"> (a) encourage a lively and vital precinct that supports a diversity of uses to serve the local community; (b) protect the commercial hierarchy within Glenorchy; (c) provide for sustainable transport opportunities; (d) provide for future links with the rail network; (e) provide for development with a high degree of pedestrian amenity and

		<p>connectivity with adjoining residential and open space areas;</p> <p>(f) ensure the protection of water quality; and</p> <p>(g) provide for building form and landscaping that contributes positively to the visual amenity and interest in streetscapes.</p>
--	--	--

GLE-S7.3.3 Local Area Objectives – Recreation and Conservation Precinct

Sub-clause	Area Description	Local Area Objectives
GLE-S7.3.3	Recreation and Conservation Precinct, shown on an overlay map as GLE-S7.3.3	<p>The local area objectives for the Recreation and Conservation Precinct are to:</p> <p>(a) facilitate passive recreation opportunities, which are consistent with the protection of natural values in bushland and on the foreshore;</p> <p>(b) integrate and encourage the use of open spaces with adjoining development areas;</p> <p>(c) provide for the protection conservation and management of areas with significant ecological, cultural or aesthetic value;</p> <p>(d) ensure the protection of water quality; and</p> <p>(e) provide for sustainable transport opportunities.</p>

GLE-S7.4 Definition of Terms

GLE-S7.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
net density	means the density of development, excluding areas set aside for roads and public open space.

GLE-S7.5 Use Table

GLE-S7.5.1 For areas within the Living Precinct and Recreation and Conservation

Precinct shown in Figure GLE-S7.1 Whitestone Point Precinct Map, uses must be in accordance with the requirements of the underlying zone.

GLE-S7.5.2 Use Table - Neighbourhood Business Precinct

This sub-clause is in substitution for Local Business Zone – Clause 14.2 Use Table.

Use Class	Qualification
No Permit Required	
Educational and Occasional Care	If for home-based child care in accordance with the Child Care Act 2001.
Natural and Cultural Values Management	
Passive Recreation	
Residential	If for home-based business.
Utilities	If for minor utilities.
Permitted	
Business and Professional Services	If for consulting room, medical centre or post office.
Community Meeting and Entertainment	If for art and craft centre, civic centre, community hall, museum, public art gallery or public hall.
Educational and Occasional Care	If : (a) an employment training facility; and (b) not listed as No Permit Required..
Food Services	If not a take away food premises with a drive through facility.
General Retail and Hire	If not an adult sex product shop or supermarket.
Residential	If: (a) located above ground floor level (excluding pedestrian or vehicular access) or if more than 25m from frontage; and (b) not listed as No Permit Required.
Discretionary	
Business and Professional Services	If not listed as Permitted.
Community Meeting and Entertainment	If not listed as Permitted.

Educational and Occasional Care	If: (a) not a primary school, secondary school or a tertiary institution; and (b) not listed as No Permit Required or Permitted.
Emergency Services	
Equipment and Machinery Sales and Hire	
Food Services	If not listed as Permitted.
General Retail and Hire	If: (a) for a single tenancy with a floor area of less than 400m ² ; and (b) not listed as Permitted.
Hotel Industry	If not adult entertainment venue.
Research and Development	
Residential	If not listed as Permitted.
Sports and Recreation	
Tourist Operation	
Transport Depot and Distribution	
Utilities	If not listed as No Permit Required.
Vehicle fuel sales and service	If having frontage and access to Main Road.
Vehicle Parking	
Visitor Accommodation	If accommodation is primarily located on floors above the ground floor level.
Prohibited	
All other uses	

GLE-S7.6 Use Standards

GLE-S7.6.1 Use Standards – Living Precinct

GLE-S7.6.1.1 Noise attenuation

This sub-clause is in addition to General Residential Zone – Clause 8.3 Use Standards.

Objective:	To prevent land use conflict between uses.	
Acceptable Solutions		Performance Criteria
A1		P1
Sensitive uses must be located more than 25m from land within a Light Industrial Zone.		A sensitive use located within 25m of land within a Light Industrial Zone must achieve an appropriate level of amenity through setbacks, design and construction techniques.

GLE-S7.6.1.2 Non-residential use

This sub-clause is in addition to General Residential Zone – Clause 8.3 Use Standards.

Objective:	To prevent non-residential uses which may impact on local residential amenity.	
Acceptable Solutions		Performance Criteria
A1		P1
No Acceptable Solution.		All non-residential uses must be for the provision of services to the local area.

GLE-S7.6.2 Use Standards – Neighbourhood Business Precinct

GLE-S7.6.2.1 Noise attenuation

This sub-clause is in addition to Local Business Zone – Clause 14.3 Use Standards.

Objective:	To prevent land use conflict between uses.	
Acceptable Solutions		Performance Criteria
A1		P1
Sensitive uses must be located more than 25m from land within a Light Industrial Zone.		A sensitive use located within 25m of a Light Industrial Zone must achieve an appropriate level of amenity through setbacks, design and construction techniques.

GLE-S7.7 Development Standards for Buildings and Works

GLE-S7.7.1 Development Standards for Buildings and Works – Living Precinct

GLE-S7.7.1.1 Density

This sub-clause is in substitution for General Residential Zone – Clause 8.4.1 Residential density for multiple dwellings.

Objective:	To provide for sustainable residential density.
Acceptable Solutions	Performance Criteria
A1 Development must provide for a minimum net density of 25 dwellings per hectare.	P1 Development may provide for a minimum net density less than 25 dwellings per hectare provided it is otherwise suitable to meet any site constraints.

GLE-S7.7.1.2 Protection of natural values

This sub-clause is in addition to General Residential Zone – Clause 8.4 Development Standards for Dwellings or Clause 8.5 Development Standards for Non-dwellings as appropriate.

Objective:	To protect native flora and fauna species.
Acceptable Solutions	Performance Criteria
A1 Buildings must be designed to : <ul style="list-style-type: none"> (a) eliminate corner windows or opposing windows that allow sight lines through buildings; (b) have external glazing with: <ul style="list-style-type: none"> (i) low reflectance glass surfaces; or (ii) angled glass surfaces to reflect the ground or built fabric, rather than the sky or habitat; and (c) where fences are higher than 1.2m, be: <ul style="list-style-type: none"> (i) constructed from solid materials; or (ii) constructed from materials easily perceptible to birds in flight, such as chain mesh, covered with an obscure material, such as hessian or sunshade. 	P1 Buildings must be designed to minimise the risk of bird strike, having regard to : <ul style="list-style-type: none"> (a) the location of any nesting habitat or foraging vegetation in the surrounding area; (b) the topography of the site and surrounding area; (c) the type of construction; (d) any mitigation measures to reduce the impact of glazing or sight lines through buildings or structures; and (e) any advice from a relevant State or Commonwealth department or agency.
A2 Buildings and works on or within 10m of the boundaries of the pond must be in accordance with a catchment management plan approved by the planning authority.	P2 Buildings and works on or within 10m of the boundaries of the pond must demonstrate to the satisfaction of the planning authority that it will not impact on the aquatic environment of the pond.

A3 Remnant native trees greater than 10m in height must be retained on the western side of Ten Mile Hill.	P3 Removal of remnant native trees must only result in minor changes to the visual amenity of Ten Mile Hill.
A4 Buildings and works must be in accordance with a weed management plan approved by the planning authority.	P4 No Performance Criterion.
A5 Buildings and works do not result in soil disturbance or the removal of native vegetation.	P5 Removal of vegetation or soil disturbance must: <ul style="list-style-type: none"> (a) protect natural values; (b) maintain natural streambank and streambed condition; where it exists; (c) provide for mitigation of any adverse erosion, sedimentation and runoff impacts on natural values; and (d) avoid or mitigate any adverse impacts on riparian vegetation.

GLE-S7.7.1.3 Railway buffer

This sub-clause is in addition to General Residential Zone – Clause 8.4 Development Standards for Dwellings and in substitution for Road and Rail Assets Code - clause C3.6.1 Habitable buildings for sensitive uses within a road or railway attenuation area.

