Dear Sir/Madam

I am speaking for myself and other residents in Robert Street,  
Voicing our concerns about the changing from Agriculture to General Residential  
Of the above mentioned address.  
We feel this will be detrimental to the community as Latrobe is growing too rapidly and no longer has the  
country town feel that people have always flocked to Latrobe for. It is fast becoming similar to the satellite  
cities you find on the mainland, eg, Melton in Victoria. All concrete, yuccas and pebbles.  
Our current infrastructure cannot deal with the extra building going on at present  
, ask anyone about their water pressure..pitiful.  
Where are the the green areas which should be included in every few blocks, where are the tree lined streets,  
which should make up for the ones that are always cut down to make way for more houses.  
Does anyone ever wonder or care where the wildlife go when their habitats are destroyed.  
In Robert Street we have an abundance of the above and our grandkids take pleasure in watching the native  
hens and hares playing across the road.  
We hope some thought goes into this amendment and this proposal does not proceed.  
Thank you for your time

Yours faithfully  
Mrs P T Chiddy
