<p>I wish to make representation about proposed changes to the zoning of my property. It is intended to include the property in the Landscape Conservation zone. The only codes applying to the property include; Bushfire prone and agriculture. The property has been used for agricultural purposes for the past four years. I currently run sheep on the property and it is entirely fenced, external fencing and into 15 small paddocks used for rotational grazing. There is a winter creek on the property that is seperately fenced and no significant or priority vegetation. Some of the boundary of the property has native vegetation. It is more appropriate that the property is zoned 'Rural Living' as it will continue to be used for primary production.</p>