Objective:	To provide protection from noise related to the railway operation.
Acceptable Solutions	Performance Criteria
A1 Habitable rooms of dwellings must be set back 30m from the railway line.	P1 Habitable rooms of dwellings must be designed with suitable attenuation measures consistent with the recommendations of an acoustic report prepared by a suitably qualified person.

GLE-S7.7.2 Development Standards for Buildings and Works – Neighbourhood Business Precinct

GLE-S7.7.2.1 Railway buffer

This sub-clause is in addition to Local Business Zone – Clause 8.4 Development Standards for Buildings and Works and in substitution for the Road and Rail Assets Code - clause C3.6.1 Habitable buildings for sensitive uses within a road or railway attenuation area.

Objective:	To provide protection from noise related to the railway operation.
Acceptable Solutions	Performance Criteria
A1 Habitable rooms must be set back 30m from the railway line.	P1 Habitable rooms must be designed with suitable attenuation measures consistent with the recommendations of an acoustic report prepared by a suitably qualified person.

GLE-S7.7.2.2 Protection of natural values

This sub-clause is in addition to Local Business Zone – Clause 8.4 Development Standards for Buildings and Works

Objective:	To protect native flora and fauna species.
Acceptable Solutions	Performance Criteria
A1 Buildings must be designed to: (a) eliminate corner windows or opposing windows that allow sight lines through buildings; (b) have external glazing with: (i) low reflectance glass surfaces; or (ii) angled glass surfaces to reflect the ground or built fabric, rather than the sky or habitat; and (c) where fences are higher than 1.2m, be: (i) constructed from solid materials; or (ii) constructed from materials easily perceptible to birds in flight, such as chain mesh, covered with an obscure material, such as hessian or sunshade.	P1 Buildings must be designed to minimise the risk of bird strike, having regard to: (a) the location of any nesting habitat or foraging vegetation in the surrounding area; (b) the topography of the site and surrounding area; (c) the type of construction; (d) any mitigation measures to reduce the impact of glazing or sight lines through buildings or structures; and (e) any advice from a relevant State or Commonwealth department or agency.
A2 Buildings and works must be in accordance with a weed management plan approved by the planning authority.	P2 No Performance Criterion.
A3 Buildings and works do not result in soil disturbance or the removal of native vegetation.	P3 Buildings and works that involve the clearing of vegetation or soil disturbance must: (a) protect natural values; (b) maintain natural streambank and streambed condition; where it exists;

	<p>(c) provide for mitigation of any adverse erosion, sedimentation and runoff impacts on natural values; and</p> <p>(d) avoid or mitigate any adverse impacts on riparian vegetation.</p>
--	--

GLE-S7.7.3 Development Standards for Buildings and Works – Recreation and Conservation Precinct

GLE-S7.7.3.1 Protection of environmental values

This clause is in substitution for Environmental Management Zone – Clause 23.4.3 Exterior finish and Clause 23.4.4 Vegetation management.

Objective:	To protect native flora and fauna species.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Buildings must be designed and managed to minimise risk of bird strike by:</p> <ul style="list-style-type: none"> (a) eliminating or obscuring transparent or highly reflective obstacles that are not readily perceptible to birds in flight, such as mesh fences higher than 1.20m and uncovered corner windows or opposing windows that allow sight lines through buildings; and (b) using low reflectance glass on external surfaces; or (c) angling glass surfaces to reflect the ground or built fabric rather than the sky or habitat. 	<p>P1</p> <p>Confirmation is provided by the relevant State or Commonwealth environmental department that the building or structure is of an acceptable design in terms of its impact on the local Swift Parrot (<i>Lathamus discolour</i>) community.</p>
<p>A2</p> <p>Buildings and works are in accordance with a weed management plan approved by the planning authority.</p>	<p>P2</p> <p>No Performance Criterion.</p>
<p>A3</p> <p>Buildings and works do not result in soil disturbance or removal of native vegetation.</p>	<p>P3</p> <p>Development involving the clearing of vegetation or soil disturbance must:</p> <ul style="list-style-type: none"> (a) ensure natural values are protected; (b) maintain natural streambank and streambed condition, where it exists; (c) mitigate any adverse erosion, sedimentation and runoff impacts on

	<p>natural values; and</p> <p>(d) avoid or mitigate any adverse impacts on riparian vegetation.</p>
--	---

GLE-S7.8 Development Standards for Subdivision

GLE-S7.8.1 Development Standards for Subdivision – Living Precinct

GLE-S7.8.1.1 Connectivity

This clause is in addition to General Residential Zone – Clause 8.6 Development Standards for Subdivision.

Objective:	That subdivision design: <ul style="list-style-type: none"> (a) achieves connectivity with adjoining land uses; (b) does not reduce the efficiency of the junction of Main Road and Arncliffe; and (c) provides uses with appropriate connection to the road network.
Acceptable Solutions	Performance Criteria
A1 Links to adjoining land must be provided consistent with Figure GLE-S7.1 Whitestone Point Precinct Map.	P1 Links to adjoining land must be provided.
A2 Pedestrian/cycle networks must be provided as shown in Figure GLE-S7.1 Whitestone Point Precinct Map.	P2 A plan of subdivision must provide appropriate pedestrian and cycle connections.
A3 Access must be from the current entry point on Main Road and must not generate demand greater than 95 vehicle movements per hour during the evening peak period at that entry point.	P3 Where access is not obtained from the current entry point on Main Road or demand greater than 95 vehicle movements per hour during the evening peak period at the existing entry point is generated, a Traffic Impact Assessment (TIA) from a suitably qualified person must be provided which addresses the following: <ul style="list-style-type: none"> (a) the existing and additional traffic generated by the use; (b) the impact of additional traffic on the local road traffic network or the service capacity of the junction of Main Road and Arncliffe Road;

	<p>(c) details of any road upgrading or other works within the site or the surrounding road network including Main Road; and</p> <p>(d) achieving access to Main Road via a single-entry point.</p>
--	---

GLE-S7.8.1.2 Lot size and dimensions

This clause is in substitution for General Residential Zone – Clause 8.6.1 Lot design A1 and P1.

Objective:	To provide for sustainable residential density.	
Acceptable Solutions	Performance Criteria	
A1	P1	
Each lot, or a lot proposed on a plan of subdivision, must be no less than 325m ² ; (a) .	Each lot, or a lot proposed on a plan of subdivision, may be less than 325m ² where an application for the development of a dwelling on the lot forms part of the application.	

GLE-S7.8.1.3 Landscaping

This clause is in addition to General Residential Zone – Clause 8.6 Development Standards for Subdivision.

Objective:	To encourage safe and attractive landscaped streets.	
Acceptable Solutions	Performance Criteria	
A1	P1	
Subdivision must include the creation of new landscaped road reserves and open space that satisfy all of the following: <p>(a) enhances the appearance of the streetscape development;</p> <p>(b) provides a range of plant heights and forms to create diversity, interest and amenity;</p> <p>(c) prevents the creation of concealed entrapment spaces; and</p> <p>(d) excludes invasive weed species.</p>	No Performance Criterion.	

GLE-S7.8.1.4 Water sensitive urban design

This clause is in addition to General Residential Zone – Clause 8.6 Development Standards for Subdivision.

Objective:	To manage stormwater to improve the quality of water systems.	
Acceptable Solutions	Performance Criteria	

A1 Subdivision for new roads is to implement principles of water sensitive urban design where practicable and must be in accordance with a stormwater management plan approved by the planning authority.	P1 No Performance Criteria.
---	---

GLE-S7.8.2 Development Standards for Subdivision – Neighbourhood Business Precinct

GLE-S7.8.2.1 Connectivity

This clause is in addition to Local Business Zone – Clause 14.5 Development Standards for Subdivision.

