You don't often get email from murphyslaw79@y7mail.com. [Learn why this is important](#)

***In regards to the "Draft Kentish Local Provision Schedule - Tasmanian Planning Scheme.***

My name is Anthony Murphy, and I am the owner and resident of 55 Morrison St Railton.

I have been residing there since May 2010, which means that we have personally experienced all 3 major flooding events.

**My concern is that your proposed flood prone area map is incorrect in regards to my property and the 2 adjacent to me.**

Attached is a revision of the map that shows where the water reached taking into account all 3 floods, as I was physically present for all 3 events.

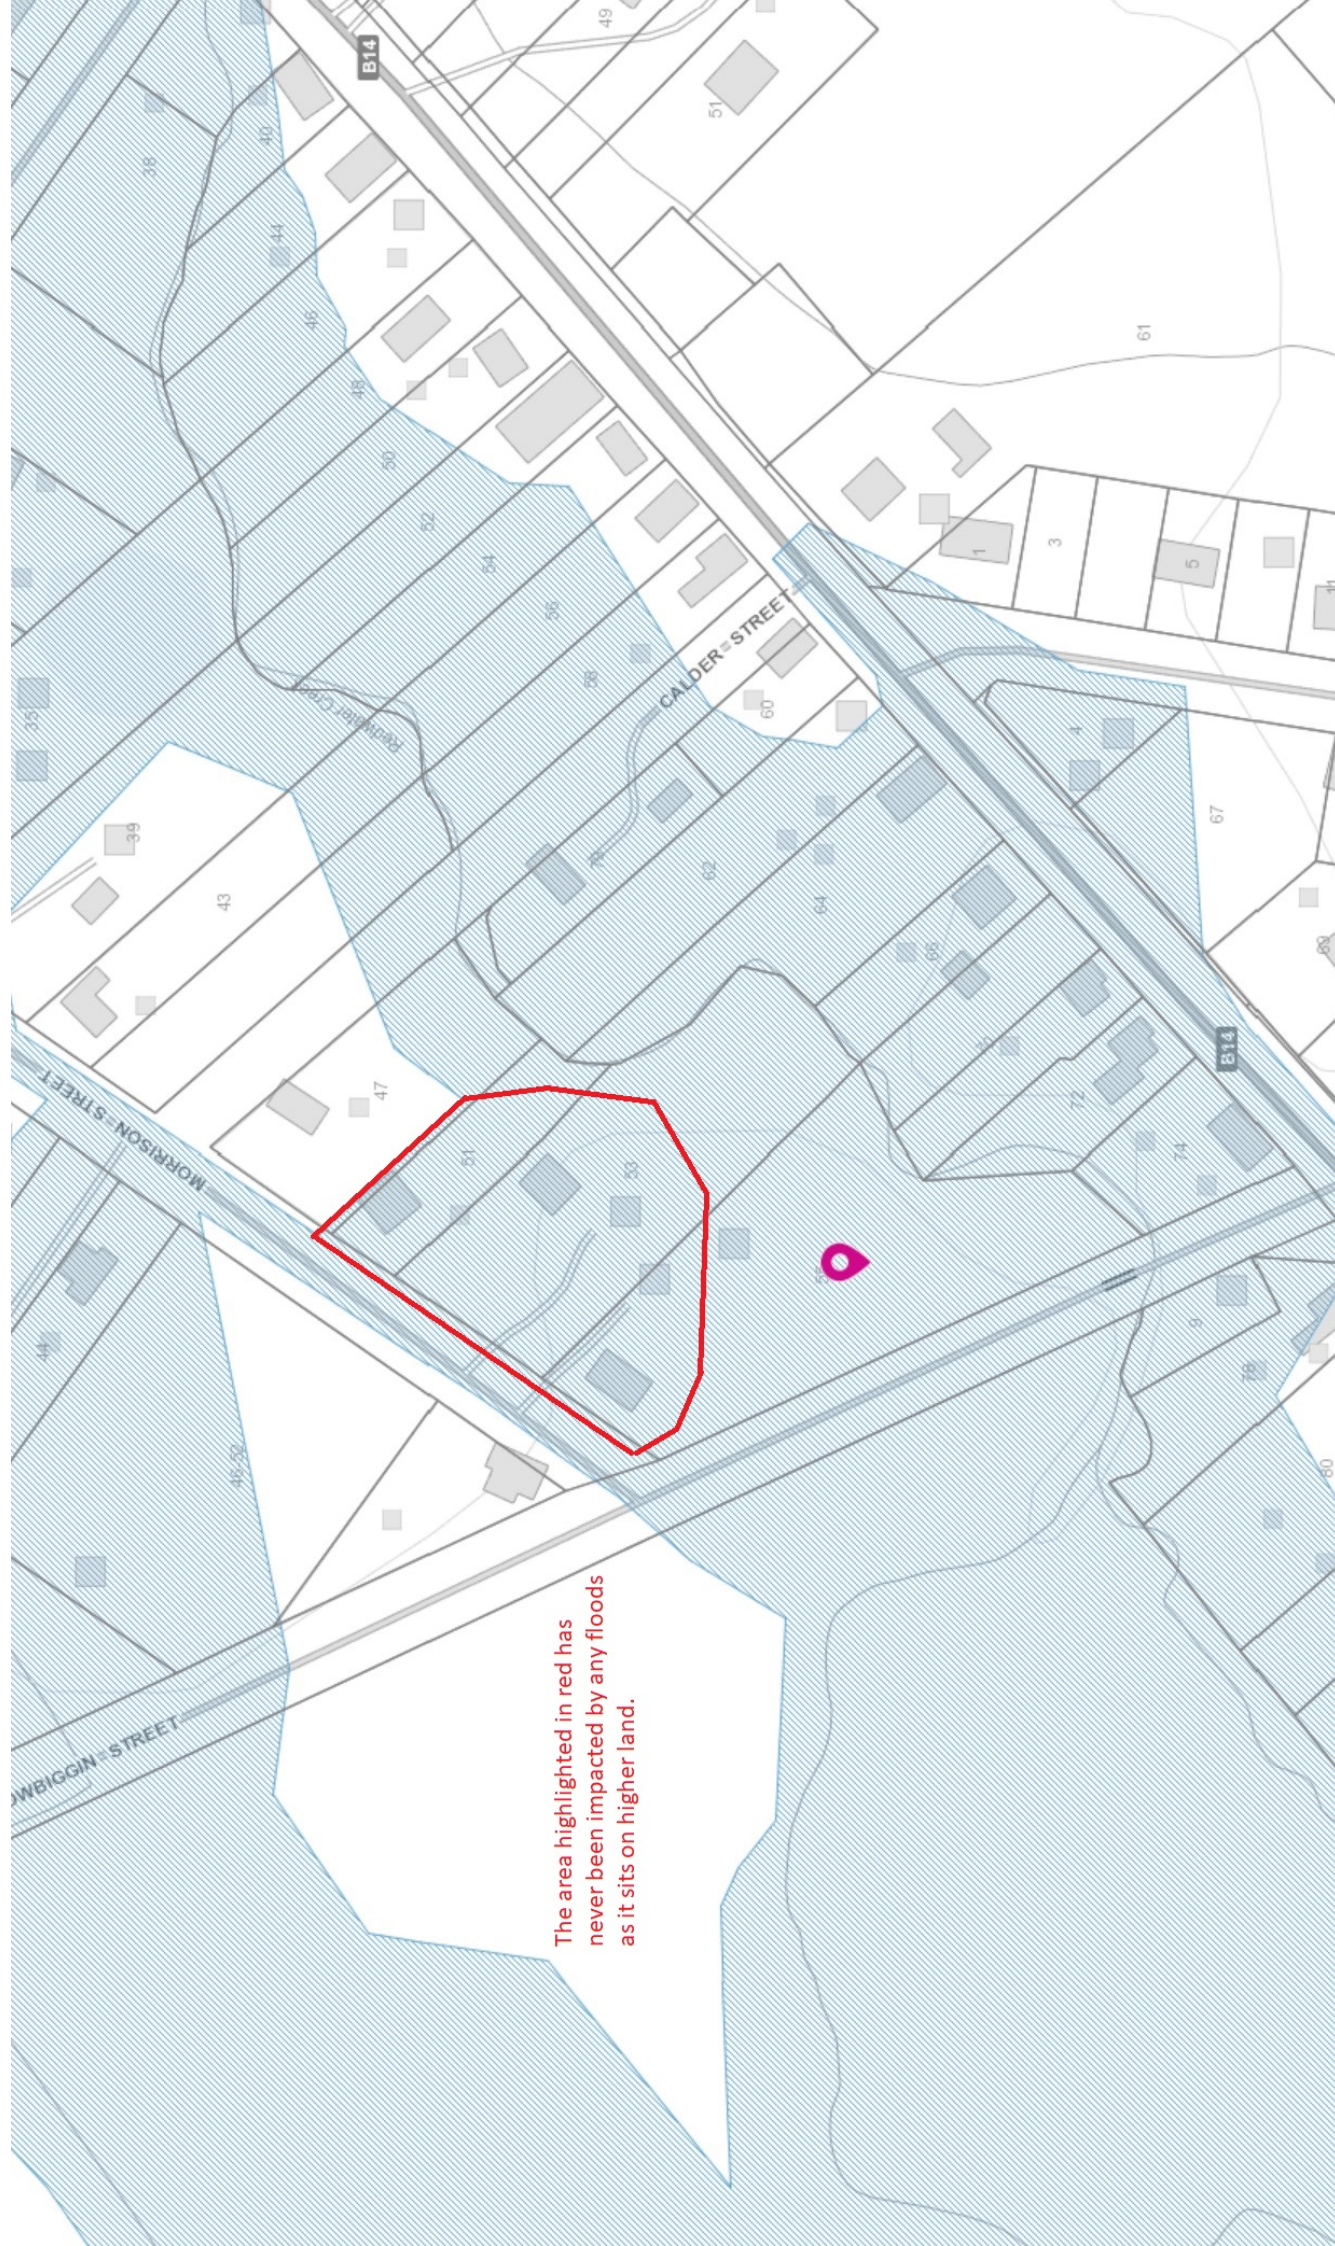

If the map you provided was accurate in regards to my property and the 2 adjacent, the vast majority of Morrison St and Foster St would be catastrophically impacted by the water reaching such heights.

Please contact me if you have any problems on 0417 419 067.

Kind regards,

Anthony Murphy

The area highlighted in red has never been impacted by any floods as it sits on higher land.
