Dear Mr Gill,

I am writing to you in response to the letter received from the Meander Valley Council regarding Westbury Low Density Residential Zoning.

I am against the changes sort.

I spent my money investing in the township of Westbury in the Meander Valley region, when I decided to purchase my property and establishing my residence. I wanted acreage to pursue my equestrian interests. I bought my property on Reid Street East as it is situation on a No through Road. The peace and tranquility of living on the fringe of a regional town is pertinent to me. I enjoy the hedgerows and wide verges of the streets and roads of Westbury for recreational purposes. The distance between neighbors is very important to me.

I do hope the Meander Valley Council can recognize the desires of their residents and not change the zoning that concerns my property.

Warm regards,

Maryann Cresswell