Objective:	That subdivision design: <ul style="list-style-type: none"> (a) achieves connectivity with adjoining land uses; (b) does not reduce the efficiency of the junction of Main Road and Arncliffe; and (c) provides uses with appropriate connection to the road network.
Acceptable Solutions	Performance Criteria
A1 Links to adjoining land must be provided consistent with Figure GLE-S7.1 Whitestone Point Precinct Map.	P1 Links to adjoining land must be provided.
A2 Pedestrian/cycle networks must be provided as shown in Figure GLE-S7.1 Whitestone Point Precinct Map.	P2 Appropriate pedestrian and cycle connections must be provided.
A3 Access must be obtained from the current entry point on Main Road and must not generate demand greater than 95 vehicle movements per hour during the evening peak period at that entry point.	P3 Where access is not obtained from the current entry point on Main Road or demand greater than 95 vehicle movements per hour during the evening peak period at the existing entry point is generated, a Traffic Impact Assessment (TIA) from a suitably qualified person must be provided that demonstrates that the efficiency of the road network is not significantly reduced, by addressing all of the following: <ul style="list-style-type: none"> (a) the existing and additional traffic generated by the use; (b) the impact of additional traffic on the local road traffic network or the service capacity of the junction of Main Road and Arncliffe

	<p>Road;</p> <p>(c) details of any road upgrading or other works within the site or the surrounding road network including Main Road; and</p> <p>(d) achieves access to Main Road via a single entry point.</p>
--	---

GLE-S7.8.2.2 Landscaping

This clause is in addition to Local Business Zone – Clause 14.5 Development Standards for Subdivision.

Objective:	To encourage safe and attractive landscaped streets.	
Acceptable Solutions		Performance Criteria
A1		P1
<p>Subdivision must include the creation of new landscaped road reserves and open space that satisfy all of the following:</p> <p>(a) enhances the appearance of the streetscape development;</p> <p>(b) provides a range of plant heights and forms to create diversity, interest and amenity;</p> <p>(c) prevents the creation of concealed entrapment spaces; and</p> <p>(d) excludes invasive weed species.</p>		No Performance Criterion.

GLE-S7.8.2.3 Water sensitive urban design

This clause is in addition to Local Business Zone – Clause 14.5 Development Standards for Subdivision.

Objective:	To manage stormwater to improve the quality of water systems.	
Acceptable Solutions		Performance Criteria
A1		P1
<p>Subdivision for new roads is to implement principles of water sensitive urban design where practicable and must be in accordance with a stormwater management plan approved by the planning authority.</p>		No Performance Criteria.

GLE-S7.8.3 Development Standards for Subdivision – Recreation and Conservation Precinct

GLE-S7.8.3.1 Connectivity

This clause is in addition to Environmental Management Zone – Clause 23.5 Development Standards for Subdivision.

Objective:	To promote connectivity with adjoining land uses.	
Acceptable Solutions		Performance Criteria
A1	P1	
A plan of subdivision must include links to adjoining land consistent with Figure GLE-S7.1 Whitestone Point Precinct Map.	The plan of subdivision must facilitate appropriate integration with adjoining land.	
A2	P2	
A plan of subdivision must provide for pedestrian/cycle networks as shown in Figure GLE-S7.1 Whitestone Point Precinct Map.	The plan of subdivision must provide appropriate pedestrian and cycle connections	

GLE-S7.9 Tables

This sub-clause is not used in this specific area plan.

Figure GLE-S7.1 Whitestone Point Precinct Map

GLE-S8.0 Glenorchy Activity Centre Urban Design Specific Area Plan

GLE-S8.1 Plan Purpose

The purpose of the Glenorchy Activity Centre Urban Design Specific Area Plan is:

- GLE-S8.1.1 To set principles and standards to support an improved standard of urban design on the land subject to the Specific Area Plan.

GLE-S8.2 Application of this Plan

- GLE-S8.2.1 The specific area plan applies to the area of land designated as the Glenorchy Activity Centre Urban Design Specific Area Plan on the overlay maps.

- GLE-S8.2.2 Application requirements:

In addition to any other application requirements, the planning authority may require any of the following information in order to determine compliance with performance criteria unless the planning authority is satisfied that the information is not relevant to the assessment of the application:

- (a) a design response that must explain how the proposed design:
 - (i) derives from and responds positively to the streetscape character of the area; and
 - (ii) meets the purpose of this specific area plan;
- (b) correctly proportioned street elevations or photographs showing the development in the context of adjacent buildings; and
- (c) details of materials and finishes proposed to be used.

- GLE-S8.2.3 In the area of land this plan applies to, the provisions of the specific area plan are in addition to and in substitution for the provisions of the Central Business Zone, as specified in the relevant provision.

GLE-S8.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S8.4 Definition of Terms

GLE-S8.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
articulation	means the arrangement of building elements such as windows and door openings, variations in wall plane, roof form, horizontal or vertical wall features and materials that make up a building and affect its relationship to the streets, spaces and other buildings.
human scale	means the proportional relationship of the physical environment (buildings, trees, parking lots, streets, etc.) to human dimensions that creates a feeling of comfort.

passive surveillance	means the location and design of use or development to maximize visibility by passers by, or casual onlookers from adjoining sites in order to reduce opportunities for crime by making potential offenders feel exposed and making legitimate users feel safer.
public domain	means the publicly used space and includes streets, plazas, parks and public infrastructure.

GLE-S8.5 Use Table

This sub-clause is not used in this specific area plan.

GLE-S8.6 Use Standards

GLE-S8.6.1 Ground floor use

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.3 Use Standards.

Objective:	That uses at ground floor level create active frontages that attract pedestrian activity and contribute to the liveliness, vitality and security of adjoining streets and other public spaces.	
Acceptable Solutions		Performance Criteria
A1 Except for minimal interruptions necessary to provide access to foyers, arcades, tenancies, parking or servicing, including for residential uses on upper levels, building uses at ground floor level must be for retail, business, community or other non-residential purposes.		P1 No Performance Criterion.

GLE-S8.7 Development Standards for Buildings and Works

GLE-S8.7.1 Building height

This sub-clause is a substitution for the provisions of the Central Business Zone - Clause 16.4.1 Building height A1 and P1.

Objective:	That: <ul style="list-style-type: none"> (a) building height is consistent with the urban design principles; and (b) transitions in height between buildings are provided as appropriate. 	
Acceptable Solutions		Performance Criteria

<p>A1</p> <p>Building height must be not more than:</p> <ul style="list-style-type: none"> (a) within 6m of a road: 10m; (b) on a site adjoining a building that is a heritage place or a place listed on the Tasmanian Heritage Register: not more than the height of the highest building on that place; (c) in all other cases, 20m. 	<p>P1</p> <p>Building height must satisfy the following:</p> <ul style="list-style-type: none"> (a) be consistent with the urban design principles in Table GLE-S8.9.1. (b) not unreasonably overshadow adjacent public space, including a road; (c) provide for a human scale of development at street level; and (d) allow for transitions in scale to adjoining buildings of lesser height or articulation of interface where the difference in height is more than 4m.
---	---

GLE-S8.7.2 Building setback from a frontage or other public space boundary

This sub-clause is in substitution for the provisions of the Central Business Zone - Clause 16.4.2 Setbacks A1 and P1.

Objective:	<p>That buildings:</p> <ul style="list-style-type: none"> (a) maintain a generally continuous building line along roads and pedestrian areas and routes; (b) provide definition and a sense of enclosure to public spaces; and (c) contribute to the vitality and security of the pedestrian environment and a compact and walkable urban form.
Acceptable Solutions	Performance Criteria
<p>A1.1</p> <p>Buildings must have a setback from a frontage or other public domain boundary not less than:</p> <ul style="list-style-type: none"> (a) nil, where the alignment of the boundary of the site and adjacent lots to a frontage or other public space boundary is the same and adjacent buildings are built to that boundary; (b) most nearly maintaining a continuous building line, where the alignment of the site and adjacent lots to a frontage or other public space boundary is different and adjacent buildings are built to that boundary; (c) a setback consistent with the existing established building alignments, where 	<p>P1</p> <p>Buildings must be setback from a frontage or other public domain boundary in accordance with the following:</p> <ul style="list-style-type: none"> (a) generally maintain a continuous building line in respect of main streets and pedestrian areas and routes; (b) maintains the prevailing set-back established by adjoining buildings, provided the result is consistent with the urban design principles in Table GLE-S9.9.1; and (c) may provide for variations in building alignment to provide small spaces for active uses.

adjacent buildings are not built to the frontage or other public space boundary.	
A1.2 The setbacks may be modulated within a site to break up long building facades provided no projecting or receding element is deeper than 0.3m.	

