**Subject:** Land zoning change

To Whom it May Concern, We, Pierre Provin and Allison Fooks, are writing this email to the Huonvalley Council to express our concern regarding the change in zoning on our property. This property is located at 391 Garden Island Creek Road, Garden Island Creek 7112 and currently zoned 'Environmental Living' We have not been given adequate opportunity to engage a planner and to properly review what the new zoning means to our property and to decide whether or not we agree with these changes a how they effect our plans to build a home. By copy of this email, we are requesting council to accept our representation (submission) to the LPS Planning changes and that I now included in the opportunity to provide more details and undertake a face to face review with the Tasmanian Planning Commission in the near future to review anyzone impacts or changes to my property.  
Kind Regards Pierre Provin and Allison Fooks.
