Subject: Kingborough draft Local Provisions Schedule (LPS)

Dear Officer,

I am not sure if you can address the concern of mine expressed below.

I write to express my concern regarding preservation of Environment, trees in general and wildlife (fauna and flora) in particular.

Since I have removed dogs and cats from my property, I have noticed a significant increase in the number of local birds (Tasmanian birds), and marsupials.

The trees and bushes that are significant (especially tall trees and vegetation and local rivulets that feed local life and act as home for them) should be preserved.

Thank you

Farshid Anvari