GLE-S8.7.3 Design of buildings at ground level

This sub-clause is in substitution for the provisions of the Central Business Zone - Clause 16.4.3 Design A2 and P2.

Objective:	To promote development that creates active frontages, a diverse, lively and attractive character and an interlinked pedestrian environment at ground level.	
Acceptable Solutions		Performance Criteria
A1 The ground floor level of a building must comply with the following: <ul style="list-style-type: none"> (a) be constructed on or parallel to a frontage or other public space boundary; (b) have its main pedestrian entrance facing the road or other public space boundary; (c) have clear glazed ground level windows facing the road or other public space boundary that allow internal uses to be visible from and have opportunity to functionally relate to the road or other public space boundary; (d) avoid expanses of blank walls greater than 20% of wall length; (e) have a ground floor façade no higher than 4m; and (f) not have a facade wall that contains a recess or projection more than 0.3m; or creates a recess or projection more than 0.3m in combination with a facade wall on an adjacent site. 		P1 The ground floor level of a building must be designed to be consistent with all applicable urban design principles in Table GLE-S8.9.1.

GLE-S8.7.4 Roof design

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	To minimise the visual intrusiveness of service elements, such as service plants, lift over-runs, and the like, by screening them or integrating them into the design of the roof.
Acceptable Solutions	Performance Criteria
A1 Service elements such as mechanical plant, lift over-runs and motor rooms are screened from view from public spaces or integrated within the design of the roof as an architectural feature.	P1 Roof design must be consistent with all applicable urban design principles in Table GLE-S8.9.1.

GLE-S8.7.5 Design of buildings on corner lots

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	That, where feasible, buildings on corner sites are designed to define the corner.
Acceptable Solutions	Performance Criteria
A1 A building on a corner site must be designed to define the corner by incorporating one or more of the following: <ul style="list-style-type: none"> (a) corner elements such as pediments, turrets, verandahs, balconies or other articulation into the design of the building; (b) prominent entrances or windows at the apex; (c) increased roof expression or building height at the corner to emphasise the importance of the street corner; (d) a chamfered edge at the corner; (e) corner elements projected forward; (f) a change of building articulation, material or colour. 	P1 Definition of the corner by a building on a corner site would be infeasible, having regard to : <ul style="list-style-type: none"> (a) the general desirability of a building on a corner site providing definition to the corner; (b) the nature and scale of the proposed development; (c) the characteristics of the site including existing buildings; (d) the characteristics of the locality; and (e) all applicable urban design principles in Table GLE-S8.9.1.

GLE-S8.7.6 Awnings

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	That buildings incorporate awnings to provide pedestrian shelter over footpaths that is: (a) continuous and compatible with any adjacent pedestrian shelter; and (b) adequately lit to protect pedestrian safety and amenity.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>A box awning, cantilevered from the face of the building, must be provided along the full width of the building frontage and must have the following features:</p> <ul style="list-style-type: none"> (a) set back 1m from the face of the kerb; (b) where there is no side slope, be horizontal and match the height of an adjoining or nearby awning; (c) where there is side slope, be horizontal and step up or down in height relative to other awnings to accommodate the slope; (d) a consistent face depth of no more than 450mm; (e) the underside of the awning a minimum of 3m and a maximum of 4m above the finished footpath level; (f) 1m clearance to any tree trunk and main branches; and (g) a lighting environment under the awning in accordance with the standard required for applicable lighting sub-category P3, in <i>AS/NZS 1158.3.1:2005 Lighting for roads and public spaces Part 3.1: Pedestrian area (Category P) lighting</i>. 	<p>P1</p> <p>An awning may be dispensed with or a variation in awning design allowed, having regard to:</p> <ul style="list-style-type: none"> (a) the general desirability of providing pedestrian shelter; (b) the existing extent of pedestrian shelter in the locality; (c) the design and siting of the building relative to the footpath; (d) the design and siting of adjacent buildings relative to the footpath, including awning characteristics; and (e) all applicable urban design principles in Table GLE-S8.9.1.

GLE-S8.7.7 Parking design and location

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works and Parking and Sustainable Transport Code – clause C2.6 Development Standards for Buildings and Works

Objective:	That car parking associated with development is designed and located to minimise its visual impact upon the public domain.
Acceptable Solutions	Performance Criteria
A1 Car parking associated with development must be designed and located in accordance with the following: <ul style="list-style-type: none"> (a) parking must be located behind or underneath buildings; and (b) parking structures must comply with the following: <ul style="list-style-type: none"> (i) the facade of above ground parking must avoid expressing sloping ramps, strong horizontal banding, or features with an excessive vertical emphasis; and (ii) openings in parking structure facades must be screened to hide the parking operation as much as possible. 	P1 Parking structures and access must be designed and located: <ul style="list-style-type: none"> (a) so they do not undermine the character and visual attraction of the activity centre; and (b) to ensure no parking area is a dominant visual element of the activity centre, the site on which it is developed, or the streetscape.

GLE-S8.7.8 Crime prevention through environmental design

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	To: <ul style="list-style-type: none"> (a) reduce crime risk and minimise opportunities for crime; and (b) increase the safety and perception of safety in public and semi-public spaces.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 Development must minimise opportunities for crime or antisocial behaviour through all of the following measures, where applicable: <ul style="list-style-type: none"> (a) the main entrance or entrances to a building must face and be clearly visible from the street; or an adjacent public

	<p>space;</p> <p>(b) the windows in the upper floors of a facade adjacent to a street or public open space must overlook that street, or public space;</p> <p>(c) design and siting of public facilities such as toilets and parents rooms to maximise passive surveillance and minimise concealment and entrapment opportunities;</p> <p>(d) location of Automatic Teller Machines (ATMs) and public telephones in highly visible and well-lit locations;</p> <p>(e) avoidance of solid roller shutters on shopfronts;</p> <p>(f) use of open grille security devices on shopfronts only if such devices are necessary, unobtrusive and sympathetic to the character of the building and the streetscape;</p> <p>(g) natural and artificial lighting must be used to ensure that all publicly accessible areas are well lit at all times; reduce poorly lit or dark areas; minimise potential entrapment points and deter crime and vandalism;</p> <p>(h) public, communal and private areas must be clearly delineated within the site;</p> <p>(i) predictable routes and entrapment locations (e.g. concealed spaces near public pathways) must be minimised;</p> <p>(j) a structure (such as a carport, outbuilding, fence, or downpipe) that may act as a 'ladder' and provide an intruder with easy access to an upper floor of a building must not be located adjacent to the window or balcony of that upper floor;</p> <p>(k) the street number of a building must be visible from the street and made of a reflective material to allow visitors and emergency vehicles to easily identify</p>
--	--

	<p>the location of the building; and</p> <p>(l) clear use of signage or access control measures to direct appropriate pedestrian movement.</p>
--	--

GLE-S8.7.9 Pedestrian movement

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	<p>That development:</p> <p>(a) promotes the comfort, enjoyment and security of pedestrians by providing shelter and reducing conflict with motor vehicles; and</p> <p>(b) contributes to the quality of the public realm as a safe, secure and attractive environment for pedestrian movement and social interaction.</p>
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>Development must:</p> <p>(a) be located away from the public domain; and</p> <p>(b) involve no changes to existing pedestrian or vehicular access.</p>	<p>P1</p> <p>Development must comply with the following:</p> <p>(a) provide facilities for convenient, safe, and comfortable movement of pedestrians within the locality and connecting to it;</p> <p>(b) the finished levels must allow easy pedestrian, bicycle, vehicular and carparking interconnection between properties and buildings within the locality;</p> <p>(c) vehicle access ramps in footpaths and streets must be designed and located to minimise disruption to pedestrians;</p> <p>(d) vehicle and service entry points must be kept to a minimum to avoid adverse impact on pedestrian amenity; and</p> <p>(e) the pedestrian movement system must be at street level, avoiding pedestrian overhead bridges.</p>

GLE-S8.7.10 Landscaping

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	That publicly accessible spaces between or around buildings are landscaped to a high standard and integrate with other public open
------------	--

	spaces.
Acceptable Solutions	Performance Criteria
A1 No Acceptable Solution.	P1 A landscaping plan, prepared by a suitably qualified landscape architect, demonstrates that publicly accessible spaces between buildings are landscaped to a high standard and integrate with other public open spaces, with a shared palette of paving materials, street furniture, lighting and the like.

