Dear Warren,

#### PLANNING EXHIBITION REPRESENTATION

This letter is a supplement to a representation sent earlier today by Furneaux Islands Protection Network Inc. (FIPNI) under the provisions of section 35E (refer Appendix I) of the Land Use Planning and Approvals Act 1993 to Flinders Council in relation to Flinders Draft Local Provisions Schedule (LPS).

Further to my previous Representation regarding the Flinders Island Draft Local Provisions Schedule I would like to make comment with regard to the proposed zoning for Little Dog and Little Green Islands.

#### **Little Green Island**

We support the application of the Environmental Management Zone to the public land areas of Little Green Island. We also support the application of Landscape Conservation Zone to the private land areas of Little Green Island.

#### **Little Dog Island**

We do not support the application of Environmental Management Zone to the private land areas of Little Dog Island.

All private land areas on Little Dog should be zoned Landscape Conservation Zone. Any public land on Little Dog Island should be zoned Environmental Management Zone. This approach also appears to be consistent to the application of the Environmental Management Zone and Landscape Conservation Zone of other outer islands of the Furneaux Group.

#### **All outer Islands of the Flinders Island Municipality**

We support all the outer islands being zoned, other than those with current Particular Purpose Zones, Environmental Management Zone on public land and Landscape Conservation Zone on private land.

We thank you for the opportunity to lodge this representation.

Please call me if you require more information.

Yours sincerely

Gerry Willis

President
