Subject: Representation: Kangaroo Bay Hotel Project

I strongly urge the Development Assessment Panel to reject the Kangaroo Bay Hotel project. This gateway area as entry to the city has unique and precious setting and views - it should be retained for whole community use, not just a select few. (As a students' training centre it would have at least diversified its use but that is no longer in the plan). A large hotel is totally out of keeping with these surrounds, unlike in the CBD of Hobart where it would be amid other hotels. Economic and social benefits for our community would be limited - profits look like going offshore to overseas owners. Public ownership of this land should keep access and amenity available for all.

Yours sincerely
Jeannette Bray