GLE-S8.7.11 Lighting

This sub-clause is in addition to the provisions of the Central Business Zone - Clause 16.4 Development Standards for Buildings and Works.

Objective:	That the public domain and adjacent publicly accessible space is well lit in order to provide a comfortable and safe night time environment for users.
Acceptable Solutions	Performance Criteria
A1 The lighting environment in the public domain and adjacent publicly accessible space must meet the standard for the applicable lighting sub-category in <i>AS/NZS 1158.3.1:2005 Lighting for roads and public spaces Part 3.1: Pedestrian area (Category P) lighting</i> , corresponding to the appropriate area, as follows: <ul style="list-style-type: none"> (a) pedestrian or cycle-oriented pathways (including footpaths): P3; (b) areas around major entertainment venues, other than licensed premises: P6; (c) transport terminals and interchanges: P6; and (d) areas primarily for pedestrian use, (including outdoor shopping precincts, malls & civic centres): P3. 	P1 The public domain and adjacent publicly accessible space must be lit to a standard that provide a comfortable and safe night time environment for users, consistent with all applicable urban design principles in Table GLE-S8.9.1.

GLE-S8.8 Development Standards for Subdivision

This sub-clause is not used in this specific area plan.

GLE-S8.9 Tables

GLE-S8.9.1 - Urban Design Principles

(a)	The public domain is comfortable, welcoming, vibrant, feels safe, well connected, allows access for all, and is walkable and bicycle friendly.
(b)	Active street frontages provide a safe and welcoming street environment at human scale with display windows, a concentration of active uses at ground level and an avoidance of blank walls.
(c)	Building facades are articulated to provide visual interest and to relieve visual bulk through techniques such as variations in plan shape such as curves, steps, recesses, projections or splays; the pattern of horizontal and vertical composition, positioning and design of window openings, expression of entrances with awnings, porticos, recesses, blade walls and projecting bays and avoidance of large expanses of blank wall.
(d)	Corner buildings express their relationship to the corner by siting that defines the corner and by ensuring a high standard of façade along both frontages, which may give rise to higher building elements at the corner.
(e)	Roof service structures are concealed in the roof design or screened from public view.
(f)	Awnings provide pedestrian shelter along public footpaths and assist in outward expression of interior activity.
(g)	Buildings address and define the public spaces that adjoin them with, as far as possible, a continuous building alignment.
(h)	Building design promotes the safe and convenient circulation of pedestrians within the activity centre.
(i)	Parking areas and structures are located so as not to dominate the public domain.
(j)	Buildings are sited and designed to minimise opportunities for crime and antisocial behaviour by maintaining natural surveillance, controlling access, delineating public, semi-public and private spaces, and target hardening.

GLE-S9.0 Berriedale Potential Dispersive Soils Specific Area Plan

GLE-S9.1 Plan Purpose:

The purpose of the Berriedale Potential Dispersive Soils Specific Area Plan is:

GLE-S9.1.1 To minimise and/or mitigate adverse impacts from development on land that contains potentially dispersive soils.

GLE-S9.2 Application of this Plan

GLE-S9.2.1 The specific area plan applies to the area of land designated as the Berriedale Potential Dispersive Soils Specific Area Plan on the overlay maps.

GLE-S9.2.2 In the area of land this plan applies to, the provisions of the specific area plan are in addition to the provisions of:

- (a) the General Residential Zone; and
 - (b) Landscape Conservation Zone,
- as specified in the relevant provision.

GLE-S9.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S9.4 Definition of Terms

GLE-S9.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
dispersive soil	means soil or sediment with an Exchangeable Sodium Percentage greater than 6% or which demonstrates dispersive behaviour when in contact with fresh water.
dispersive soil management plan	means a report prepared in accordance with Hardie, M (2009): <i>Dispersive Soils and their Management: Technical Reference Manual</i> and DPIW (2009), <i>Dispersive Soils and their Management – Guidelines for Landowners, Planners and Engineers</i> , by a suitably qualified person that details: <ul style="list-style-type: none"> (a) the dispersive potential of soils in the vicinity of the proposed development; (b) the potential for the development to cause or contribute to gully or tunnel erosion; (c) an analysis of the level of risk to the development and the level of risk to users of the development; and (d) proposed management measures to reduce risk to an acceptable level where necessary,

GLE-S9.5 Use Table

This sub-clause is not used in this specific area plan.

GLE-S9.6 Use Standards

This sub-clause is not used in this specific area plan.

GLE-S9.7 Development Standards for Buildings and Works**GLE-S9.7.1 Development on potential dispersive soils**

This sub-clause is in addition to 8.0 General Residential Zone – Clause 8.4 Development Standards for Dwellings and 8.5 Development Standards for Non-dwellings, and 22.0 Landscape Conservation Zone - Clause 22.4 Development Standards for Buildings and Works.

Objective	That buildings and works with the potential to disturb dispersive soil are appropriately located or managed to minimise the potential to cause erosion and ensure risk to property and the environment is reduced to an acceptable level.	
Acceptable Solutions		Performance Criteria
A1 Buildings and works must be for: (a) works not involving the release of concentrated water or the disturbance of soils; (b) additions or alterations to an existing building, or the construction of a non-habitable building, provided the development area is no more than 100 m ² ; or (c) forestry operations in accordance with a certified Forest Practices Plan.		P1 Buildings and works must be designed, sited and constructed to minimise the risks associated with dispersive soil to property and the environment, having regard to: (a) the dispersive potential of soils in the vicinity of proposed buildings, driveways, services and the development area generally; (b) the potential of the development to affect or be affected by erosion, including gully and tunnel erosion; (c) the dispersive potential of soils in the vicinity of water drainage lines, infiltration areas/trenches, water storages, ponds, dams and disposal areas; (d) the level of risk and potential consequences for property and the environment from potential erosion, including gully and tunnel erosion; (e) management measures that would reduce risk to an acceptable level; and (f) the advice contained in a dispersive soil management plan.

GLE-S9.8 Development Standards for Subdivision

GLE-S9.8.1 Subdivision on potential dispersive soils

This sub-clause is in addition to 8.0 General Residential Zone – Clause 8.6 Development Standards for Subdivision, and 22.0 Landscape Conservation Zone Clause 22.5 Development Standards for Subdivision.

Objective	That development with the potential to disturb dispersive soil is appropriately located or managed to minimise the potential to cause erosion and ensure risk to property and the environment is reduced to an acceptable level.
Acceptable Solutions	Performance Criteria
<p>A1</p> <p>No Acceptable Solution.</p>	<p>P1</p> <p>Each lot, or a lot proposed in a plan of subdivision, must minimise the risks associated with dispersive soil to property and the environment, having regard to:</p> <ul style="list-style-type: none"> (a) the dispersive potential of soils in the vicinity of proposed buildings, driveways, services and the development area generally; (b) the potential of the subdivision to affect or be affected by erosion, including gully and tunnel erosion; (c) the dispersive potential of soils in the vicinity of water drainage lines, infiltration areas/trenches, water storages, ponds, dams and disposal areas; (d) the level of risk and potential consequences for property and the environment from potential erosion, including gully and tunnel erosion; (e) management measures that would reduce risk to an acceptable level; and (f) the advice contained in a dispersive soil management plan.

GLE-S9.9 Tables

This sub-clause is not used in this specific area plan.

GLE-S10.0 Beedhams Bay Potential Acid Sulfate Soils Specific Area Plan

GLE-S10.1 Plan Purpose:

The purpose of the Potential Acid Sulfate Soils Specific Area Plan is:

GLE-S10.1.1 To minimise and mitigate adverse impacts from development occurring on land that contains potentially acid sulfate soils.

GLE-S10.2 Application of this Plan

GLE-S10.2.1 The specific area plan applies to an area of land designated as the Beedhams Bay Potential Acid Sulfate Soils Specific Area Plan on the overlay maps.

