See attached word document.  
John Diment

**To Huon Valley Council- Representation on PSA 2/2017 and SUB 36/2017 Channel Highway, Cygnet**

I object to this application on the grounds that:

1. Destroys views of Port Cygnet as you enter the town
2. The present traffic infrastructure is inadequate, as well school infrastructure, medical centre availability are inadequate to support an extra 200 people who would live in this development.
3. Has not considered walking tracks or open spaces which are consistent with the Councils Health and Recreational policies.
4. 3 The existing sewerage system cannot cope with these additional houses.
