Hello

Thank you for the opportunity to make a submission or comment in regard to this project.

My concerns being so close is the arrangements made for our street Nielsen Esplanade.

Removal of large Palm type trees. Is this necessary ?

The street is narrow and does not have very much in the way of parking where the four existing homes are Numbers 6 to 12 in particular.

I have a severe disability and have Support Workers/Nurses in and out daily. Where are all the bridge workers going to be parking?

Thank you

Sally Roberts