GLE-S10.2.2 In the area of land this plan applies to, the provisions of the specific area plan modify, are in addition to the provisions of:

- (a) the General Residential Zone;
 - (b) Utilities Zone ;
 - (c) Environmental Management Zone; and
 - (d) Open Space Zone,
- as specified in the relevant provision.

GLE-S10.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S10.4 Definition of Terms

GLE-S10.4.1 In this Specific Area Plan, unless the contrary intention appears:

Terms	Definition
acid sulfate soil	means soil or sediment containing highly acidic soil horizons or layers affected by the oxidation of iron sulfides.
acid sulfate soil management plan	<p>means a report prepared in accordance with DPIW (2009), Tasmanian Acid Sulphate Soils Management Guidelines, by a suitably qualified person that details:</p> <ul style="list-style-type: none"> (a) the acid sulfate soils or potential acid sulfate soils in the vicinity of the proposed development; (b) the potential for the development to cause potential acid sulfate soils to be exposed to air or oxidised; (c) an analysis of the level of risk to the development and the level of risk to users of the development; (d) an analysis of the level of risk to the environment; and (e) proposed management measures to reduce risk to an

	acceptable level where necessary.
--	-----------------------------------

GLE-S10.5 Use Table

This sub-clause is not used in this specific area plan.

GLE-S10.6 Use Standards

This sub-clause is not used in this specific area plan.

GLE-S10.7 Development Standards for Buildings and Works

GLE-S10.7.1 Development on Acid Sulfate Soils

This sub-clause is in addition to 8.0 General Residential Zone – Clause 8.4 Development Standards for Dwellings and Clause 8.5 Development Standards for Non-dwellings, 23.0 Environmental Management Zone – Clause 23.4 Development Standards for Buildings and Works, 29.0 Open Space Zone – Clause 29.4 Development Standards for Buildings and Works and 26.0 Utilities Zone – Clause 26.4 Development Standards for Buildings and Works.

Objective	That development subject to, or having potential to cause, an acid sulfate soil hazard is appropriately located and managed to ensure that risk to property and the environment is reduced to an acceptable level.	
Acceptable Solutions	Performance Criteria	
<p>A1</p> <p>Buildings and works must be for:</p> <ul style="list-style-type: none"> (a) works not involving the exposing or disturbance of sub-surface soils or the drainage of groundwater; (b) excavation of no more than 100m³ of soil or sediment; (c) deposition of less than 500m³ of fill to a depth of no more than 0.5m; (d) additions or alterations to an existing building, or the construction of a non-habitable building, provided the development area is no more than 100m² and the maximum depth of excavation is 0.75m; or (e) forestry operations in accordance with a certified Forest Practices Plan. 	<p>P1</p> <p>Buildings and works must be designed, sited and constructed to minimise the risks of acid sulfate soil to property and the environment, having regard to:</p> <ul style="list-style-type: none"> (a) the acid sulfate or potential acid sulfate soils in the vicinity of proposed works involving excavation or disturbance of soil or sediment, or drainage of groundwater; (b) the potential for those works to cause potential acid sulfate soils to be exposed to air or oxidised; (c) the potential for the development to be affected by acid sulfate soils; (d) the level of risk and potential consequences for human health, property and the environment; (e) management measures to reduce risk to an acceptable level; and (f) the advice contained in an acid sulfate 	

	soil management plan.
--	-----------------------

GLE-S10.8 Development Standards for Subdivision

This sub-clause is not used in this specific area plan.

GLE –S10.9 Tables

This sub-clause is not used in this specific area plan.

GLE-S11.0 MONA Specific Area Plan

GLE-S11.1 Plan Purpose

The purpose of the MONA Specific Area Plan is:

- GLE-S11.1.1 To recognise the use and development of the site as a museum and art gallery of state and regional importance; and facilitate temporary and permanent use and development for the housing of art, cultural events, and social activity on the site and adjacent waters.
- GLE-S11.1.2 To encourage use and development that will facilitate the creative, economic, cultural, community, and social activities of MONA.
- GLE-S11.1.3 To provide public access points to the foreshore.
- GLE-S11.1.4 To provide for short term displays, occasional events associated with the use of the site, and ephemeral artworks.
- GLE-S11.1.5 To identify and manage use and development in areas at risk of inundation.
- GLE-S11.1.6 To promote design outcomes that recognise the plan area as a stimulatory, and innovative environment, which is expressed through architecture, activity and art. Use and development is encouraged to be bold whilst ensuring that detrimental impact on the amenity of surrounding residential zones is minimised.
- GLE-S11.1.7 To support development that reflects the landform of the peninsula as a promontory, visible within its setting within the river, with larger scale buildings located to the south-east. Development should reduce in scale where adjacent to the street frontage or residential zones.
- GLE-S11.1.8 To create a variety of landscaped areas to enliven the experience of the site and recognise the values of the commercial vineyard and treed approach.
- GLE-S11.1.9 To recognise the natural values of the estuary and surrounding area and ensure that development responds to the natural values.

GLE-S11.2 Application of this Plan

- GLE-S11.2.1 The specific area plan applies to an area of land designated as the MONA Specific Area Plan on the overlay maps and as shown in Figure GLE-S11.1.
- GLE-S11.2.2 In the area of land this plan applies to, the provisions of the Specific Area Plan are in substitution for, in addition to and a modification of the provisions of the:
 - (a) Major Tourism Zone;
 - (b) Environmental Management Zone;
 - (c) Natural Assets Code; and
 - (d) Coastal Inundation Hazard Code,as specified in the relevant provision.

GLE-S11.3 Local Area Objectives

This sub-clause is not used in this specific area plan.

GLE-S11.4 Definition of Terms

GLE-S11.4.1 In this Specific Area Plan, unless the contrary intention appears:

Term	Definition
art installation	includes art work
coastal values	means the values of coastal areas derived from their coastal habitat and vegetation, physical elements, landscape values, recreational values and economic values and the processes and functions that underpin them.
inundation risk management plan	<p>means a specific site plan acceptable to the planning authority that details:</p> <ul style="list-style-type: none"> (a) the risk of inundation of the site, with respect to the proposed location and floor levels of buildings, within applicable timeframes (current, year 2050 and/or year 2100); and (b) any inundation control measures or design features proposed to achieve and maintain a tolerable risk, <p>prepared by a suitably qualified person in accordance with best practice guidelines.</p>
MONA	means Museum of Old and New Art.
natural values	means biodiversity, environmental flows, natural streambank stability and stream bed condition, riparian vegetation, littoral vegetation, water quality, wetlands, river condition and waterway and/or coastal values.
temporary development	<p>means:</p> <ul style="list-style-type: none"> (a) outdoor non-habitable art installations; (b) the erection of structures to facilitate occasional events (for the duration of that event); or (c) structures created to rehouse art installations for continued public access during construction, <p>for up to a year.</p> <p>Temporary developments are to be demountable; not require any vegetation removal, excavation, or soil disturbance, or have structural requirements that disturb</p>

	the land, coast or riverbed.
--	------------------------------

GLE-S11.5 Use Table

This sub-clause is in substitution for Environmental Management Zone – Clause 23.2 Use Table and Major Tourism Zone Clause 24.2 Use Table.

Use Class	Qualification
No Permit Required	
Community Meeting and entertainment	If for temporary development associated with or ancillary to an existing use.
Natural and Cultural Values Management	
Passive Recreation	
Utilities	If minor utilities.
Permitted	
Community Meeting and Entertainment	If not listed as No Permit Required.
Food Services	
General Retail and Hire	If for markets (weekly or less frequently).
Hotel Industry	
Research and Development	
Resource Development	If for vineyard.
Resource Processing	If a winery, a brewery or a distillery.
Tourist Operation	
Visitor Accommodation	
Discretionary	
Business and Professional Services	If associated with a Permitted or No Permit Required use.
Educational and Occasional Care	
Emergency Services	
General Retail and Hire	If not listed as Permitted.
Pleasure Boat Facility	
Port and Shipping	If for loading and unloading of passengers and associated facilities.
Residential	
Resource Development	If for Agriculture.
Sports and Recreation	
Utilities	If not listed as No Permit Required.
Vehicle Parking	

Prohibited
All other uses

GLE-S11.6 Use Standards

GLE-S11.6.1 Discretionary use

This sub-clause is in substitution for Environmental Management Zone sub-clause 23.3.1 Discretionary uses and Major Tourism Zone – sub-clause 24.3.2 Discretionary uses.

