Reference: Draft Huon Valley Local Provisions Schedule,  
40 Main Street, Huonville, Tas, 7109

Dear Sir,

I was disappointed that I received your letter so late for me to learn about this Local Provisions Schedule. I am not sure what it means to my bush block at Judd's Creek, Judbury - changing it from Rural Resource to Landscape Conservation.

My bush block has many beautiful, healthy strong gum trees growing there - also many ferns. I may want to cut down some ferns to clear land but 750 square metres are too small. In the future I might want to clear more land & I do not want to be restricted to such a small area.

I do not cut down gum trees & I have cared & looked after this property for 38 years & love the bush.

I hope you will consider this request.

Yours faithfully,

Darrell Bone.