Objective:	That discretionary uses which support innovative and creative activities can be accommodated within the area, whilst ensuring that detrimental off site impact is minimised.
Acceptable Solution	Performance Criteria
A1 No Acceptable Solution.	P1 A use listed as Discretionary must: <ul style="list-style-type: none"> (a) complement or support permitted uses on the site; (b) be consistent with the plan purpose statements at Clause GLE-S11.1; (c) not cause an unreasonable loss of amenity of neighboring residential properties; and (d) not compromise the role of existing activity centres, having regard to: <ul style="list-style-type: none"> (i) the size and scale of the proposed use; (ii) the functions of surrounding activity centres; and (iii) the extent that the proposed use impacts on surrounding activity centres.

GLE-S11.6.2 Noise

This sub-clause is in addition to Major Tourism Zone – sub-clause 24.3.1 All uses

Objective:	That noise emissions do not cause environmental harm and do not have unreasonable impact on residential amenity on land within a residential zone.
Acceptable Solution	Performance Criteria
A1 Noise emissions measured at the boundary of a residential zone must not exceed the following: <ul style="list-style-type: none"> (a) 55dB(A) (LAeq) between the hours of 7.00 am to 7.00 pm; (b) 5dB(A) above the background (LA90) level or 40dB(A) (LAeq), 	P1 Noise emissions measured at the boundary of a residential zone must not cause or be likely to cause environmental harm within that residential zone.

<p>whichever is the lower, between the hours of 7.00 pm to 7.00 am;</p> <p>(c) 65dB(A) (L_{Amax}) at any time. Measurement of noise levels must be in accordance with the methods in the Tasmanian Noise Measurement Procedures Manual, issued by the Director of Environmental Management, including adjustment of noise levels for tonality and impulsiveness.</p> <p>Noise levels are to be averaged over a 15 minute time interval.</p>	
---	--

GLE-S11.6.3 Hours of operation

This sub-clause is in substitution for Major Tourism Zone – sub-clause 24.3.1 All uses A1 and P1.

Objective:	That hours of operation of uses located in proximity to residential zones do not have unreasonable impact on residential amenity.
Acceptable Solution	Performance Criteria
<p>A1</p> <p>Uses located within 50 m of a residential zone must be restricted to operating between 7.00am to 9.00pm.</p>	<p>P1</p> <p>Hours of operation of a use within 50 m of a residential zone must not have an unreasonable impact upon the residential amenity of land in a residential zone through vehicle movements, noise or other emissions that are unreasonable in their timing, duration or extent.</p>

GLE-S11.7 Development Standards

GLE-S11.7.1 Building height and design

This sub-clause is a substitution for Environmental Management Zone sub-clause 23.4.2 Building height, setback and siting and Major Tourism Zone – sub-clause 24.4.1 Building height.

Objective:	That new use and development can be accommodated within the site, encouraging artistic and architectural expression and innovation, whilst maintaining a high quality of architectural and landscape design.
Acceptable Solution	Performance Criteria
<p>A1</p> <p>Building and works must be no more than 10 m in height.</p>	<p>P1</p> <p>Building and works greater than 10m in height must satisfy all of the following:</p> <p>(a) be consistent with the plan purpose statements at Clause GLE-S11.1;</p>

	<p>(b) demonstrate, through a visual impact assessment prepared by a suitably qualified person (architecture, or urban design), that the proposal incorporates a scale and design response that is cognisant of its location and visual importance in the River Derwent and its surrounds, having regard to:</p> <ul style="list-style-type: none"> (i) materials; (ii) finishes (iii) bulk; (iv) scale; (v) massing; and (vi) the plan purpose statements at Clause GLE-S11.1; <p>(c) minimises unreasonable amenity impacts on recreational users of public land; and</p> <p>(d) for buildings within 50m of a residential zone, not cause unreasonable loss of amenity from overshadowing and reduction in sunlight to habitable rooms and private open space of dwellings, having regard to:</p> <ul style="list-style-type: none"> (i) the height, bulk and form of the building; (ii) separation from existing buildings on adjoining properties; and (iii) any buffers created by natural or other features.
--	--

GLE-S11.7.2 Setback

This sub-clause is in substitution for Environmental Management Zone sub-clause 23.4.2 Building height, setback and siting and Major Tourism Zone – sub-clause 24.4.2 Setbacks A1, P1, A2, P2, A3 and P3 Development Standards for Buildings and Works.

Objective:	That building setback contributes positively to its surrounds and does not result in unreasonable impact on environmental values or the amenity of adjoining land.
Acceptable Solution	Performance Criteria
A1 Buildings must have a setback from a frontage of not less than 5m.	P1 Buildings must be sited to have a setback from a frontage that is compatible with the character of the surrounding area, having regard to:

	<ul style="list-style-type: none"> (a) the plan purpose statements at Clause GLE-S11.1; (b) the setbacks of buildings existing on established adjacent properties; and (c) provision of adequate vehicle access, sight distance, parking and landscaping.
<p>A2</p> <p>Buildings must be setback from a residential zone not less than:</p> <ul style="list-style-type: none"> (a) 5 m; or (b) half the wall height of the building, whichever is the greater. 	<p>P2</p> <p>Buildings must be sited with a setback from a residential zone sufficient to prevent unreasonable adverse impacts on residential amenity by:</p> <ul style="list-style-type: none"> (a) overshadowing and reduction of sunlight to habitable rooms and private open space on adjoining lots to less than 3 hours between 9.00 am and 5.00 pm on June 21 or further decrease sunlight hours if already less than 3 hours; (b) overlooking and loss of privacy; and (c) visual impact when viewed from adjoining lots, <p>having regard to aspect and slope.</p>
<p>A3</p> <p>Buildings and works must have a setback from land zoned Environmental Management of not less than 20m, unless for temporary development.</p>	<p>P3</p> <p>Buildings and works within 20m of, or within, an Environmental Management Zone must be sited to satisfy the following:</p> <ul style="list-style-type: none"> (a) there is no significant impact from the development on natural values; (b) the potential for the spread of weeds or soil pathogens onto the land zoned Environmental Management is minimised; (c) there is no potential for contaminated water runoff or sediment impacting the land zoned Environmental Management; and (d) development is consistent with the plan purpose statements at Clause GLE-S11.1.

GLE-S11.7.3 Landscaping

This sub-clause is in addition to Major Tourism Zone – Clause 24.4 Development Standards for Buildings and Works.

Objective:	To provide a safe and inspiring landscape experience for visitors and staff.	
Acceptable Solution		Performance Criteria
A1 Building and works does not require the removal or conversion of existing vegetation.		P1 A landscaping plan, prepared by a suitably qualified landscape architect, addresses the following: <ul style="list-style-type: none"> (a) identifies the character of landscaped areas; (b) identifies, where relevant: <ul style="list-style-type: none"> (i) materials; (ii) finishes; (iii) planting, including succession planting; and (iv) maintenance and protection works; and (c) is consistent with the plan purpose statements at Clause GLE-S11.1.

GLE-S11.7.4 Buildings and works within a waterway and coastal protection area

This sub-clause is in substitution for Natural Assets Code – sub-clause C7.6.1 Buildings and works within a waterways and coastal protection area or a future coastal refugia area A1, P1.1 and P1.2.

Objective:	That buildings and works in proximity to the River Derwent and the coast, will not have an unnecessary or unacceptable impact on natural values.	
Acceptable Solution		Performance Criteria
A1 Building and works are: (a) not located within 40m of the high water mark; or (b) for a temporary development.		P1 Building and works within a waterway and coastal protection area must satisfy the following: (a) avoid or mitigate impacts on natural values; (b) mitigate and manage adverse erosion, sedimentation and runoff impacts on natural values; (c) avoid or mitigate impacts on riparian or littoral vegetation; (d) works are undertaken generally in accordance with <i>Wetlands and Waterways Works Manual</i> (DPIWE, 2003) and <i>Tasmanian Coastal Works Manual</i> (DPIPWE, Page and Thorp, 2010); and (e) the unnecessary use of machinery within watercourses and wetlands is avoided.

GLE-S11.7.5 Buildings and works within an inundation prone area.

This sub-clause is in substitution for Coastal Inundation Hazard Code – sub-clause C11.6.1 Buildings and works, excluding coastal protection works, within a coastal inundation hazard area.

Objective:	That: (a) buildings and works can achieve and maintain a tolerable risk from inundation; and (b) areas at risk of inundation are properly managed.	
Acceptable Solution		Performance Criteria
A1 Building and works are: (a) situated where the natural ground level is above 2.4m AHD; or (b) for a temporary development.		P1 An inundation risk management plan must demonstrate that: (a) floor levels of habitable rooms are designed with respect to coastal inundation hazard band levels identified in GLE-Table C11.1 of this planning scheme;

	<ul style="list-style-type: none"> (b) risk to users of the site, adjoining or nearby land is tolerable; (c) risk to adjoining or nearby property or public infrastructure is tolerable; (d) risk to buildings and other works arising from wave run-up is adequately mitigated through siting, structural or design methods; (e) need for future remediation works is minimised; (f) access to the site will not be lost or substantially compromised by expected future sea level rise either on or off-site; and (g) provision of any developer contribution required pursuant to policy adopted by Council for coastal protection works.

GLE-S11.8 Development Standards for Subdivision

GLE-S11.8.1 Subdivision

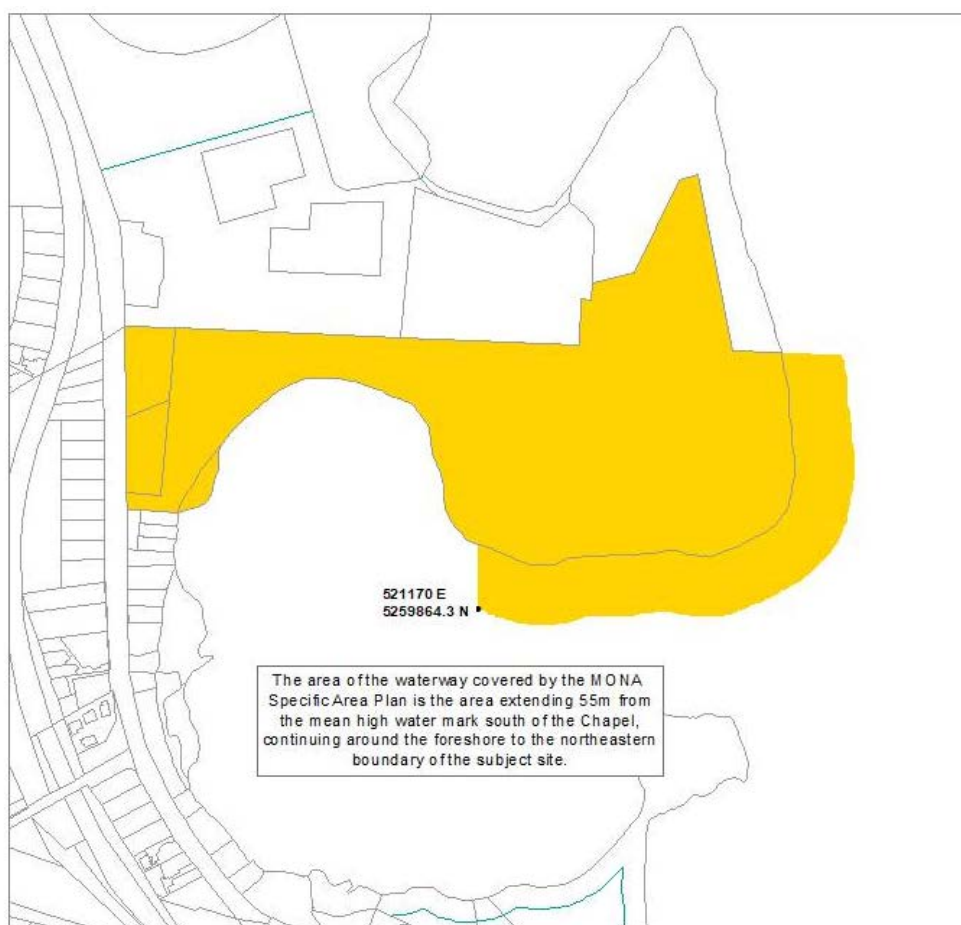

This sub-clause is in substitution for Major Tourism Zone Clause 24.5 Development Standards for Subdivision sub-clause 24.5.1 Lot Design A1 and P1 and is a substitution for Environmental Management Zone Clause 23.5 Development Standards for Subdivision.

Objective:	<p>That:</p> <ul style="list-style-type: none"> (a) subdivision is limited to maintain integrated use and development; and (b) future development likely to be facilitated by subdivision, is unlikely to lead to an unnecessary or unacceptable impact on natural values.
Acceptable Solution	Performance Criteria
<p>A1</p> <p>Subdivision is for the purpose of providing lots for public open space, a reserve or provision of Utilities.</p>	<p>P1</p> <p>Subdivision must:</p> <ul style="list-style-type: none"> (a) facilitate development and use consistent with the plan purpose statements at Clause GLE-S11.1; and (b) minimise impact on natural values.

GLE-C6.1.274		Lutana	112 Ashbolt Crescent	Transend Substation High-bay Building	Part 199803/10	<p><i>Description</i> Circa 1922 Substation High-bay Building.</p> <p><i>Specific Extent</i> All that part of the land occupied by the Substation high-bay building.</p> <p><i>Statement of Local Historic Heritage Significance and Historic Heritage Values</i> The Substation symbolises the inextricable link between zinc refining and the state hydro-electricity grid, in that the need to separate zinc led to the development of the hydro-electric system which prompted a state government mantra of hydro-industrialisation lasting for decades.</p> <p>Identified in the Local Provisions Schedule because of:</p> <p>(a) Its role in, representation of, or potential for contributing to the understanding of:</p> <p>(a)(i) Local history including – as a demonstration of; The importance of hydro-industrialisation in</p>

Reference Number	THR Number	Town/ Locality	Street address	Property Name	Folio of the Register	Description, Specific Extent, Statement of Local Historic Heritage Significance and Historic Heritage Values
						<p>Glenorchy history, particularly in the period 1916–24, when the city became the ‘industrial hub of southern Tasmania’. This Substation differed markedly from power stations attached to earlier Tasmanian industrial plants such as those at Mount Bischoff, Moorina and Lake Margaret. Those earlier plants were part of small, privately owned hydro-electric schemes, whereas the EZ Substation was a conduit of power generated at Waddamana as part of the government-owned state electricity grid.</p> <p>(a)(ii) Creative or technical achievements – arising from its configuration and technology. At the Substation, the electricity supplied by power lines approaching it down the eastern and western sides of the Derwent River were broken down into manageable strength and assigned to both industrial and domestic usage. Embedded in the building were the 11,000-volt bus bars from which EZ’s power was supplied, the 6,600-volt bus bars by which Hobart’s tramway system was supplied</p>

Reference Number	THR Number	Town/Locality	Street address	Property Name	Folio of the Register	Description, Specific Extent, Statement of Local Historic Heritage Significance and Historic Heritage Values
						<p>and an auxiliary bus bar which supplied Cadbury-Fry-Pascall. The six transformers which supplied EZ with power were the largest brought into Australia at that time. They were cooled by salt water extracted from the tidal reach of the river. Four lead-covered underground cables carried electricity from the bus bars to the EZ plant. The flow of power was governed by a low-tension switchboard inside the substation. The complex of oil switches, high-tension bus bars and transformers was said to form a replica of the external structure at the Waddamana Power Station.</p> <p>(a)(iii) A class of building or place – that exhibits the principal characteristics of a Post-War International style industrial building. Significant attributes include but are not necessarily limited to: its flat roof, simple cubiform overall shape, rectangular in plan, with plain wall surfaces, Art Deco string courses at the top of the parapet, groups of three metal framed windows on three levels, and large over-height metal roller door.</p>
